Science Selectives
CHM 25600 Organic Chemistry II
CHM 25601 Organic Chemistry Lab II

Biology Selectives
AGRY 32000 Genetics
AGRY 32100 Genetics Laboratory
FS 36300 Food Microbiology
ABE/IT 22700 Biotechnology Lab II
BCHM 30700, 30900 Biochemistry
HORT 30100 Plant Physiology
BIOL 11000 Fundamentals of Biology I
BIOL 11100 Fundamentals of Biology II
BIOL 12100 Biology I: Diversity, Ecology, and Behavior
BIOL 13100 Biology II: Diversity, Development, Structure and Function
BIOL 22100 Microbiology
BIOL 23200 Laboratory in Cell Structure and Function
BIOL 24100 Genetics and Molecular Biology
BIOL 24200 Laboratory in Molecular Biology and Genetics
BIOL 30100 Human Anatomy and Physiology
BIOL 30200 Human Design: Anatomy and Physiology
BIOL 47800 Bioinformatics
BIOL 43200 Reproductive Biology
BIOL 43600 Neurobiology
BIOL 49300 Introduction to Ethology
BIOL 53300 Medical Microbiology
IPPH 52100 Drug Development

These classes are pre-approved for Biological Science Selectives, but students are welcome to propose additional classes for this requirement in consultation with their advisor.
