Provisions of the long-standing agreement between the College of Agriculture and Vincennes University that were determined in the late 1950s and affirmed by this current agreement, allow students who earn the Associate of Science degree in one of the foregoing concentrations to be admitted to the College of Agriculture with a minimum 2.00 cumulative grade point average. Also, after the Associate in Science Degree is awarded in one of these programs, credits may be transferred for courses in which "D" grades were earned to fulfill requirements. Essentially, this allows students in VU-Purdue Cooperative Agriculture Transfer programs to be treated as if they were resident Purdue students entering their junior year in the College of Agriculture on the West Lafayette campus.
