College of Pharmacy

College of Pharmacy

Overview

Founded in 1884, Purdue's College of Pharmacy consistently ranks among the 10 best pharmacy programs in the nation. Numerous research opportunities, an innovative teaching pedagogy, and world-renowned, caring faculty create a cutting edge learning environment. Employers are drawn by the quality, depth and experiential learning of Purdue pharmacy graduates. The College of Pharmacy is making a difference locally and globally.

Undergraduate Program

The Purdue College of Pharmacy offers an undergraduate program in Pharmacy. All new students enter the College with a major in Pharmaceutical Sciences and then select from one of two educational goals:

Pre-Doctor of Pharmacy is a two-year, non-degree program that is intended to prepare students for entry into the PharmD program. Completing this program, however, does not guarantee entry into the PharmD program.

The Bachelor of Science in Pharmaceutical Sciences (BSPS) is a four-year undergraduate program that stresses the multidisciplinary basic sciences related to drug discovery, development, and commercialization. A degree in this program does not allow graduates to become licensed pharmacists.

Professional Program

Doctor of Pharmacy (Pharm D) - Completion of the Pre-Doctor of Pharmacy coursework is required, after which successful applicants continue their studies for an additional four years. Graduating from this program allows students to sit for the licensure exam to practice pharmacy.

Graduate Programs

The Purdue College of Pharmacy boasts one of the oldest and most-respected graduate programs in the U.S. Each of the three departments of the Purdue College of Pharmacy offer graduate programs:

- Industrial and Physical Pharmacy
- Medicinal Chemistry and Molecular Pharmacology
- Pharmacy Practice

Each department offers a PhD degree program. All of these programs require strong undergraduate preparation, including completion of a Bachelor's Degree for admission.

A combined-degree program allows students in the third year of the PharmD program to begin work on a Pharmacy PhD program while completing the PharmD curricula. Through a judicious choice of electives and research rotations, such students can save up to two years on the total time required for the PhD program. Additional information can be found by reading the full program description.

For more information, please contact Dr. Danzhou Yang, the Associate Dean for Graduate Programs.
Continuing Education Programs

The College's continuing education programs offer several non-degree certificate programs.

College Advising (website)

Contact Information

Prospective Undergraduate and Professional Program Students

Contact Holly W. Keckler, Associate Director for Recruitment, Office of Student Services:

Phone: (765) 496-7381
Fax: (765) 496-1875
E-mail: keckler@purdue.edu
Office: Room 156 RHPH

Prospective undergraduate and professional students who are interested in visiting the College and learning about programs for under-represented populations are urged to contact the Office of Diversity Initiatives to arrange for their visit.

Students completing their pre-pharmacy coursework off-campus should contact T. Patrick George.

Prospective Graduate Students

Generally, you should contact the graduate program in which you are interested. The College's graduate programs are administered by the three departments in the College - Industrial and Physical Pharmacy, Medicinal Chemistry and Molecular Pharmacology, and Pharmacy Practice (includes Pharmacy Administration). Additionally, some of the faculty in the College participate in some of the University's interdisciplinary graduate programs, which can be contacted directly.

If you have difficulty contacting a department or program, you may contact Delayne Graham, Administrative Assistant for Graduate Affairs:

Phone: (765) 494-1362
Fax: (765) 494-7880
E-mail: dkgraham@purdue.edu
Office: Room 112 RHPH
College of Pharmacy Administration

Overview

The Purdue College of Pharmacy, consistently ranked among the 10 best pharmacy programs in the nation, offers a uniquely diverse range of undergraduate and graduate study opportunities. A total of 10 different programs and 700 pharmacy practice experiences prepare students for a range of top-paying careers in the fields of pharmacy, pharmaceutical sciences, and the health sciences.

Undergraduate and Professional Programs

The Purdue College of Pharmacy offers two undergraduate and one professional program:

- The Pre-Doctor of Pharmacy Program is a two-year, non-degree program that is intended to prepare students for entry into the PharmD program below. Completing this program, however, does not guarantee entry into the PharmD program.
- The Bachelor of Science in Pharmaceutical Sciences (BSPS) is a four-year undergraduate program that stresses the multidisciplinary basic sciences related to drug discovery, development, and commercialization. A degree in this program does not allow graduates to become licensed pharmacists.
- The Doctor of Pharmacy (PharmD) is a four-year professional degree program, which requires completion of a recognized pre-pharmacy program. Successful completion of this degree allows you to sit for the licensing exam to practice pharmacy.

Baccalaureate

Pharmaceutical Sciences, BS

About the Program

The B.S. in Pharmaceutical Sciences (BSPS) begins with a foundation of coursework in mathematics and the basic sciences (chemistry, biology, physics). This interdisciplinary program then progresses to advanced coursework in the pharmaceutical sciences, including aspects of drug design and synthesis, mechanisms of drug action, pharmacology and toxicology, dosage formulation, manufacturing, quality assurance, and regulatory compliance. The curriculum also includes elective credits for individual preparation and educational focus.

The BSPS program offers practical experience through internship programs in industry, government agencies, and on-campus research laboratories. Students are encouraged to spend at least one summer in an internship.

The faculty also encourages undergraduate students to engage in mentored laboratory research. Numerous undergraduate research opportunities are available in the Department of Medicinal Chemistry and Molecular Pharmacology and in the Department of Industrial and Physical Pharmacy, during the regular school year and during the summer months as interns. Career path opportunities with a degree in pharmaceutical sciences include entry-level technical positions in the pharmaceutical and biotechnology industry; graduate education in pharmaceutical, medical, and basic sciences; and post-baccalaureate professional education in pharmacy, medicine, law, and business. You should recognize that this is not a professional degree program. Completion of the B.S. in Pharmaceutical Sciences degree requirements does not qualify the student for state board examination to become a registered pharmacist.

Pharmaceutical Sciences Website

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (45 credits)

- PHRM 20100 - Bachelor Of Science In The Pharmaceutical Sciences Orientation II
- MCMC 20400 - Organic Chemistry I
- MCMC 20500 - Organic Chemistry II
- MCMC 20800 - Biochemistry For Pharmaceutical Sciences
- MCMC 42200 - Immunology
- MCMC 54400 - Drug Classes And Mechanisms
- PHRM 46000 - Drug Discovery And Development I
- PHRM 46100 - Drug Discovery And Development II
- PHRM 48500 - Intercultural And Global Health Issues
- PHRM 82400 - Principles Of Pathophysiology And Drug Action
- PHRM 82800 - Dosage Forms I
- PHRM 82900 - Dosage Forms II
- PHRM 83600 - Biochemistry For Pharmaceutical Sciences II
- Pharmacy Special Interest Selective - Credit Hours: 6.00
- Pharmacy Leadership Selective - Credit Hours: 3.00
Other Departmental/Program Course Requirements (58-59 credits)

- AGEC 21700 - Economics *(satisfies Human Cultures: Behavioral/Social Science for core)*
- BIOL 11000 - Fundamentals Of Biology I ♦ *(satisfies Science for core)*
- BIOL 11100 - Fundamentals Of Biology II ♦
- BIOL 22100 - Introduction To Microbiology
- BIOL 30100 - Human Design: Anatomy And Physiology ♦
- BIOL 30200 - Human Design: Anatomy And Physiology ♦
- CHM 12901 - General Chemistry With A Biological Focus ♦ *(satisfies Science for core)*
- CHM 37200 - Physical Chemistry ♦
- ENGL 42000 - Business Writing or
- ENGL 42100 - Technical Writing or
- ENGL 42201 - Writing For The Health And Human Sciences
- MA 16010 - Applied Calculus I *(satisfies Quantitative Reasoning for core)*
- MA 16020 - Applied Calculus II
- PHYS 22000 - General Physics *(satisfies Science for core)*
- STAT 30100 - Elementary Statistical Methods *(satisfies Information Literacy for core)*
- Humanities -
- Oral Communication -
- Science, Technology & Society -
- Written Communication -

Electives (16-17 credits)

- Electives - Credit Hours: 16.00-17.00
  *The following courses are optional, but STRONGLY recommended as electives for the following students:*

  **Pharmaceutical Sciences Students:**
  - IPPH 10000 - Pharmaceutical Sciences Orientation

  **Pre-Doctor of Pharmacy Students:**
  - PHRM 10000 - Pre-Doctor Of Pharmacy Orientation I
  - PHRM 20000 - Pre-Doctor Of Pharmacy Orientation II

Additional Requirements

Pharmacy Special Interest Selectives.
Pharmacy Leadership Selectives.

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

For a complete listing of course selectives, visit the Provost's Website.

Fall 1st Year

- BIOL 11000 - Fundamentals Of Biology I ♦
- CHM 12901 - General Chemistry With A Biological Focus ♦
- MA 16010 - Applied Calculus I ♦
- Oral Communication ♦ -
- Elective (Recommended: IPPH 10000 for Pharmaceutical Sciences students or PHRM 10000 for Pre-Doctor of Pharmacy students) -

16 Credits

Spring 1st Year

- BIOL 11100 - Fundamentals Of Biology II ♦
- MA 16020 - Applied Calculus II ^
- MCMP 20400 - Organic Chemistry I ♦
- Written Communication ♦ -

14-15 Credits

Fall 2nd Year ♦

- BIOL 22100 - Introduction To Microbiology ^
- BIOL 30100 - Human Design: Anatomy And Physiology ♦
- MCMP 20500 - Organic Chemistry II ♦
- STAT 30100 - Elementary Statistical Methods ^
- Elective (Recommended: PHRM 20000 for Pre-Doctor of Pharmacy Students) -

15 Credits
Spring 2nd Year

- AGEC 21700 - Economics
- BIOL 30200 - Human Design: Anatomy And Physiology
- MCMP 20800 - Biochemistry For Pharmaceutical Sciences
- MCMP 42200 - Immunology
- PHYS 22000 - General Physics

16 Credits

Fall 3rd Year

- ENGL 42100 - Technical Writing or
- ENGL 42000 - Business Writing or
- ENGL 42201 - Writing For The Health And Human Sciences
- PHRM 82400 - Principles Of Pathophysiology And Drug Action
- PHRM 82800 - Dosage Forms I
- PHRM 83600 - Biochemistry For Pharmaceutical Sciences II
- Humanities

14 Credits

Spring 3rd Year

- CHM 37200 - Physical Chemistry
- PHRM 20100 - Bachelor Of Science In The Pharmaceutical Sciences Orientation II
- PHRM 82900 - Dosage Forms II
- Pharmacy Special Interest Selective
- Elective

16 Credits

Fall 4th Year

- PHRM 46000 - Drug Discovery And Development I
- Pharmacy Special Interest Selective
- Elective
- Science, Technology & Society Selective
- Pharmacy Leadership Selective

14-15 Credits

Spring 4th Year

- MCMP 54400 - Drug Classes And Mechanisms
- PHRM 46100 - Drug Discovery And Development II
- PHRM 48500 - Intercultural And Global Health Issues
- Elective

14 Credits

Notes

^ Meets Pre-Doctor of Pharmacy Requirements

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Program Information

Pharmacy Leadership Selectives

BSPS Leadership Selectives

- AGEC 43500 - Leadership In A Changing World
- COM 42300 - Leadership, Communication And Organizations
- CSR 30900 - Leadership Strategies
- EDPS 30000 - Student Leadership Development
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills

Department of Industrial and Physical Pharmacy

Overview

The Department of Industrial & Physical Pharmacy (IPPH) is involved in teaching and research in pharmaceutics, with emphasis on the following three minors: industrial pharmacy, pharmacokinetics/biopharmaceutics, and physical pharmacy.

Welcome to the Purdue University Department of Industrial and Physical Pharmacy! This is the place to find out more about our department's ongoing research, graduate degree programs, recent news and upcoming events.

Our mission is:

• to educate and train students to become leading pharmaceutical scientists and pharmacists
• to advance scientific discovery and development, with an emphasis on pharmaceutical formulation, manufacturing and drug delivery, and
• to contribute to the advancement of the pharmaceutical sciences through outreach and public service.

We're an academic department within the College of Pharmacy, located in the R. E. Heine Pharmacy Building (RHPH) on the main (West Lafayette) campus of Purdue University. For contact information, please see the Administration page.

Department of Medicinal Chemistry and Molecular Pharmacology

Overview
The mission of the Department of Medicinal Chemistry and Molecular Pharmacology (MCMP) is to serve the citizens of Indiana, the United States and the world through discovery, learning and engagement that integrates the basic chemical and biological sciences for the improvement of human health. The Department of MCMP is an academic department in the College of Pharmacy. It is located in the R. E. Heine Pharmacy Building (RHPH) and in the Arthur E. Hansen Building (HANS) on the main (West Lafayette) campus of Purdue University.

Department of Pharmacy Practice

Overview

The Department of Pharmacy Practice (PHPR) at Purdue University is an academic department in the College of Pharmacy. It is located in the R. E. Heine Pharmacy Building on the main (West Lafayette) campus of the University and also has facilities in Sidney & Lois Eskenazi Hospital on the Indiana University Medical Center campus in Indianapolis. See the Administration page for information on how to contact the Department of Pharmacy Practice.

The mission of the Department of Pharmacy Practice is to demonstrate excellence through performance in the areas of discovery, learning, and engagement. The Department consists of 26 tenure-track faculty, 11 clinical faculty, and over 600 affiliate faculty preceptors. Many faculty practice in specialized areas such as: drug information, critical care, ambulatory medicine, cardiology, outcomes research, infectious disease, pharmacokinetics/pharmacodynamics, managed care, and pharmacy administration.

The experience and knowledge of the faculty of the Department of Pharmacy Practice enable professional degree students to receive excellent didactic and experiential training necessary to become well-rounded practitioners. The professional curriculum includes general, scientific, and patient centered content that prepares Doctor of Pharmacy graduates to deliver effective and cost-efficient pharmaceutical care.

The Department of Pharmacy Practice supports the College of Pharmacy's vision by:

- Providing education to students that enables them to acquire in-depth expertise in the pharmaceutical, social/economic management, and related sciences in order to function as educators and scientists in higher education, government service, and the pharmaceutical and healthcare industries
- Serving the community by engaging in scholarly activities that lead to improvements in healthcare delivery and enhance health outcomes
- Fostering innovation in research through interdisciplinary collaboration with other schools/colleges within Purdue, other national/international universities, and pharmacy practitioners to enhance to profession body of knowledge resulting in practice advancement
• Contributing to the profession of pharmacy by participation in leadership roles in pharmaceutical organizations and community programs

The Department also has extensive research opportunities for graduate and post-graduate pharmacists leading to M.S. and Ph.D. degrees in either Clinical Pharmaceutical Sciences or Pharmacy Administration. The Graduate Academic Program is directed toward the education and maturation of pharmacists in principles and techniques of research dealing with problems in the clinical, administrative, and educational aspects of pharmacy. These programs also encourage students to develop sound teaching techniques through appropriate coursework and supervised experience.
