Outcomes-based Core Curriculum

The core curriculum is a set of common learning outcomes required of all undergraduate students. It acts as a mechanism by which all Purdue University students share a similar educational experience and, in doing so, achieve a set of common goals.

The core curriculum consists of two levels of learning outcomes: foundational and embedded. All undergraduate students must meet the foundational learning outcomes, which are the same for all students, regardless of discipline or major. Embedded learning outcomes are included in the core requirements of particular degrees or plans of study and are addressed within discipline-specific programs and majors.

Students must complete a minimum of 30 credit hours satisfying the specific foundational learning outcomes. There is no credit requirement for embedded learning outcomes, which will be assessed at the college/school level. Students may meet embedded outcomes by completing identified courses and/or target activities as determined by their program of study.

Undergraduate Curriculum Council Representatives

Council Membership

The membership of the Undergraduate Curriculum Council is comprised of one faculty representative from each College, the Krannert School of Management, and Libraries as voting members. In addition, non-voting members will be added to represent the University Senate, regional campuses, a member of the PWL Registrar's office, PWL Student Government, a head academic advisor, and a representative from the Provost's Office. Faculty members will serve a 3-year term. A faculty representative may serve no more than two consecutive terms before new faculty representatives are appointed. The faculty in each College/School will select its representative to the UCC. (University Senate document 11-7, as amended February 20, 2012)

Council Leadership

The leadership of the UCC will consist of a Chair-elect, a Chair and a Past-chair. These individuals will work closely together.

- Each year the UCC nominates a Chair-elect from the membership of the UCC.
- The Chair-elect will serve a one-year term beginning at the conclusion of the academic year. The Chair-elect will then advance to the office of Chair for one year followed by the office of Past-chair for one year. The Past-chair will rotate off the UCC following completion of his/her term.
- If the UCC fails to successfully nominate a Chair-elect or the Chair-elect cannot succeed the current Chair, the current Chair may be nominated by the UCC to continue for an additional year as Chair and a new Chair-elect will be nominated following the normal procedure. (Undergraduate Curriculum Council minutes, April 24, 2014)

Marcy Towns will serve as Chair, Nancy Gabin will serve as Past-chair, and Jeff Gray will serve as Chair-elect in 2014-2015. For the record, Teresa Doughty served as Chair and Nancy Gabin effectively served as Chair-elect in 2012-2013. Nancy Gabin served as Chair and Marcy Towns effectively served as Chair-elect in 2013-2014.
Why a Core Curriculum at Purdue University

The central motivation behind the core curriculum is to better prepare all Purdue students for future employment success and responsible citizenship. Recent studies indicate employers are seeking employees with a broad set of skills beyond their discipline-specific abilities. A well-rounded, broad-based core curriculum will ensure this need is fulfilled.

Two additional factors support the implementation of a core curriculum: new accreditation requirements and recent legislative initiatives. The Higher Learning Commission of the North Central Association of Colleges and Schools recently updated accreditation mandates that require institutions maintain a minimum requirement for general education. Additionally, Indiana Senate Act 182 (2012) requires state educational institutions to create a statewide transfer general education core to be implemented by May 15, 2013. Purdue's core curriculum fulfills both of these requirements.

Alignment of Indiana's Statewide Transfer General Education Core and Purdue's Core Curriculum
Expected Outcomes

The learning outcomes of the core curriculum are divided into two categories: foundational and embedded. All undergraduate students must meet the foundational learning outcomes, which are the same for all students, regardless of discipline or major. Embedded learning outcomes are included in the core requirements of particular degrees or plans of study and are addressed within courses or activities identified within a specific discipline.

*All students must complete a minimum of 30 credit hours within the foundational core to meet Indiana's Statewide Transfer General Education Core Curriculum. If a student satisfies all five required foundational areas and has earned fewer than 30 credits, he or she must complete an additional course(s) from any foundational area in order to meet the minimum state requirement of 30 credit hours. However, if a student satisfies all five required foundational areas in fewer than 30 credit hours and remains at the Purdue-West Lafayette campus through graduation, he or she will be considered as having completed the core curriculum. The requirement for 30 credit hours applies only when the student may transfer to another Indiana institution and wants his/her core curriculum to count.*

Alignment of Indiana's Statewide Transfer General Education Core and Purdue's Core Curriculum

Statewide Transfer General Education Core FAQs

**Embedded Learning Outcomes**

1. Communication

2. Ways of Thinking
   Faculty within each program area will be responsible for determining where and at what level embedded outcomes will be met within their programs. In addition, program area faculty will be solely responsible for assessing student learning on embedded outcomes within their courses.

3. Interpersonal Skills and Intercultural Knowledge
