College of Agriculture

Overview

Purdue Agriculture is one of the world's leading colleges that offers food, agricultural, and natural resources programs. We train the next generation, who will drive innovation and discovery to reshape life sciences, biosecurity, the environment, agriculture, and the food system. Purdue Agriculture graduates are in great demand. During the past two decades, more than 90 percent of our graduates were employed or were enrolled in graduate or professional schools within three months of graduation.

Undergraduate Degree

Your undergraduate program will blend courses and experiences in your major with preparation in the life and physical sciences, written and oral communication, social sciences and humanities, multicultural awareness, and international understanding. Professional work experiences, leadership development, participation in student organizations, study abroad, and directed research can add to your professional development.

Graduate Degree

Your master's or doctoral program will be specialized and flexible to prepare you to meet your professional objectives. You'll find that we offer a growing number of multidisciplinary graduate degree programs, using directed experiences and courses from faculty members in one or more Purdue departments or colleges. Business and industry, government, and academic institutions throughout the world recruit our graduates for leading positions.

College of Agriculture Administration

About Agricultural Administration

Purdue University's College of Agriculture is one of the world's leading colleges of agricultural, food, life, and natural resource sciences. As a land-grant institution, we are committed to preparing our students to make a difference, wherever their careers take them; stretching the frontiers of science to find solutions to some of our most pressing global challenges; and, through Purdue Extension and engagement programs, helping the people of Indiana, the nation and the world improve their lives and livelihoods.

Interdisciplinary Agriculture, BS  Students are not admitted directly into this major. See your advisor for more information.

Baccalaureate

Interdisciplinary Agriculture, BS

Degree Requirements

120 Credit Hours

Departmental/Program Major Courses (1 credit)

Required Courses (1 credit)

• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 1XXXX - Introduction to Departmental Academic Programs - Credit Hours: .50

Other Departmental/Program Course Requirements (92-93 credits)

• AGEC 21700 - Economics
• MA 16010 - Applied Calculus I
• BIOL 11000 - Fundamentals Of Biology I
• BIOL 11100 - Fundamentals Of Biology II
• CHM 11100 - General Chemistry
• CHM 11200 - General Chemistry
• STAT 30100 - Elementary Statistical Methods

• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Human Cultures: Humanities – Credit Hours: 3.00 (satisfies Humanities for core)
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00
• Science, Technology and Society – Credit Hours: 3.00 (satisfies Science, Technology and Society for core)
• Agriculture Selective - Credit Hours: 15.00
• Agriculture Selective (30000+ level) - Credit Hours: 12.00
• Mathematics or Science Selective - Credit Hours: 3.00
• Mathematics or Science Selective - Credit Hours: 3.00
• Mathematics or Science Selective - Credit Hours: 3.00

Additional Requirements

Interdisciplinary Agriculture Supplemental Information

Electives (26-27 credits)

• Electives - Credit Hours: 26.00-27.00

College of Agriculture & University Level Requirements

• 2.00 GPA required for Bachelor of Science degree.
• 32 Upper division credits taken from Purdue
• International Understanding Selective - Credit Hours: 9.00
• Multicultural Awareness Selective - Credit Hours: 3.00
• 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 1XXXX - Introduction to Departmental Academic Programs - Credit Hours: 0.50
- BIOL 11000 - Fundamentals Of Biology I
- CHM 11100 - General Chemistry
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

- Agricultural Selective - Credit Hours: 3.00

14-15 Credits

Spring 1st Year

- BIOL 11100 - Fundamentals Of Biology II
- CHM 11200 - General Chemistry

- MA 15800 - Precalculus- Functions And Trigonometry or
- MA 16010 - Applied Calculus I
• Agricultural Selective - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

16 Credits

Fall 2nd Year

• AGEC 21700 - Economics
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Agricultural Selective - Credit Hours: 3.00
• Mathematics and Science Selective - Credit Hours: 3.00
• Human Cultures: Humanities - Credit Hours: 3.00

15 Credits

Spring 2nd Year

• STAT 30100 - Elementary Statistical Methods
• Agricultural Selective - Credit Hours: 6.00
• Science, Technology & Society Selective - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

15 Credits

Fall 3rd year

• Agricultural Selective (30000+ Level) - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Mathematics and Science Selective - Credit Hours: 6.00
• Written or Oral Communication Selective (20000+ Level) - Credit Hours: 3.00

15 Credits

Spring 3rd Year

• Agricultural Selective (30000+ Level) - Credit Hours: 6.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Elective - Credit Hours: 6.00
15 Credits

Fall 4th Year

- Agricultural Selective (30000+ Level) - Credit Hours: 6.00
- Elective - Credit Hours: 9.00

15 Credits

Spring 4th Year

- Agricultural Selective (30000+ Level) - Credit Hours: 6.00
- Humanities or Social Science Selective (30000+ Level) - Credit Hours: 3.00
- Elective - Credit Hours: 5.00-6.00

14-15 Credits

Notes

- Baccalaureate degree plans of study must include a capstone course or experience. Capstone course credits also may be used to fulfill core curriculum requirements or departmental requirements or electives.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Natural Resources and Environmental Science: Air Quality Concentration, BS

About the Program

Natural Resources and Environmental Science (NRES) is an interdisciplinary program that combines classes in the biophysical sciences with classes in environmental policy to develop graduates who are well-equipped to deal with the environmental challenges of the 21st century. Students can choose from one of five concentration areas: air quality, environmental policy and analysis, land resources, water quality, or emerging environmental challenges. NRES graduates work in an exciting variety of environmentally related careers in the public and private sector, including state and federal agencies, consulting firms and non-profits.

Students in the Air Quality Concentration choose 21 credit hours of course work in atmospheric sciences, climate and air pollution.

Natural Resources and Environmental Science Website

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (106-107 credits)

Required Major Courses (10 credits)

- NRES 12500 - Environmental Science And Conservation
- NRES 20000 - Introduction To Environmental Careers
- NRES 25500 - Soil Science
- NRES 23000 - Survey Of Meteorology or

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Natural Resources and Environmental Science: Environmental Policy and Analysis Concentration, BS

About the Program

Natural Resources and Environmental Science (NRES) is an interdisciplinary program that combines classes in the biophysical sciences with classes in environmental policy to develop graduates who are well-equipped to deal with the environmental challenges of the 21st century. Students can choose from one of five concentration areas: air quality, environmental policy and analysis, land resources, water quality, or emerging environmental challenges. NRES graduates work in an exciting variety of environmentally related careers in the public and private sector, including state and federal agencies, consulting firms and non-profits.

Students in the Environmental Policy and Analysis Concentration choose 21 credit hours of course work in planning, policy and sustainability.

Natural Resources and Environmental Science Website

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (106-107 credits)

Required Major Courses (10 credits)
- NRES 12500 - Environmental Science And Conservation
- NRES 20000 - Introduction To Environmental Careers
- NRES 25500 - Soil Science

- NRES 23000 - Survey Of Meteorology or
- AGRY 33500 - Weather And Climate (satisfies Science, Technology & Society Selective for core)

Other Departmental /Program Course Requirements (96-97 credits)

- AGEC 40600 - Natural Resource And Environmental Economics
- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12200 - Introduction To Natural Resources And Environmental Science Academic Programs
- BIOL 11000 - Fundamentals Of Biology I

- BIOL 11100 - Fundamentals Of Biology II or
- BTNY 11000 - Introduction To Plant Science

- CHM 11100 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- CHM 25700 - Organic Chemistry
- FNR 21000 - Natural Resource Information Management
- FNR 37500 - Human Dimensions of Natural Resource Management
- MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)
- MA 16020 - Applied Calculus II
- PHIL 29000 - Environmental Ethics
- POL 22300 - Introduction To Environmental Policy
- POL 32700 - Global Green Politics
- STAT 30100 - Elementary Statistical Methods (satisfies Information Literacy for core)

- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00
- Ecology Selective - Credit Hours: 2.00
- Ecology Selective - Credit Hours: 3.00
- Biochemistry, Biology, Chemistry, Mathematics, Physics, or Statistics Selective - Credit Hours: 9.00
- Environmental Policy and Analysis Selective - Credit Hours: 12.00
- Microeconomics Selective - Credit Hours: 3.00
- Human Cultures: Humanities – Credit Hours: 3.00 (satisfies Humanities for core)
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00

Additional Requirements

Electives (13-14 credits)

- Electives - Credit Hours: 13.00-14.00

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00
  AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Certificate
Deans Scholar Certificate

Selection Criteria

- All students who enter Purdue University College of Agriculture as recipients of the Board of Trustees Scholarship are encouraged to apply to the Dean's Scholars Program as are others fulfilling the following criteria:
  - 3.8/4.0 High School GPA and 1800 SAT/ACT 27 and above OR Valedictorian of high school
- First semester students will be asked to accept a Dean's Scholar status by May 15 and must accept the invitation prior to fall semester.
- Second semester freshmen, sophomores, and transfer students with 60 credits remaining at Purdue may apply if they have a GPA equal to or greater than 3.5. A written essay stating why the student is interested in being a Dean's Scholar is part of the formal application process. Review of applications will be administered by the Office of Academic Programs and the Departmental Honors Coordinator from the department in which the student is enrolled.

Requirements for the Certificate

- AGR 29000 - Special Topics In Agriculture - Credit Hours: 1.00 in Honors Course Seminar including participation in the Dean's Scholars Learning Community
- Honors Coursework - (12 credit hours) Honors Courses
- Undergraduate research (thesis) or Scholarly Project - engagement in a sustained project or creative project leading to new knowledge

Notes

- For more information, please visit the Dean's Scholars Website
- Undergraduate Research: UG Research Website AND UG Honors Research Website
- Scholarly (Creative) Projects
- Scholarly/creative project definitions (not proposal/completion process information unless also completing project for Honors College)
- GPA requirement to earn Dean's Scholars distinction at graduation is 3.25 or above.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Leadership Development Program Certificate

Everyone has leadership potential. Let LDCP help you tap yours!

In LDCP you will gain leadership experience tailored to you and your situation, enjoy one-on-one coaching, and develop the “soft skills” employers today are looking for. And when you complete LDCP and earn your certificate, it will appear on your academic transcript.
You are eligible for LDCP if you:

- Are enrolled as an undergraduate in the Purdue College of Agriculture
- Have at least three semesters remaining on campus before graduation
- Remain in good academic standing

Leadership Development Certificate Program

Program's Philosophy

The following philosophy about leadership was adopted by the College of Agriculture faculty on August 25, 2005. These beliefs serve as the foundation for the Leadership Development Certificate Program.

We believe that all students can and should exercise leadership. Leadership does not require formal authority or position and can be practiced by anyone interested in making a difference in his/her family, workplace, and community.

Leadership is a process of people working together toward common goals that bring about positive change. The effectiveness of leadership is based on trusting relationships. Through this exchange, people influence one another's thoughts and actions. By incorporating the diverse skills and viewpoints of others, individuals are empowered and group energy is mobilized to pursue collective goals. Decisions are made and actions are taken.

The development of leadership begins with personal initiative and an understanding of one's passions, motivations, strengths, limitations, and personal values. This also includes an understanding of the ethical nature of leadership as it relates to one's character and a commitment to act with trustworthiness, respect, responsibility, fairness, caring, and citizenship.

This process of self-discovery is ongoing and requires a commitment to lifelong learning through getting involved, reflecting on the experience, and stretching oneself to meet new challenges. The purpose of leadership development is not only for the benefit of oneself, but also to enable one to be a more effective leader in addressing important issues that affect oneself and others.

Leadership Competencies

The Leadership Development Certificate Program includes four general areas of leadership development and 13 specific skill areas. The faculty expects you to develop at least one skill in each of the four areas during this program.

- Personal leadership development
  - Understands leadership
  - Increases self-awareness
  - Practices ethical behavior
  - Sustains leadership over time
- Interpersonal leadership development
  - Values diversity
  - Enhances communication skills
  - Manages conflict
- Group and organizational leadership development
  - Develops teams
  - Leads change
  - Manages projects
- Community leadership development
  - Practices citizenship
  - Understands community
  - Serves others
Coaches

After you submit a Statement of Intent and a resume, you will be matched with a faculty or administrative professional staff member to guide and support you on your leadership journey. S/he will help you identify your leadership goals, connect you with campus resources, and encourage you to stretch yourself beyond your comfort zone by seeking out new leadership opportunities. The program, however, is yours, and the quality of your learning experiences is up to you.

Requirements for the Certificate

1. Submit your Statement of Intent along with your résumé. Application/Statement of Intent
2. Contact the coach who has been assigned to you.
3. Complete the Leadership Skills and Attributes Self-Assessment.
4. Complete a Personal Development Plan for how you will enhance your leadership development in each of the following leadership pillars (personal, interpersonal, group/organization, and community leadership development).
5. Complete required badges for all four leadership development pillars (5 points required for each pillar) for a minimum of 20 points total via Passport to complete the program. Each leadership activity is eligible for one, two or three points and is achieved when the coach approves the required written reflections submitted by the students via Passport. Badges for each of the four leadership pillars are achieved when written reflections are approved by coaches via Passport.
   a. Earn five points for Personal Leadership
   b. Earn five points for Interpersonal Leadership
   c. Earn five points for Group/Organizational Leadership
   d. Earn five points for Community Leadership
6. Develop an electronic portfolio via Passport that documents your progress on your goals including your personal reflections for each leadership activity and badge completion for the program.

Minor

International Studies in Agriculture Minor

Requirements for the Minor (15 credits)

A. Basic Requirements

- Credit in a foreign language through the fourth course (and one conversation course, if offered).
- In most cases, the language studied must be one spoken in the country or region in which the overseas experience is completed.
• Students whose overseas experience is an English-speaking country may meet the language requirement by studying any foreign language.
• Students whose overseas experience is in a country whose language is not taught at Purdue may substitute any other language spoken in that region of the world.
• Fifteen credits of coursework with an international focus (See Below).
• At least six credits of this coursework should focus on the country/region of the student's overseas experience.
• Additional language courses can be used only if they are nonlinguistic in nature (i.e., literature, culture, etc).
• A minimum of six credits should be completed outside of the College of Agriculture.
• At least eight weeks abroad participating in an approved study abroad, cooperative work experience, internship, or cultural exchange.
• Completion and presentation of a summary paper in a seminar format which assimilates all components of the International Studies Minor.

B. Selective Courses (15 credits)

• AGEC 25000 - Economic Geography Of World Food And Resources
• AGEC 34000 - International Economic Development
• AGEC 45000 - International Agricultural Trade
• AGEC 49800 - Special Problems - Afghanistan Development Challenges
• ANTH 10000 - Introduction To Anthropology
• ANTH 20500 - Human Cultural Diversity
• ANTH 39200 - Selected Topics In Anthropology
• ASEC 33100 - The Role Of Horses In Human History, Culture And Society
• ASEC 55100 - International Engagement And Development Strategies
• CLCS 23010 - Survey Of Greek Literature In Translation
• CLCS 23100 - Survey Of Latin Literature
• CLCS 23200 - Classical Roots Of English Words
• CLCS 23300 - Comparative Mythology
• CLCS 23500 - Introduction To Classical Mythology
• CLCS 23700 - Gender And Sexuality In Greek And Roman Antiquity
• CLCS 23800 - The Tragic Vision
• CLCS 23900 - The Comic Vision
• CLCS 33900 - Literature And The Law
• ECON 37000 - International Trade
• ECON 46600 - International Economics
• ENGL 26600 - World Literature: From The Beginnings To 1700 A.D.
• ENGL 26700 - World Literature: From 1700 A.D. To The Present
• HIST 23005 - Hitler's Europe
• HIST 24000 - East Asia And Its Historic Tradition
• HIST 24100 - East Asia In The Modern World
• HIST 24300 - South Asian History And Civilizations
• HIST 24500 - Introduction To The Middle East History And Culture
• HIST 24600 - Modern Middle East And North Africa
• HIST 27100 - Introduction To Colonial Latin American History (1492-1810)
• HIST 27200 - Introduction To Modern Latin American History (1810 To The Present)
• HIST 30000 - Eve Of Destruction: Global Crises And World Organization In The 20th Century
• HIST 30200 - Historical Topics
• HIST 32300 - German History
• HIST 32400 - Modern France
• HIST 34000 - Modern China
• HIST 34100 - History Of Africa South Of The Sahara
• HIST 34200 - Africa And The West
• HIST 34300 - Traditional Japan
• HIST 34400 - History Of Modern Japan
• HIST 35100 - The Second World War
• HIST 40800 - Dictatorship And Democracy: Europe 1919-1945
• HIST 43900 - Communist China
• HIST 47200 - History Of Mexico
• HIST 59500 - The Holocaust And Genocide
• PHIL 11000 - The Big Questions: Introduction to Philosophy
• PHIL 23000 - Religions Of The East
• PHIL 23100 - Religions Of The West
• POL 13000 - Introduction To International Relations
• POL 14100 - Governments Of The World
• POL 23100 - Introduction To United States Foreign Policy
• POL 23200 - Contemporary Crises In International Relations
• POL 23500 - International Relations Among Rich And Poor Nations
• POL 23700 - Modern Weapons And International Relations
• POL 32700 - Global Green Politics
• POL 33500 - China And The Challenges Of Globalization
• POL 34500 - West European Democracies In The Post-Industrial Era
• POL 34800 - East Asian Politics
• POL 43300 - International Organization
• POL 43400 - United States Foreign Policy, Central America And The Caribbean
• POL 43500 - International Law

Notes

• Credits earned via a Purdue approved Study Abroad Program can be used as long as they fulfill the basic requirements listed above. Namely, focus on the country/region, etc.
• Departmental permission is required to enroll in this minor. Please contact Tim Kerr in Room 121 of the Agricultural Administration Building.
• Students must have their Plan of Study approved a minimum of six months prior to graduation.

Natural Resources and Environmental Science Minor

Requirements for the Minor (15 credits)
Required Course (3 credits)

- NRES 12500 - Environmental Science And Conservation

Area Courses - Choose at least One from each area (12 credits)

General Environmental Science Emphasis

- FNR 21000 - Natural Resource Information Management
- NRES 23000 - Survey Of Meteorology
- NRES 25500 - Soil Science
- POL 22300 - Introduction To Environmental Policy

Ecology Emphasis

- AGRY 34900 - Soil Ecology
- BIOL 48300 - Great Issues: Environmental And Conservation Biology
- ENTM 31100 - Insect Ecology

Policy and Economic Emphasis

- AGEC 40600 - Natural Resource And Environmental Economics
- FNR 37500 - Human Dimensions of Natural Resource Management
- POL 32700 - Global Green Politics

Land Resources Emphasis

- ABE 32500 - Soil And Water Resource Engineering
- AGRY 33700 - Environmental Hydrology
- ASM 23600 - Environmental Systems Management
- NRES 38500 - Environmental Soil Chemistry

Sustainability Emphasis

- AD 39700 - Sustainability In The Built Environment
- BCM 51000 - Topics In Environmentally Sustainable Construction, Design And Development
- CE 35500 - Engineering Environmental Sustainability

Water Quality Emphasis

- ABE 32500 - Soil And Water Resource Engineering
- AGRY 12000 - Water And Food Security
- AGRY 33700 - Environmental Hydrology

Note
- Department permission is not required to enroll in this minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Sustainable Environments Minor

Requirements for the Minor (15 credits)

Required Courses (3 credits)

- NRES 12500 - Environmental Science And Conservation

Selective Courses (12 credits)

- AD 39700 - Sustainability In The Built Environment
- ASM 23600 - Environmental Systems Management
- BCM 51000 - Topics In Environmentally Sustainable Construction, Design And Development
- BIOL 48300 - Great Issues: Environmental And Conservation Biology
- CE 35500 - Engineering Environmental Sustainability
- EAPS 30100 - Oil!
- EAPS 32700 - Climate, Science And Society
- EAPS 37500 - Great Issues - Fossil Fuels, Energy And Society
- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 47000 - Fundamentals Of Planning
- FNR 48800 - Global Environmental Issues
- HORT 44200 - Sustainability In The Managed Landscape
- POL 32700 - Global Green Politics

Note

- Departmental permission is not required to enroll in this minor.

Pre-Program

Plant Studies - Exploratory (Pre)
About the Program

This pre-major is intended to serve as an optional entry point/portal for students interested in life sciences and enrolling in the Purdue College of Agriculture with an interest in plants but who are uncertain about the differences between all the majors and career options. As a Plant Studies- Exploratory major, students will make progress toward their Bachelor of Science degree and engage the numerous experiential learning opportunities (e.g. learning communities, clubs, leadership opportunities, Study Abroad, etc.) offered in the College. Students will have up to 4-semesters or 60 total credits to explore the various majors before selecting one that best meets their educational and career interests. It is anticipated that most students will likely select a major by the end of their first two semesters.

Degree Requirements

37-40 Credits Required

Departmental/Program Major Courses (2.5 credits)

Required Major Courses (2.5 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12500 - Introduction To Plant Science
- AGR 29000 - Special Topics In Agriculture - Study Plants at Purdue Learning Community

Other Departmental/Program Course Requirements (31.5-34.5 credits)

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness ♦
- MA 16010 - Applied Calculus I
- BIOL 11000 - Fundamentals Of Biology I or
- BTNY 11000 - Introduction To Plant Science
- CHM 11100 - General Chemistry or
- CHM 11500 - General Chemistry
- CHM 11200 - General Chemistry ♦ or
- CHM 11600 - General Chemistry ♦
- MA 16020 - Applied Calculus II or
- STAT 30100 - Elementary Statistical Methods
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Selective - Exploratory Plant Science - Credit Hours: 1.00-3.00
Selective - Exploratory Plant Science

- AGRY 10500 - Crop Production
- AGRY 12300 - Genetics And Society
- AGRY 28500 - World Crop Adaptation And Distribution
- BTNY 11100 - Principles Of Plant Biology
- BTNY 20700 - The Microbial World
- BTNY 28500 - Plants And Civilization
- FNR 23000 - The World's Forests And Society
- HORT 10100 - Fundamentals Of Horticulture
- HORT 12100 - Medicine In The Garden
- LA 16100 - Land And Society
- LA 16600 - History And Theory Of Landscape Architecture
- SFS 31200 - Urban Agriculture

Electives (3 credits)

- Electives - Credit Hours: 3.00

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12500 - Introduction To Plant Science
- AGR 29000 - Special Topics In Agriculture - Study Plants at Purdue Learning Community (Credit Hours: 1.00)
- MA 16010 - Applied Calculus I ♦
- BIOL 11000 - Fundamentals Of Biology I or
- BTNY 11000 - Introduction To Plant Science
- CHM 11100 - General Chemistry or
- CHM 11500 - General Chemistry
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

15.5-17.5 Credits

Spring 1st Year

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
- CHM 11200 - General Chemistry ♦ or
- CHM 11600 - General Chemistry ♦
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- MA 16020 - Applied Calculus II or
- STAT 30100 - Elementary Statistical Methods
- Selective - Exploratory Plant Science - Credit Hours: 1.00-3.00
- Elective - Credit Hours 3.00

16-19 Credits

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Pre-Environmental Studies

About the Program

The Pre-Environmental Studies program of study is intended to serve as a portal for students entering Purdue with an interest in environmental studies who are undecided as to the specific program of study in which they want to enroll. Students enrolled in Pre-Environmental Studies are advised about which courses to take in their first year to enable them to transfer into the major they choose at the end of that year.

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12200 - Introduction To Natural Resources And Environmental Science Academic Programs
- CHM 11100 - General Chemistry
- MA 16010 - Applied Calculus I
- NRES 12500 - Environmental Science And Conservation
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

13-14 Credits

Spring 1st Year

- CHM 11200 - General Chemistry
- MA 16020 - Applied Calculus II
- BIOL 11000 - Fundamentals Of Biology I or

Pre-Veterinary Medicine

About the Program

Prevetinary medicine is not really a major, but rather is a collection of prerequisites for admission to Purdue's College of Veterinary Medicine. Students may enter the College of Agriculture in this category, but later must pick a major to pursue. Students pursuing a wide variety of curricula may apply and be admitted to a veterinary college.

The preveterinary medicine curriculum includes courses that are required for admission to the Doctor of Veterinary Medicine degree program offered by the Purdue College of Veterinary Medicine. This program of study, coordinated by the College of Agriculture Office of Academic Programs, emphasizes the biological and physical sciences that are foundations for successful study of veterinary medicine. Also, the curriculum includes courses in communication and the social sciences.

Department of Agricultural and Biological Engineering

Overview
Welcome to the Department of Agricultural & Biological Engineering at Purdue University. Our mission is to prepare students, citizens, and industry for the future through innovative education and extension/outreach programs and the discovery of knowledge.

Our cross-disciplinary strengths include academic and research programs in agriculture, biology, and engineering, as well as dual degree programs. Agricultural and Biological Engineering offers three degree programs, including two engineering programs: Bachelor of Science in Agricultural Engineering (BSAGE) and Bachelor of Science in Biological Engineering (BSBE), and one agriculture program: Agricultural Systems Management, BS. ABE's degree programs also offer multiple majors and concentrations. The job market remains strong for our graduates who have excellent career opportunities, and demand for our graduates is very high.

Our faculty, students and staff are pursuing cutting-edge research that improves quality of life as well as advances scientific and engineering frontiers. Our extension programs are helping citizens of Indiana and beyond improve their lives.

Agricultural Systems Management

The Agricultural Systems Management program prepares graduates to develop and manage technology-intensive agricultural production and processing systems. ASM graduates are problem solvers. They benefit from a diverse applied agricultural curriculum that includes opportunities for extensive career-related experience at home and abroad.

Biological Engineering

This program deals with the applications of basic scientific and engineering principles to the design, development and operation of large scale manufacture of food and biologically-based products. Such products are environmentally friendly, renewable and represent a future wave of consumer demand for better health and environment. In addition to learning the engineering aspects of food and biological processing, you will also learn the basic principles in biochemistry and food sciences.

Dual Degree programs with Biological Engineering and Biochemistry or Pharmaceutical Sciences are also offered - these programs require an additional year of courses leading to two degrees.

Agricultural Engineering - emphasis in Environmental & Natural Resources Engineering

This emphasis area prepares engineers with specialized expertise to design and analyze new and environmentally sound ways to produce food and fiber while conserving our natural resources. Students gain expertise in areas such as watershed management, geographic information systems, computer-based watershed modeling, and contaminant transport models, and soil and water conservation engineering practices.

Agricultural Engineering - emphasis in Machine Systems Engineering

This emphasis area prepares students with a background in mechanical design, hydraulics, instrumentation and control, finite element analysis, electronics and sensors to design, develop, analyze and operate machines and systems for agricultural and biological products and processes, materials handling, construction and mining, forestry, lawn- and ground-care, and food and fiber production and processing.

**Undergraduate Information**

For undergraduate programs and information, please see the College of Agriculture, or the Department of Agricultural and Biological Engineering page.

**Graduate Information**

For Graduate Information please see Agricultural and Biological Engineering Graduate Program Information.

**Baccalaureate**

**Agricultural Engineering, BSAGE**

**About the Program**

The Agricultural Engineering program is accredited by the Engineering Accreditation Commission of ABET.

Agricultural engineers apply their knowledge of agricultural systems, natural resources, and engineering to equipment design and assure environmental compatibility of practices used by production agriculture. The Agricultural Engineering curriculum offers great breadth, with specialization choices in machine systems engineering and environmental and natural resources engineering. Subject areas include computer-aided engineering, fluid power, finite element analysis, natural resource conservation, and engineering properties of biological materials. Excellent career opportunities exist in product engineering, equipment research and design, facilities design, environmental consulting, and engineering management. Students in this program earn a Bachelor of Science in Agricultural Engineering, (BSAGE).

Agricultural and Biological Engineering

**Degree Requirements**

**128 Credits Required**
Departmental/Program Major Courses (125-126 credits)

Required Major Courses (34 credits)

- ABE 20500 - Computations For Engineering Systems
- ABE 21000 - Thermodynamics Principles Of Engineering And Biological Systems
- ABE 29000 - Sophomore Seminar (satisfies Science, Technology, and Society for core)
- ABE 30500 - Physical Properties Of Biological Materials
- ABE 31400 - Design Of Electronic Systems
- ABE 32000 - Solid Modeling, Simulation, And Analysis
- ABE 32500 - Soil And Water Resource Engineering
- ABE 33000 - Design Of Machine Components
- ABE 43500 - Hydraulic Control Systems For Mobile Equipment
- ABE 45000 - Finite Element Method In Design And Optimization
- ABE 48400 - Project Planning And Management
- ABE 48600 - Agricultural Engineering Design (Capstone)
- ABE 49000 - Professional Practice In Agricultural And Biological Engineering

Other Departmental /Program Course Requirements (91-92 credits)

• Engineering Technical Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Elective - Credit Hours: 2.00 or 3.00 (Depending on choice of CHM 11600 or CS 15900)

14-15 Credits

Notes

• 2.0 GPA required for Bachelor of Science degree.
• Consultation with an advisor may result in an altered plan customized for an individual student.
• Official and complete prerequisite lists are in the course catalog.

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Agricultural Systems Management, BS

About the Program

Agricultural Systems Management (ASM) prepares individuals to organize and manage environmentally sound, technology-based businesses. The program's emphasis is on planning and directing an industry or business project with responsibility for results. ASM is based on an understanding of how equipment and buildings are used with plants and animals and their products. These processes require an understanding of the biological sciences to produce and maintain top product quality.
Computer skills are taught and used throughout the curriculum. Computers are used to collect and analyze data, and then using that information, to control machines and processes. Other uses involve planning layouts of equipment and buildings, creating graphics for reports, etc. Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

In addition to the established Agricultural Systems Management program, students can choose to specialize in one of the following concentrations.

- Data & Information Systems
- Leadership & Management
- Agro-Security

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
- Personalized advising and attention from faculty
- Practical curriculum for industrial careers
- Great opportunities for scholarships and internships
- Excellent placement record and starting salaries

Watch a video and take a look at some senior projects. We hope to see you in ABE soon!

13-16 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Official and complete prerequisite lists are in the course catalog; the incomplete listing presented here regards this program and course sequencing.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Agricultural Systems Management: AgroSecurity, BS

About the Program

Agricultural Systems Management (ASM) prepares individuals to organize and manage environmentally sound, technology-based businesses. The program's emphasis is on planning and directing an industry or business project with responsibility for results. ASM is based on an understanding of how equipment and buildings are used with plants and animals and their products. These processes require an understanding of the biological sciences to produce and maintain top product quality.

Computer skills are taught and used throughout the curriculum. Computers are used to collect and analyze data, and then using that information, to control machines and processes. Other uses involve planning layouts of equipment and buildings, creating graphics for reports, etc. Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

Agriculture is vulnerable to a wide range of threats with the potential of disrupting both local and national food security. The Agro-security concentration enables students to acquire a higher level of specialization in the principles and practices needed to pursue employment in areas related to the prevention, preparedness, mitigation, response, and recovery related to threats to agricultural resources from field to table. Completion of this concentration will open up opportunities in positions that address loss prevention, risk management, regulatory compliance, and emergency management. Students will still also get the Food and Agribusiness Management Minor.

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
- Personalized advising and attention from faculty
- Practical curriculum for industrial careers
- Great opportunities for scholarships and internships
- Excellent placement record and starting salaries

Agricultural Systems Management: Data and Information Systems, BS
About the Program

Agricultural Systems Management (ASM) prepares individuals to organize and manage environmentally sound, technology-based businesses. The program’s emphasis is on planning and directing an industry or business project with responsibility for results. ASM is based on an understanding of how equipment and buildings are used with plants and animals and their products. These processes require an understanding of the biological sciences to produce and maintain top product quality.

Computer skills are taught and used throughout the curriculum. Computers are used to collect and analyze data, and then using that information, to control machines and processes. Other uses involve planning layouts of equipment and buildings, creating graphics for reports, etc. Agricultural Systems Management students also take several courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

The Data and Information Systems concentration supports the growing data and information need in agriculture and is structured so that students can readily obtain the Computer and Information Systems minor. Industry is seeking graduates who understand cropping and animal agriculture; they also wish they had stronger information technology skills such as programming, app development, and data handling. This concentration addresses this need and complements the facility and equipment technology focus of the ASM major. Students will still also get the Food and Agribusiness Management Minor.

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
- Personalized advising and attention from faculty
- Practical curriculum for industrial careers
- Great opportunities for scholarships and internships
- Excellent placement record and starting salaries

Agricultural Systems Management: Leadership and Management, BS

About the Program

Agricultural Systems Management (ASM) prepares individuals to organize and manage environmentally sound, technology-based businesses. The program's emphasis is on planning and directing an industry or business project with responsibility for results. ASM is based on an understanding of how equipment and buildings are used with plants and animals and their products. These processes require an understanding of the biological sciences to produce and maintain top product quality.
Computer skills are taught and used throughout the curriculum. Computers are used to collect and analyze data, and then using that information, to control machines and processes. Other uses involve planning layouts of equipment and buildings, creating graphics for reports, etc. Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

Agricultural Systems Management students also take several of courses in communications, business management and agricultural sciences, in addition to their specialty courses based in the Agricultural and Biological Engineering Department. The program provides an in-depth technical knowledge for selecting and applying advanced technologies in the food, feed, fiber, and fuel system. Graduates are prepared to solve a wide variety of business and technical problems in a job field that continues to grow.

The Leadership & Management concentration more adequately prepares graduates for supervision and leadership in the technology arena of agribusiness. The 4 Organizational Leadership and Supervision (or Technology Leadership and Innovation) courses lead to the Organizational and Leadership Supervision minor for added credentials in this area. Students will still also get the Food and Agribusiness Management Minor.

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
- Personalized advising and attention from faculty

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11100 - Introduction To Agricultural And Biological Engineering Academic Programs
- ASM 10400 - Introduction To Agricultural Systems
• CHM 11100 - General Chemistry
• MA 16010 - Applied Calculus I
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Economics Selective - Credit Hours: 3.00

16 Credits

Spring 1st Year

• ASM 10500 - Agricultural Systems Computations And Communication
• CHM 11200 - General Chemistry
• PHYS 21400 - The Nature Of Physics

• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• Human Cultures: Humanities Selective - Credit Hours: 3.00

15-16 Credits

Fall 2nd Year

• ASM 21100 - Technical Graphic Communications
• ASM 22100 - Career Opportunities Seminar
• ASM 22200 - Crop Production Equipment ♦
• STAT 30100 - Elementary Statistical Methods
• Biological Science Selective - Credit Hours: 4.00

14 Credits

Spring 2nd Year

• AGEC 35200 - Quantitative Techniques For Firm Decision Making
• AGRY 25500 - Soil Science

• MGMT 20000 - Introductory Accounting or
• MGMT 20010 - Business Accounting

• Biological Science Selective - Credit Hours: 4.00
• ASM Selective - Credit Hours: 3.00
16 Credits

Fall 3rd Year

- AGEC 33100 - Principles Of Selling In Agricultural Business
- ASM Selective - Credit Hours: 3.00
- Written or Oral Communication Selective - Credit Hours: 3.00
- Marketing Selective - Credit Hours: 3.00
- Science, Technology & Society Selective - Credit Hours: 3.00

15 Credits

Spring 3rd Year

- AGEC 33000 - Management Methods For Agricultural Business
- ASM 33300 - Facilities Planning And Management
- ASM 35000 - Safety In Agriculture
- OLS 25200 - Human Relations In Organizations
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00

16 Credits

Fall 4th Year

- ASM 42100 - Senior Seminar
- ASM 49400 - Project Planning And Management
- OLS 27400 - Applied Leadership
- OLS 28400 - Leadership Principles
- ASM Selective - Credit Hours: 3.00

- AGEC 45500 - Agricultural Law or
- MGMT 45500 - Legal Background For Business I

14 Credits

Spring 4th Year

- ASM 49500 - Agricultural Systems Management Capstone Project
- OLS 38600 - Leadership For Organizational Change And Innovation
- ASM Selective (40000+ level) - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Elective - Credit Hours: 1.00-4.00

13-16 Credits
Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Biological Engineering, BSBE

About the Program

The Biological Engineering program is accredited by the Engineering Accreditation Commission of ABET.

The world has tremendous need for solutions to problems related to the environment, energy, health, food, and sustainability. Biological systems are related to or at the heart of all of these issues. A biological engineer learns to design and analyze biological systems to develop innovative and practical solutions. Our B.S. graduates are well prepared for careers in the food industry, pharmaceutical industry, biotechnology, and bioprocessing as well as entrance into graduate or medical school. Students may select a major and plan of study within biological engineering that is tailored to their specific career goals. Students in this program earn a Bachelor of Science in Biological Engineering, (BSBE). Some areas of focus include:

**BioEnvironmental engineering:** Bioprocessing manufacturers, including food and pharmaceutical industries are looking for innovative environmental controls, waste processing, and water treatment to meet corporate sustainability goals and to comply with increasingly strict governmental regulations. The engineering rules-of-thumb and design heuristics based on past practices that have been the standard in municipal wastewater treatment design are less applicable to treating the highly variable waste stream characteristics of specialized industries. In addition, there exists a high potential for identifying value added products from these water streams.
**Cellular and biomolecular engineering:** This emerging field is expected to rapidly advance and open opportunities in biomanufacturing, drug design, human therapeutics, tissue and organ regeneration, bioenergy and biofuel production, bioremediation, and biodefense.

**Food & Biological process engineering:** This is an interdisciplinary field that applies the basic sciences, mathematics, and engineering to convert agricultural commodities into edible foods and biological materials through various processing steps. Advances in genetic engineering lead to new types of crops and new processing methods to create value added products.

**Pharmaceutical process engineering:** This program of study is targeted to provide graduates with unique skills and job opportunities to take on roles within all phases of the pharmaceutical industry including research, product and process development, processing engineering, manufacturing, and marketing.

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
- Personalized advising and attention from faculty
- Practical curriculum for industrial careers
- Great opportunities for scholarships and internships
- Excellent placement record and starting salaries

Watch a video and take a look at some senior projects. We hope to see you in ABE soon!

### Degree Requirements

**129 Credits Required**

**Departmental/Program Major Courses (45 credits)**

**Required Major Courses (45 credits)**

- ABE 20100 - Thermodynamics In Biological Systems I
- ABE 20200 - Thermodynamics In Biological Systems II
- ABE 29000 - Sophomore Seminar (satisfies Science, Technology, and Society for core)
- ABE 30100 - Numerical And Computational Modeling In Biological Engineering
- ABE 30300 - Applications Of Physical Chemistry To Biological Processes
- ABE 30400 - Bioprocess Engineering Laboratory
- ABE 30700 - Momentum Transfer In Food And Biological Systems
- ABE 30800 - Heat And Mass Transfer In Food And Biological Systems
- ABE 37000 - Biological/Microbial Kinetics And Reaction Engineering
- ABE 45700 - Transport Operations In Food And Biological Engineering I
- ABE 46000 - Sensors And Process Control
- ABE 49000 - Professional Practice In Agricultural And Biological Engineering
- ABE 55700 - Transport Operations In Food And Biological Systems II
- ABE 55800 - Process Design For Food And Biological Systems
• ABE Engineering Selectives - Credit Hours: 6.00

- Consultation with an advisor may result in an altered plan customized for individual student.

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Biological Engineering: Food and Biological Process Engineering Concentration, BSBE

About the Program

The Biological Engineering program is accredited by the Engineering Accreditation Commission of ABET.

The world has tremendous need for solutions to problems related to the environment, energy, health, food, and sustainability. Biological systems are related to or at the heart of all of these issues. A biological engineer learns to design and analyze biological systems to develop innovative and practical solutions. Our B.S. graduates are well prepared for careers in the food industry, pharmaceutical industry, biotechnology, and bioprocessing as well as entrance into graduate or medical school. Students may select a major and plan of study within biological engineering that is tailored to their specific career goals. Students in this program earn a Bachelor of Science in Biological Engineering, (BSBE). Some areas of focus include:

This is an interdisciplinary field that applies the basic sciences, mathematics, and engineering to convert agricultural commodities into edible foods and biological materials through various processing steps. Advances in genetic engineering lead to new types of crops and new processing methods to create value added products.

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

- Multiple opportunities for interaction with faculty in laboratories and in classes
- Student Competitions, Clubs, Global Experiences
• Personalized advising and attention from faculty
• Practical curriculum for industrial careers
• Great opportunities for scholarships and internships
• Excellent placement record and starting salaries

Watch a video and take a look at some senior projects. We hope to see you in ABE soon!

Environmental and Natural Resources Engineering, BSAGE

About the Program

The Environmental and Natural Resources Engineering program is accredited by the Engineering Accreditation Commission of ABET.

In Environmental and Natural Resources Engineering, a major within Agricultural Engineering, students learn about ecosystem processes (the water cycle, nutrient transformation processes, and biological systems), how human activities such as agriculture affect these complex systems, and how to design sustainable solutions. Basic engineering principles, as well as some of the newest technological approaches, are applied to solve challenges related to soil and plant environments, surface and ground water quality, air quality, animal environments, and food safety. Graduates work in exciting careers in federal, state, and local government, engineering consulting firms, and industry, or pursue graduate study opportunities. Students in this program earn a Bachelor of Science in Agricultural Engineering, (BSAGE).

Some of the factors that contribute to Agricultural & Biological Engineering at Purdue University being a top ranked program:

• Multiple opportunities for interaction with faculty in laboratories and in classes
• Student Competitions, Clubs, Global Experiences
• Personalized advising and attention from faculty
• Practical curriculum for industrial careers
• Great opportunities for scholarships and internships
• Excellent placement record and starting salaries

- ABE 29000 - Sophomore Seminar (satisfies Science, Technology, and Society for core)
- ABE 30500 - Physical Properties Of Biological Materials
- ABE 31400 - Design Of Electronic Systems
- ABE 32500 - Soil And Water Resource Engineering
- ABE 33000 - Design Of Machine Components
- ABE 45000 - Finite Element Method In Design And Optimization
- ABE 48400 - Project Planning And Management
- ABE 48600 - Agricultural Engineering Design (Capstone)
- ABE 49000 - Professional Practice In Agricultural And Biological Engineering

Other Departmental /Program Course Requirements (98 - 99 credits)

Click here for First-Year Engineering Requirements

- (If pursuing Bachelor of Science in Environmental and Natural Resources Engineering, CHM 11600 - General Chemistry is required to graduate, but not required to complete the First Year Engineering program.)
- ENGR 13100 - Transforming Ideas To Innovation I
- ENGR 13200 - Transforming Ideas To Innovation II
- CHM 11500 - General Chemistry
- CHM 11600 - General Chemistry
- PHYS 17200 - Modern Mechanics
- PHYS 24100 - Electricity And Optics
- MA 16500 - Analytic Geometry And Calculus I
- MA 16600 - Analytic Geometry And Calculus II
- MA 26100 - Multivariate Calculus
- MA 26200 - Linear Algebra And Differential Equations
- ME 27000 - Basic Mechanics I
- ME 27400 - Basic Mechanics II ♦
- NUCL 27300 - Mechanics Of Materials
- CE 34000 - Hydraulics and
- CE 34300 - Elementary Hydraulics Laboratory
- AGRY 25500 - Soil Science

- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Agricultural Selective - Credit Hours: 3.00
• Biological Science Selective - Credit Hours: 4.00
• Biological Science Selective - Credit Hours: 4.00
• Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
• Engineering Technical Selective - Credit Hours: 3.00
• Engineering Technical Selective - Credit Hours: 3.00
• ENRE Technical Selective - Credit Hours: 3.00
• ENRE Technical Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Human Cultures: Humanities (satisfies Humanities for core) - Credit Hours: 3.00
• Written and Oral Communication Selective - Credit Hours: 3.00

Additional Degree Requirements

Click here for Environmental and Natural Resources Engineering Supplemental Information

Electives (1-2 credits)

• Electives - Credit Hours: 1.00-2.00

College of Agriculture & University Level Requirements

• 2.00 GPA required for Bachelor of Science degree.
• 32 Upper division credits taken from Purdue
• International Understanding Selective - Credit Hours: 6.00
• Multicultural Awareness Selective - Credit Hours: 3.00
• 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
• Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

• Human Cultures Humanities
• Human Cultures Behavioral/Social Science
• Information Literacy
• Science #1
• Science #2
• Science, Technology, and Society
• Written Communication
• Oral Communication
• Quantitative Reasoning

For a complete listing of course selectives, visit the Provost's Website.

Program Requirements

Fall 1st Year

• ENGR 13100 - Transforming Ideas To Innovation I
• MA 16500 - Analytic Geometry And Calculus I
• CHM 11500 - General Chemistry
• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• Human Cultures: Humanities Selective - Credit Hours: 3.00

16-17 Credits

Spring 1st Year

• ENGR 13200 - Transforming Ideas To Innovation II
• MA 16600 - Analytic Geometry And Calculus II
• CHM 11600 - General Chemistry
• PHYS 17200 - Modern Mechanics
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

17 Credits

Fall 2nd Year

• ABE 20500 - Computations For Engineering Systems
• ABE 29000 - Sophomore Seminar
• MA 26100 - Multivariate Calculus
- ME 27000 - Basic Mechanics I
- PHYS 24100 - Electricity And Optics
- Economics Selective - Credit Hours: 3.00

17 Credits

Spring 2nd Year

- ABE 21000 - Thermodynamics Principles Of Engineering And Biological Systems
- MA 26200 - Linear Algebra And Differential Equations
- ME 27400 - Basic Mechanics II ♦
- NUCL 27300 - Mechanics Of Materials
- Biological Science Selective - Credit Hours: 4.00

17 Credits

Fall 3rd Year

- ABE 30500 - Physical Properties Of Biological Materials
- ABE 32500 - Soil And Water Resource Engineering
- AGRY 25500 - Soil Science
- CE 34000 - Hydraulics and
- CE 34300 - Elementary Hydraulics Laboratory
- Humanities or Social Science Selective - Credit Hours: 3.00

17 Credits

Spring 3rd Year

- ABE 31400 - Design Of Electronic Systems
- ABE 33000 - Design Of Machine Components
- ENRE Technical Selective - Credit Hours: 3.00
- Biological Science Selective - Credit Hours: 4.00
- Agricultural Selective - Credit Hours: 3.00

16 Credits

Fall 4th Year

- ABE 45000 - Finite Element Method In Design And Optimization
- ABE 48400 - Project Planning And Management
- ABE 49000 - Professional Practice In Agricultural And Biological Engineering
- ENRE Technical Selective - Credit Hours: 3.00
- Engineering Technical Selective - Credit Hours: 3.00
- Written or Oral Communication Selective - Credit Hours: 3.00
14 Credits

Spring 4th Year

- ABE 48600 - Agricultural Engineering Design
- Engineering Technical Selective - Credit Hours: 3.00
- Humanities or Social Selective - Credit Hours: 3.00
- Humanities or Social Selective (30000+) - Credit Hours: 3.00
- Elective - Credit Hours: 1.00-2.00

13-14 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Minor

Agricultural Systems Management Minor

Requirements for the Minor (18 credits)

Required Courses (6 credits)

- ASM 10400 - Introduction To Agricultural Systems
- ASM 10500 - Agricultural Systems Computations And Communication

Elective Courses - Choose Four (12 credits)
• Only three credits may be from courses other than Agricultural Systems Management (ASM).
• At least six credits must be 30000+ level courses.
• AGEC 31000 - Farm Organization
• AGEC 33000 - Management Methods For Agricultural Business
• AGRY 37500 - Crop Production Systems
• ANSC 22100 - Principles Of Animal Nutrition
• ASM 20100 - Construction And Maintenance
• ASM 21100 - Technical Graphic Communications
• ASM 22200 - Crop Production Equipment
• ASM 23600 - Environmental Systems Management
• ASM 24500 - Materials Handling And Processing
• ASM 33300 - Facilities Planning And Management
• ASM 34500 - Power Units And Power Trains
• ASM 42000 - Electric Power And Controls
• ASM 42200 - Advanced Machine Technology For Agricultural Crop Production
• ASM 49000 - Special Problems
• ASM 49100 - Special Topics
• ASM 51000 - Agrosecurity-Emergency Management For Agricultural Production Operations
• ASM 53000 - Power And Machinery Management
• ASM 54000 - Geographic Information System Application
• ASM 55000 - Grain Drying And Storage
• ASM 59000 - Special Problems
• ASM 59100 - Special Topics

Notes

• Department Permission is not required to enroll in this minor.
• No more than 6 credits of special problems (ASM 49000 and/or 59000) may apply to the minor and application of the special problems to the minor must be stated on the course contract form.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Pre-Program

Pre-Agricultural and Biological Engineering

About the Program

Upon successful completion of one year of pre-engineering curriculum, students can move to their professional program of choice within Agricultural and Biological Engineering.

Department of Agricultural and Biological Engineering
Program Requirements

Fall 1st Year

- ENGR 13100 - Transforming Ideas To Innovation I (satisfies Information Literacy for core)
- CHM 11500 - General Chemistry (satisfies Science for core)
- MA 16500 - Analytic Geometry And Calculus I (satisfies Quantitative Reasoning for core)
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- Human Culture Humanities Selective - Credit Hours: 3.00

16-17 Credits

Spring 1st Year

- ENGR 13200 - Transforming Ideas To Innovation II
- MA 16600 - Analytic Geometry And Calculus II
- PHYS 17200 - Modern Mechanics
- CHM 11600 - General Chemistry or
- CS 15900 - C Programming
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

16-17 Credits

Notes

- MA 16100 and MA 16200 are alternatives to MA 16500 and 16600, respectively.
- Students pursuing the Agricultural Engineering major may take CHM 11600 or CS 15900. All others should take CHM 11600.
- Students must earn a C- or better in all courses used to fulfill the above requirements if the grade is posted to the Purdue transcript, with the exception of the Human Culture Humanities Selective.
- Official and complete prerequisite lists are in the course catalog; the incomplete listing presented here regards this program and course sequencing.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Program Information

Agricultural Engineering Supplemental Information

Engineering Technical Selective (6 Credits)

- ABE 46000 - Sensors And Process Control
- ABE 49500 - Select Topics In Agricultural And Biological Engineering
- ABE 49800 - Undergraduate Research In Agricultural And Biological Engineering
- ABE 49900 - Thesis Research
- ABE 50100 - Welding Engineering
- ABE 53100 - Instrumentation And Data Acquisition
- ABE 54500 - Design Of Off-Highway Vehicles
- ABE 58000 - Process Engineering Of Renewable Resources
- CE 38300 - Geotechnical Engineering I
- ECE 20700 - Electronic Measurement Techniques
- IE 37000 - Manufacturing Processes I
- IE 34300 - Engineering Economics
- IE 57700 - Human Factors In Engineering
- ME 26300 - Introduction To Mechanical Engineering Design, Innovation And Entrepreneurship
- ME 30000 - Thermodynamics II
- ME 31500 - Heat And Mass Transfer
- ME 36500 - Measurement And Control Systems I
- ME 37500 - Measurement And Control Systems II
- ME 41300 - Noise Control
- ME 41800 - Engineering Of Environmental Systems And Equipment
- ME 43300 - Principles Of Turbomachinery
- ME 44000 - Automotive Prime Movers: Green Engines And Clean Fuel
- ME 47500 - Automatic Control Systems
- MSE 23000 - Structure And Properties Of Materials

Agricultural Selective (3 Credits)

- ABE 10000:59999
- AGEC 10000:59999
- AGR 10000:59999
- AGRY 10000:59999
- ANSC 10000:59999
- ASEC 10000:59999
- ASM 10000:59999
- BCHM 10000:59999
- BTNY 10000:59999
- ENTM 10000:59999
- FNR 10000:59999
- FS 10000:59999
- HORT 10000:59999
Biological Science Selective (8 Credits)

- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 12100 - Biology I: Diversity, Ecology, And Behavior
- BIOL 13100 - Biology II: Development, Structure, And Function Of Organisms
- BIOL 19500 - Special Assignments - First Year Biology Lab
- BIOL 20300 - Human Anatomy And Physiology
- BIOL 20400 - Human Anatomy And Physiology
- BIOL 22100 - Introduction To Microbiology
- BIOL 23000 - Biology Of The Living Cell
- BIOL 23100 - Biology III: Cell Structure And Function
- BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
- BIOL 29500 - Special Assignments - Quant Biol Living Cell
- BTNY 11000 - Introduction To Plant Science

Written and Oral Communication Selective (3 Credits)

- ASL 10000:59999
- COM 20000:59999
- ENGL 20000:59999
- AGR 20100 - Communicating Across Culture
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills
- ENTM 20100 - Scientific And Technical Communication

Economic Selective (3 Credits)

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy
- AGEC 21700 - Economics
- ECON 21000 - Principles Of Economics
- ECON 21700 - Economics
- ECON 25100 - Microeconomics
- ECON 25200 - Macroeconomics

Biological Engineering: BioEnvironmental Supplemental Information

BioEnvironmental Selectives (3 credits)

The BioEnvironmental Concentration requires 3 credits of courses labeled BioEnvironmental Selectives. Below is a list of recommended and approved engineering courses which can be used to satisfy this requirement. Other engineering courses can be selected, but must be reviewed for acceptable on an individual basis. See your academic advisor for additional assistance.

- ABE 58000 - Process Engineering Of Renewable Resources

Biological Science Selective (8 credits)

- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 13100 - Biology II: Development, Structure, And Function Of Organisms
- BIOL 13500 - First Year Biology Laboratory
- BIOL 20300 - Human Anatomy And Physiology
- BIOL 20400 - Human Anatomy And Physiology
- BIOL 22100 - Introduction To Microbiology
- BIOL 24100 - Biology IV: Genetics And Molecular Biology
- BIOL 24200 - Laboratory In Biology IV: Genetics And Molecular Biology
- BTNY 11000 - Introduction To Plant Science
- BTNY 11100 - Principles Of Plant Biology

Written or Oral Communication (3 credits)

- ASL 10000:59999
- COM 20000:59999
- ENGL 20000:59999
- AGR 20100 - Communicating Across Culture
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills
• ENTM 20100 - Scientific And Technical Communication
• ASEC 44000 - Methods Of Teaching Agricultural Education

Economics Selective (3 credits)

• AGEC 21700 - Economics
• AGEC 20400 - Introduction To Resource Economics And Environmental Policy
• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• ECON 21700 - Economics
• ECON 25100 - Microeconomics
• ECON 25200 - Macroeconomics

Humanities or Social Science Selective (6 credits)

Department of Agricultural Economics
Overview

The Department of Agricultural Economics has a long history of preparing students for careers in the food and agricultural industry as well as preparation for graduate and law school. The variation of majors offers students the opportunity to focus in agribusiness, economics, sales and marketing, or farm management.

Students have the opportunity to learn from faculty who lead the department's Center for Food and Agricultural Business and the Center for Commercial Agriculture. The Center for Food and Agricultural Business combines research with real-world applications to offer seminars, workshops, and custom programs to the same companies that are hiring our undergraduate students for internships and full-time positions. The Center for Commercial Agriculture has a vision to "be the leading source of management education and knowledge generation for farmers" bringing a wealth of experienced faculty to guide students interested in a career path in production agriculture.

Students are advised by a passionate group of academic advisors who encourage students to enhance their Purdue experience by participating in transformational experiences. These experiences range from attending a national or campus leadership conference, studying abroad, competing in an academic competition, completing an undergraduate research project, serving as an officer in one of the numerous campus organizations, etc.

The Advising & Student Services Office for the department is located in Room 681 of the KRAN Building.

Graduate Information

For Graduate Information please see Agricultural Economics Graduate Program Information.

Baccalaureate

Agribusiness: Agribusiness Management Concentration, BS
About the Program

Students completing a degree in Agribusiness must choose a concentration from five choices: Agribusiness Management, Agricultural Finance, Agricultural Marketing, Commodity Marketing, and Food Marketing. The Agribusiness Management concentration requires courses in supply chain management, human relations management, strategic management, and agricultural or business law. Students are prepared to enter managerial positions in a wide variety of agribusiness and non-agribusiness firms as Supply Chain Manager, Production Manager, Account Manager, Human Resource Specialist, and Facilities Location Manager.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (33 credits)

Required Major Courses (30 credits)

- AGEc 20200 - Spreadsheet Use In Agricultural Business
- AGEc 20300 - Introductory Microeconomics For Food And Agribusiness
- AGEc 21700 - Economics
- AGEc 22000 - Economics Of Agricultural Markets
- AGEc 29800 - Sophomore Seminar
- AGEc 32700 - Principles Of Food And Agribusiness Marketing
- AGEc 33000 - Management Methods For Agricultural Business
- AGEc 42400 - Financial Management Of Agricultural Business
- AGEc 43000 - Agricultural And Food Business Strategy

- AGEc 35200 - Quantitative Techniques For Firm Decision Making or
- AGEc 45100 - Applied Econometrics

- AGEc 45500 - Agricultural Law or
- MGMT 45500 - Legal Background For Business I

Major Selectives (3 credits)

- AGEc Selective - Credit Hours: 3.00

Other Departmental /Program Course Requirements (69-70 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11200 - Introduction To Agricultural Economics Academic Programs
- CHM 11100 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- MA 16010 - Applied Calculus I ♦ (satisfies Quantitative Reasoning for core)
- STAT 30100 - Elementary Statistical Methods (satisfies Information Literacy for core)
- MGMT 20000 - Introductory Accounting or
- MGMT 20010 - Business Accounting
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Biological Science Selective - Credit Hours: 4.00
- Biological Science Selective - Credit Hours: 4.00
- Mathematics or Science Selective - Credit Hours: 3.00
- Food and Agribusiness Management Selective - Credit Hours: 3.00
- Food and Agribusiness Management Selective - Credit Hours: 3.00
- Human Relations Management Selective - Credit Hours: 3.00
- Industrial Technology Selective - Credit Hours: 3.00
- Science, Technology & Society Selective - Credit Hours: 3.00
- Economics Selective - Credit Hours: 3.00
- Human Cultures: Humanities - Credit Hours: 3.00 (satisfies Humanities for core)
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Written or Oral Communications Selective - Credit Hours: 3.00
- Written or Oral Communications Selective (20000+ level) - Credit Hours: 3.00

Additional Degree Requirements

Click here for Agribusiness: Agribusiness Management Supplemental Information

Electives (17-18 credits)

- Electives - Credit Hours: 17.00-18.00

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00

Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

Program Requirements

Fall 1st Year

- AGEC 20200 - Spreadsheet Use In Agricultural Business
- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness ♦
- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11200 - Introduction To Agricultural Economics Academic Programs
- MA 16010 - Applied Calculus I ♦
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

- Biological Sciences Selective - Credit Hours: 4.00

15-16 Credits

Spring 1st Year

- AGEC 21700 - Economics
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

- Biological Sciences Selective - Credit Hours: 4.00
- Human Cultures: Humanities - Credit Hours: 3.00
- Science, Technology, & Society Selective - Credit Hours: 3.00

16 Credits

Fall 2nd Year

- AGEC 22000 - Economics Of Agricultural Markets
- AGEC 29800 - Sophomore Seminar
- CHM 11100 - General Chemistry
- STAT 30100 - Elementary Statistical Methods
- Humanities or Social Science Selective - Credit Hours: 3.00
- Elective - Credit Hours: 3.00

16 Credits

Spring 2nd Year

- AGEC 33000 - Management Methods For Agricultural Business
- CHM 11200 - General Chemistry
- MGMT 20000 - Introductory Accounting or
- MGMT 20010 - Business Accounting
- Human Relations Management Selective - Credit Hours: 3.00
- Written or Oral Communication Selective - Credit Hours: 3.00

15 Credits

Fall 3rd Year

- AGEC 32700 - Principles Of Food And Agribusiness Marketing
- AGEC 42400 - Financial Management Of Agricultural Business
- AGEC 35200 - Quantitative Techniques For Firm Decision Making or
- AGEC 45100 - Applied Econometrics

- Humanities or Social Science Selective - Credit Hours: 3.00
- Industrial Technology Selective - Credit Hours: 3.00
16 Credits

Spring 3rd Year

- AGEC 45500 - Agricultural Law or
- MGMT 45500 - Legal Background For Business I

- Food and Agribusiness Management Selective - Credit Hours: 3.00
- Mathematics or Science Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

15 Credits

Fall 4th Year

- Agricultural Economics Selective - Credit Hours: 3.00
- Economics Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+level) - Credit Hours: 3.00
- Electives - Credit Hours: 5.00

14 Credits

Spring 4th Year

- AGEC 43000 - Agricultural And Food Business Strategy
- Food and Agribusiness Management Selective - Credit Hours: 3.00
- Electives - Credit Hours: 6.00-7.00

12-13 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Official and complete prerequisite lists are in the course catalog; the incomplete listing presented here regards this program and course sequencing.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish
Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Agribusiness: Agricultural Finance Concentration, BS

About the Program

Students completing a degree in Agribusiness must choose a concentration from five choices: Agribusiness Management, Agricultural Finance, Agricultural Marketing, Commodity Marketing, and Food Marketing. The Agricultural Finance concentration requires courses in estate planning or federal income tax law, capital investment analysis, strategic management, agricultural or business law, and additional accounting. Students are prepared to enter a vast number of finance careers including Analyst, Financial Services Officer, Commercial Business Banker or Loan Officer.

Agribusiness: Agricultural Marketing Concentration, BS

About the Program

Students completing a degree in Agribusiness must choose a concentration from five choices: Agribusiness Management, Agricultural Finance, Agricultural Marketing, Commodity Marketing, and Food Marketing. The Agricultural Marketing concentration requires courses in sales and marketing analytics and then allows the students to select four business courses to complete the concentration. Students are prepared for careers as a Sales Representative, Marketing Representative, District Sales Manager, and Brand Manager in a wide variety of agribusiness and non-agribusiness firms.

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Official and complete prerequisite lists are in the course catalog; the incomplete listing presented here regards this program and course sequencing.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course
The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

**Agribusiness: Food Marketing Concentration, BS**

**About the Program**

Students completing a degree in Agribusiness must choose a concentration from five choices: Agribusiness Management, Agricultural Finance, Agricultural Marketing, Commodity Marketing, and Food Marketing. The Food Marketing concentration requires courses in sales, food retailing and distribution, marketing, food science, food packaging, nutrition, and food regulations. Students are prepared for careers as a Sales Representative, Marketing Representative, District Sales Manager, Brand Manager, and Retail Manager with food manufacturers and retail food businesses.

Agricultural Economics: Commodity Marketing Concentration, BS

About the Program

Students completing a degree in Agricultural Economics must choose a concentration from three choices: Applied Agricultural Economics, Commodity Marketing, and Quantitative Analysis. The Commodity Marketing concentration requires courses in price analysis, commodity marketing, farm or strategic management, and production agriculture.

Students are prepared for careers in commodity merchandising and procurement for a vast number of agricultural firms such as grain handling companies; feed manufacturers; and meat, dairy, and poultry processing industries.

Agricultural Economics: Quantitative Analysis Concentration, BS
About the Program

Students completing a degree in Agricultural Economics must choose a concentration from three choices: Applied Agricultural Economics, Commodity Marketing, and Quantitative Analysis. The Quantitative Analysis concentration requires students to complete the Undergraduate Honors Program, and courses in optimization, econometrics, advanced economic theory, and math for applied economics.

Students are prepared to apply economic principles and use quantitative tool to analyze data which assisters the agricultural sector in making better decisions. These decisions involve a wide array of issues including price analysis, international development, international trade, environmental resources, and agricultural policy.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Farm Management, BS

About the Program

Farm Management prepares people for managing the home farm, professional farm management, or understanding the challenge of managing a farm. Emphasis is placed on production, finance, marketing, and management strategies.

Sales and Marketing, BS

About the Program

Sales and marketing graduates complete a degree program with a focus in sales, marketing, and management that give them the ability to enter numerous entry-level sales positions for agricultural and non-agricultural firms. These positions lead to professional careers in sales or marketing management. A wide spectrum of agricultural marketing organizations, food manufacturing companies, and farm supply industries are marketing-oriented and depend extensively on agricultural graduates who are well-trained in marketing tools and concepts.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Certificate

Industrial Selling Certificate

The Certificate in Industrial Selling will be open to students in any major who are interested in industrial selling.

It has three required courses and a capstone course, totaling thirteen credit hours. Each certificate earner must also complete a day long industry sales experience with a B2B sales practitioner in their area of professional interest, and must participate in a sales or marketing oriented experience on campus. It is expected that additional courses (sales management, negotiations, etc.) will be developed over time as alternatives and complements to this set of initial courses.

Requirements for the Certificate (13 credits)

Required Courses (9 credits)

- AGEC 32700 - Principles Of Food And Agribusiness Marketing
- AGEC 33100 - Principles Of Selling In Agricultural Business
- CSR 31500 - Relationship Selling

Capstone Course (4 credits)

- AGEC 43100 - Advanced Agri-Sales And Marketing

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Minor

Farm Management Minor

Requirements for the Minor (18 credits)

Required Courses (13 credits)
- AGEC 31000 - Farm Organization
- AGEC 41100 - Farm Management

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness or
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy or
- ECON 25100 - Microeconomics

- MGMT 20000 - Introductory Accounting or
- MGMT 20010 - Business Accounting

Selective Courses (5 credits)

- AGEC 22000 - Economics Of Agricultural Markets
- AGEC 30500 - Agricultural Prices
- AGEC 32100 - Principles Of Commodity Marketing
- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGEC 35200 - Quantitative Techniques For Firm Decision Making
- AGEC 41000 - Agricultural Policy
- AGEC 41200 - Farm Business Management Workshop
- AGEC 42100 - Advanced Commodity Marketing
- AGEC 42400 - Financial Management Of Agricultural Business
- AGEC 42500 - Estate Planning And Property Transfer
- AGEC 45600 - Federal Income Tax Law
- AGEC 45000 - International Agricultural Trade
- AGEC 52400 - Agricultural Finance

- AGEC 45500 - Agricultural Law or
- MGMT 45500 - Legal Background For Business I

- MGMT 44301 - Management Of Human Resources or
- MGMT 44362 - Leadership & Organizational Change or
- TLI 11200 - Foundations Of Organizational Leadership or
- TLI 15200 - Business Principles For Organizational Leadership

Notes

- Department permission is not required to enroll in this minor.
- The required 18 credits are beyond the three-credit economics selective that is a part of core requirements for students in the College of Agriculture. For students from programs outside of the College of Agriculture, three credits of an economics selective are required in addition to the 18 credits noted above.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

Food and Agribusiness Management Minor

Requirements for the Minor (18 credits)

Required Courses (9 credits)

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness or
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy or
- ECON 25100 - Microeconomics
- AGEC 33000 - Management Methods For Agricultural Business or
- MGMT 20100 - Management Accounting I
- MGMT 20000 - Introductory Accounting or
- MGMT 20010 - Business Accounting

Selective Courses (9 credits)

At least six of the nine selective credits must be in Agricultural Economics (AGEC) courses.

- AGEC 30500 - Agricultural Prices
- AGEC 32100 - Principles Of Commodity Marketing
- AGEC 32700 - Principles Of Food And Agribusiness Marketing
- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGEC 33300 - Food Distribution - A Retailing Perspective
- AGEC 35200 - Quantitative Techniques For Firm Decision Making
- AGEC 41000 - Agricultural Policy
- AGEC 42100 - Advanced Commodity Marketing
- AGEC 42400 - Financial Management Of Agricultural Business
- AGEC 42700 - Advanced Agribusiness Marketing
- AGEC 43000 - Agricultural And Food Business Strategy
- AGEC 43100 - Advanced Agri-Sales And Marketing
- AGEC 45000 - International Agricultural Trade
- AGEC 45100 - Applied Econometrics
- AGEC 52400 - Agricultural Finance
- HORT 43500 - Developing An Agricultural Startup
- AGEC 45500 - Agricultural Law or
- MGMT 45500 - Legal Background For Business I
- MGMT 44301 - Management Of Human Resources or
- MGMT 44362 - Leadership & Organizational Change or
- TLI 11200 - Foundations Of Organizational Leadership or
- TLI 15200 - Business Principles For Organizational Leadership

Notes
• Department permission is not required to enroll in this minor.
• Any Management (MGMT) or Organizational Leadership and Supervision (OLS) course at the 20000 level or above may be used. Only one course from OLS 25200 and OLS 27400 may be used.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Global Food and Agriculture Systems Minor

About this Program:

This minor will provide students a course of study emphasizing the global development, policy, and sustainability of the food and agribusiness industry.

Requirements for the Minor (18 credits)

Required Courses (6 credits)

• AGEC 22000 - Economics Of Agricultural Markets or ECON 34000 - Intermediate Microeconomic Theory
• AGEC 21700 - Economics or ECON 25200 - Macroeconomics

Additional Courses - Choose Four (12 credits)

• AGEC 25000 - Economic Geography Of World Food And Resources
• AGEC 30500 - Agricultural Prices
• AGEC 32100 - Principles Of Commodity Marketing
• AGEC 33300 - Food Distribution - A Retailing Perspective
• AGEC 34000 - International Economic Development
• AGEC 40600 - Natural Resource And Environmental Economics
• AGEC 41000 - Agricultural Policy
• AGEC 42100 - Advanced Commodity Marketing
• AGEC 45000 - International Agricultural Trade
• AGEC 52600 - International Food And Agribusiness Marketing Strategy
• AGEC 53200 - World Food Problems

Notes

• Department Permission is not required to enroll in this minor.
Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Program Information

Agribusiness: Agribusiness Management Supplemental Information

Agricultural Economics Selective (3 Credits)

- AGEC 20300:59999

Biological Science Selective (8 Credits)

- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 12100 - Biology I: Diversity, Ecology, And Behavior
- BIOL 13100 - Biology II: Development, Structure, And Function Of Organisms
- BIOL 13500 - First Year Biology Laboratory
- BIOL 20300 - Human Anatomy And Physiology
- BIOL 20400 - Human Anatomy And Physiology
- BIOL 22100 - Introduction To Microbiology
- BIOL 23000 - Biology Of The Living Cell
- BIOL 23100 - Biology III: Cell Structure And Function
- BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
- BIOL 24100 - Biology IV: Genetics And Molecular Biology
- BIOL 24200 - Laboratory In Biology IV: Genetics And Molecular Biology
- BIOL 29500 - Special Assignments - Quant Biol Living Cell
- BTNY 11000 - Introduction To Plant Science
- BTNY 11100 - Principles Of Plant Biology

Mathematics or Science Selective (3 Credits)

- AGEC 35200 - Quantitative Techniques For Firm Decision Making
- AGEC 45600 - Federal Income Tax Law
- AGR 29000 - Special Topics In Agriculture - Intro to Environmental Science
- AGRY 25500 - Soil Science
- AGRY 27000 - Forest Soils
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- AGRY 33500 - Weather And Climate
- AGRY 36500 - Soil Fertility
- AGRY 38500 - Environmental Soil Chemistry

Food and Agribusiness Management Selective (6 Credits)

- AGEC 31000 - Farm Organization
- AGEC 31100 - Accounting For Farm Business Planning
- AGEC 32100 - Principles Of Commodity Marketing
- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGEC 33300 - Food Distribution - A Retailing Perspective
- AGEC 41100 - Farm Management
- AGEC 41200 - Farm Business Management Workshop
- AGEC 42100 - Advanced Commodity Marketing
- AGEC 42500 - Estate Planning And Property Transfer
- AGEC 42700 - Advanced Agribusiness Marketing
- AGEC 42900 - Agribusiness Marketing Workshop
- AGEC 43000 - Agricultural And Food Business Strategy
- AGEC 43100 - Advanced Agri-Sales And Marketing
- AGEC 45500 - Agricultural Law
- AGEC 45600 - Federal Income Tax Law
- AGEC 52400 - Agricultural Finance
- AGEC 52600 - International Food And Agribusiness Marketing Strategy
- AGEC 53300 - Supply Chain Management For Food And Agribusiness
- CSR 20900 - Introduction To Retail Management
- CSR 28200 - Customer Relations Management
- CSR 30900 - Leadership Strategies
- CSR 31500 - Relationship Selling
- CSR 33100 - Consumer Behavior
- CSR 33200 - Cross-Cultural Marketing And International Retailing
- CSR 34200 - Personal Finance
- CSR 34400 - Fundamentals Of Negotiations
- CSR 38600 - Risk Management
- CSR 40100 - Buying Of Merchandise
- CSR 40400 - Strategic Issues For Sales And Retailing
- CSR 41500 - Sales Force Management
- CSR 48100 - Ethics And Compliance In Financial Counseling And Planning
- HORT 43500 - Developing An Agricultural Startup
- TLI 11200 - Foundations Of Organizational Leadership
- TLI 15200 - Business Principles For Organizational Leadership

Human Relations Management Selective (3 Credits)

- OLS 25200 - Human Relations In Organizations
- OLS 27400 - Applied Leadership
• TLI 11200 - Foundations Of Organizational Leadership

Industrial Technology Selective (3 Credits)

• IT 21400 - Introduction To Lean Manufacturing
• IT 23000 - Industrial Supply Chain Management
• IT 34200 - Introduction To Statistical Quality
• IT 43200 - Financial Transactions In Distribution
• TLI 21400 - Introduction To Supply Chain Management Technology
• TLI 23500 - Introduction To Lean And Sustainable Systems
• TLI 31600 - Statistical Quality Control
• TLI 41400 - Financial Analysis For Technology Systems

Economics Selective (3 Credits)

• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• AGEC 20400 - Introduction To Resource Economics And Environmental Policy
• AGEC 21700 - Economics
• ECON 21000 - Principles Of Economics
• ECON 21700 - Economics
• ECON 25100 - Microeconomics
• ECON 25200 - Macroeconomics

• ENGL 27600 - Shakespeare On Film
• ENGL 27900 - The American Short Story In Print And Film
• ENGL 33100 - Medieval English Literature
• ENGL 33300 - Renaissance English Literature
• ENGL 33500 - Restoration And Eighteenth-Century English Literature
• ENGL 33700 - Nineteenth-Century English Literature
• ENGL 35000 - American Literature Before 1865
• ENGL 35100 - American Literature After 1865
• ENGL 36000 - Gender And Literature
• ENGL 37300 - Science Fiction And Fantasy
• ENGL 37700 - Modern And Contemporary Poetry
• ENGL 37900 - The Short Story
• ENGL 38100 - The British Novel
• ENGL 38200 - The American Novel
• ENGL 38600 - History Of Film To 1950
• ENGL 38700 - History Of Film Since 1950
• ENGL 39600 - Studies In Literature And Language
• ENGL 41100 - Studies In Major Authors
• ENGL 41200 - Studies In Genre
• ENGL 41300 - Studies In Literature And History
• ENGL 41400 - Studies In Literature And Culture
• ENGL 44100 - Chaucer's Canterbury Tales
• ENGL 44200 - Shakespeare
• ENGL 44400 - Milton
• ENGL 46200 - The Bible As Literature: The Old Testament
• ENGL 46300 - The Bible As Literature: The New Testament
• ENGL 49200 - Literature In The Secondary Schools
• FNR 37500 - Human Dimensions of Natural Resource Management
• HDFS 28000 - Diversity In Individual And Family Life
• HONR 19900 - Interdisciplinary Honors - Introductory Seminar - Science And Pseudoscience
• HONR 29900 - Interdisciplinary Honors - Experiential Learning - Insects in Lit, Art, & Music
• HORT 30600 - History Of Horticulture

Written or Oral Communication Selective (6 Credits)

• ASL 10000:59999
• COM 20000:59999
• ENGL 20000:59999
• AGR 20100 - Communicating Across Culture
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills
• ENTM 20100 - Scientific And Technical Communication
• ASEC 44000 - Methods Of Teaching Agricultural Education
Agricultural Economics: Applied Agricultural Economics
Supplemental Information

Agricultural Economic Selectives (18 Credits)

- AGEC 10000:59999

Biological Science Selective (8 Credits)

- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 12100 - Biology I: Diversity, Ecology, And Behavior
- BIOL 13100 - Biology II: Development, Structure, And Function Of Organisms
- BIOL 13500 - First Year Biology Laboratory
- BIOL 20300 - Human Anatomy And Physiology
- BIOL 20400 - Human Anatomy And Physiology
- BIOL 22100 - Introduction To Microbiology
- BIOL 23000 - Biology Of The Living Cell
- BIOL 23100 - Biology III: Cell Structure And Function
- BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
- BIOL 24100 - Biology IV: Genetics And Molecular Biology
- BIOL 24200 - Laboratory In Biology IV: Genetics And Molecular Biology
- BIOL 29500 - Special Assignments - Quant BIOL Living Cell
- BTNY 11000 - Introduction To Plant Science
- BTNY 11100 - Principles Of Plant Biology

Mathematics or Science Selective (4 Credits)

- AGEC 35200 - Quantitative Techniques For Firm Decision Making
- AGEC 45100 - Applied Econometrics
- AGRY 25500 - Soil Science
- AGRY 27000 - Forest Soils
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- AGRY 33500 - Weather And Climate
- AGRY 36500 - Soil Fertility
- AGRY 38500 - Environmental Soil Chemistry
- AGRY 46500 - Soil Physical Properties
- ANSC 22100 - Principles Of Animal Nutrition
- ANSC 23000 - Physiology Of Domestic Animals
- BCHM 10000 - Introduction To Biochemistry
- BTNY 30500 - Fundamentals Of Plant Classification
- BCHM 30700 - Biochemistry
- BCHM 30900 - Biochemistry Laboratory
- BIOL 22100 - Introduction To Microbiology
- BIOL 23100 - Biology III: Cell Structure And Function
- BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
- BIOL 24100 - Biology IV: Genetics And Molecular Biology
- BIOL 24200 - Laboratory In Biology IV: Genetics And Molecular Biology
- BIOL 28600 - Introduction To Ecology And Evolution
- BNY 11000 - Introduction To Plant Science
- BNY 21100 - Plants And The Environment
- BNY 26200 - Plant Structure And Tissue Biology
- BNY 30100 - Introductory Plant Pathology
- BNY 31600 - Plant Anatomy
- BNY 35000 - Biotechnology In Agriculture
- CHM 22400 - Introductory Quantitative Analysis
- CHM 25500 - Organic Chemistry
- CHM 25501 - Organic Chemistry Laboratory
- CHM 25600 - Organic Chemistry
- CHM 25601 - Organic Chemistry Laboratory
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- CHM 26100 - Organic Chemistry
- CHM 26200 - Organic Chemistry

Department of Agricultural Sciences Education and Communication

Overview
Welcome to the Department of Agricultural Sciences Education and Communication at Purdue University. The department's motto is "Empower, Educate, and Enhance."

These three very powerful words clearly and succinctly identify the purposes of the department. Empowering, Educating and Enhancing is accomplished by this interdisciplinary department with undergraduate programs in Agricultural Education and Agricultural Communication and a nationally recognized graduate program focused on learning and communication in the context of agriculture.

Contact Information

Agricultural Sciences Education and Communication
Purdue University
Agriculture Administration Building
615 West State Street
West Lafayette, IN 47907
Phone: (765) 494-8423
Email: undergrad@ydae.purdue.edu

The main office for the department is located in Room 214 of the AGAD Building.

Graduate Information

For Graduate Information please see Agricultural Sciences Education and Communication Graduate Program Information .

Baccalaureate

Agricultural Communication, BS

About the Program

Agricultural Communication is a specialized communication field that serves business and society by promoting awareness of issues in food, agriculture, and science. You will gain skills and experience in public relations, agriculture, and journalism. You will engage in cutting-edge coursework in a world-renowned College of Agriculture and develop technical media expertise in the Brian Lamb School of Communication. You can also pursue exciting study abroad experiences and competitive communication internship opportunities. Because the Agricultural Communication program is flexible, you can pursue a course of study that matches your personal interests and career aspirations.

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses
Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Agricultural Education, BS

About the Program

Agricultural education students combine their interest in agriculture with their desire to work with people. Students are prepared to teach agricultural science, business, and related subjects in junior high, high school, or college settings. They also can pursue careers in agricultural service industries. There is a high demand for agricultural science and business teachers in Indiana and across the United States.

Degree Requirements

128 Credits Required

Departmental/Program Major Courses (16-17 credits)

Required Major Courses (16-17 credits)

- ASEC 21200 - Greenhouse And Landscape Fundamentals For Educators
- ASEC 24000 - Seminar In Agricultural Education
- ASEC 31800 - Coordination Of Supervised Agricultural Experience Programs
- ASEC 31900 - Planning Agricultural Science And Business Programs
- ASEC 34000 - Laboratory Practices In Agricultural Education
- ASEC 34100 - Curriculum Development In Agricultural Education (Capstone)
• ASEC 44000 - Methods Of Teaching Agricultural Education
• ASEC 44100 - Field Experience In Agricultural Education Programs
• ASEC 44200 - Curriculum Implementation In Agricultural Education

Other Departmental /Program Course Requirements (111-112 credits)

• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 12100 - Introduction To Youth Development And Agricultural Education Academic Programs
• AGRY 25500 - Soil Science
• AGRY 32000 - Genetics
• AGRY 37500 - Crop Production Systems
• AGEC 21700 - Economics
• ANSC 22100 - Principles Of Animal Nutrition
• ASM 20100 - Construction And Maintenance
• CHM 11100 - General Chemistry (satisfies Science #1 for core) ♦
• CHM 11200 - General Chemistry (satisfies Science #2 for core)
• MA 15800 - Precalculus- Functions And Trigonometry (satisfies Quantitative Reasoning for core)
• STAT 30100 - Elementary Statistical Methods
• EDCI 20500 - Exploring Teaching As A Career ♦
• EDCI 27000 - Introduction To Educational Technology And Computing
• EDCI 28500 - Multiculturalism And Education ♦
• EDCI 49800 - Supervised Teaching (Capstone)

DEPARTMENT OF AGRONOMY

OVERVIEW

The Department of Agronomy provides progressive and relevant undergraduate, graduate and extension education programs; conducts high impact fundamental and applied research at multiple scales to ensure that our science addresses immediate problems and anticipates future challenges; actively engages partners in the public and private sectors; and contributes to the development of the national and international agenda for research and education.

GRADUATE INFORMATION

For Graduate Information please see Agronomy Graduate Program Information.
Baccalaureate

Agronomy: Agronomic Business and Marketing Concentration, BS

About the Program

Agronomic Business and Marketing prepares students to meet the high demand for professionals in technical sales and marketing or professional field agronomy with strength in business. Students have the flexibility to tailor plans of study to meet their individualized interests and needs by combining strengths in business, marketing, and agronomy. The unique advantage of this option is the primary strength generated in cropping system management amplified by strength in agri-business management.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (14 credits)

Required Major Courses (14 credits)

- AGRY 25500 - Soil Science ♦
- AGRY 32000 - Genetics
- AGRY 36500 - Soil Fertility
- AGRY 39800 - Agronomy Seminar
- AGRY 49800 - Agronomy Senior Seminar
- AGRY 12500 - Environmental Science And Conservation or
- AGRY 28500 - World Crop Adaptation And Distribution

Other Departmental/Program Course Requirements (99-100 credits)

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11300 - Introduction To Agronomy Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- BTNY 30100 - Introductory Plant Pathology
- BTNY 30400 - Introductory Weed Science
- CHM 11100 - General Chemistry (satisfies Science Selective for core)
- CHM 11200 - General Chemistry (satisfies Science Selective for core)
- CHM 25700 - Organic Chemistry
- ENGL 42000 - Business Writing
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- STAT 30100 - Elementary Statistical Methods (satisfies Quantitative Reasoning Selective for core)
- AGEC 31100 - Accounting For Farm Business Planning or
- MGMT 20010 - Business Accounting
- AGEC 32700 - Principles Of Food And Agribusiness Marketing or
- MGMT 32300 - Principles Of Marketing
- BIOL 11100 - Fundamentals Of Biology II or
- BTNY 11000 - Introduction To Plant Science
- MA 15800 - Precalculus- Functions And Trigonometry (satisfies Quantitative Reasoning Selective for core) or
- MA 16010 - Applied Calculus I
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Agronomy Crops Selective - Credit Hours: 3.00
- Agronomy Selective - Credit Hours: 3.00
- Ecology Selective - Credit Hours: 3.00
- Agricultural Economics Selective - Credit Hour: 6.00
- Agricultural Economics, Consumer Science and Retailing, Horticulture, or TLI Selective - Credit Hours: 6.00
- Additional Math or Science Selective - Credit Hours: 8.00
- Human Cultures Humanities Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Written or Oral Communications Selective (20000+ level) - Credit Hours: 3.00

**Additional Degree Requirements**

**Electives (6-7 credits)**

- Electives - Credit Hours: 6.00-7.00

**College of Agriculture & University Level Requirements**
• 2.00 GPA required for Bachelor of Science degree.
• 32 Upper division credits taken from Purdue
• International Understanding Selective - Credit Hours: 9.00
• Multicultural Awareness Selective - Credit Hours: 3.00
• 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
• Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

• Human Cultures Humanities
• Human Cultures Behavioral/Social Science
• Information Literacy
• Science #1
• Science #2
• Science, Technology, and Society
• Written Communication
• Oral Communication
• Quantitative Reasoning

Program Requirements

Fall 1st Year

• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 11300 - Introduction To Agronomy Academic Programs
• BIOL 11000 - Fundamentals Of Biology I
• CHM 11100 - General Chemistry
• MA 15800 - Precalculus- Functions And Trigonometry or
• MA 16010 - Applied Calculus I
• Agronomy Crops Selective - Credit Hours: 3.00

14 Credits

Spring 1st Year

• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• CHM 11200 - General Chemistry
• BIOL 11100 - Fundamentals Of Biology II or
• BTNY 11000 - Introduction To Plant Science
• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• Agronomy Selective - Credit Hours: 3.00

16-17 Credits

Fall 2nd Year

• AGRY 25500 - Soil Science ♦
• AGRY 39800 - Agronomy Seminar
• BTNY 30100 - Introductory Plant Pathology
• CHM 25700 - Organic Chemistry
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication I: Modern World

• Elective - Credit Hours: 1.00

15 Credits

Spring 2nd Year

• AGRY 36500 - Soil Fertility
• STAT 30100 - Elementary Statistical Methods
• AGRY 12500 - Environmental Science And Conservation or
• AGRY 28500 - World Crop Adaptation And Distribution

• Agricultural Economics Selective - Credit Hours: 3.00
• Ecology Selective - Credit Hours: 3.00

15 Credits

Fall 3rd Year

• BTNY 30400 - Introductory Weed Science
- AGEC 31100 - Accounting For Farm Business Planning or
  MGMT 20010 - Business Accounting

- Additional Math or Science Selectives - Credit Hours: 4.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Elective - Credit Hours: 2.00

**15 Credits**

**Spring 3rd Year**

- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGRY 32000 - Genetics
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- Additional Math or Science Selectives - Credit Hours: 4.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

**16 Credits**

**Fall 4th Year**

- AGRY 49800 - Agronomy Senior Seminar
- Agricultural Economics Selective - Credit Hours: 3.00
- Human Cultures Humanities Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00

**13 Credits**

**Spring 4th Year**

- ENGL 42000 - Business Writing

- AGEC 32700 - Principles Of Food And Agribusiness Marketing or
  MGMT 32300 - Principles Of Marketing

- Agricultural Economics, Consumer Science and Retailing, Horticulture, or TLI Selective - Credit Hours: 6.00
- Electives - Credit Hours: 3.00-4.00

**15-16 Credits**

**Notes**

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.
Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Agronomy: Crop and Soil Management Concentration, BS

About the Program

Crop and Soil Management is for students interested in applying basic agronomic information to practical situations or problems. This is an ideal option for students who plan to become a professional crops/soils manager as an agronomist, farm manager, soil conservationist, or a related profession. Those interested in crop management frequently select cropping systems, crop physiology, plant breeding, and forage management courses.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Agronomy: International Agronomy Concentration, BS

About the Program

International Agronomy is designed for students interested in the agronomic aspects of international agricultural development. The program prepares students for opportunities in world agriculture through careers with social action agencies, government and/or private industry. Students in this major build a strong foundation in science to go along with their study of international trade, culture, religion, language, food security, and agricultural development.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (21 credits)

Required Major Courses (21 credits)

- AGRY 25500 - Soil Science ♦
- AGRY 28500 - World Crop Adaptation And Distribution (satisfies Science, Technology, & Society for core)
- AGRY 32000 - Genetics
- AGRY 33500 - Weather And Climate
- AGRY 35000 - Global Awareness
- AGRY 36500 - Soil Fertility
• AGRY 39800 - Agronomy Seminar
• AGRY 49800 - Agronomy Senior Seminar
• AGRY 59800 - Special Problems

Other Departmental/Program Course Requirements (89-90 credits)

• AGEC 34000 - International Economic Development
• AGEC 45000 - International Agricultural Trade
• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 11300 - Introduction To Agronomy Academic Programs
• BIOL 11000 - Fundamentals Of Biology I
• CHM 11100 - General Chemistry (satisfies Science for core)
• CHM 11200 - General Chemistry (satisfies Science for core)
• CHM 25700 - Organic Chemistry
• STAT 30100 - Elementary Statistical Methods (satisfies Information Literacy for core)

• BIOL 11100 - Fundamentals Of Biology II or
• BTNY 11000 - Introduction To Plant Science

• MA 15800 - Precalculus- Functions And Trigonometry (satisfies Quantitative Reasoning for core) or
• MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)

• ENGL 10600 - First-Year Composition (satisfies Written Communication for core) or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Ecology or Plant Ecology Selective - Credit Hours: 3.00
• Agronomy International Development Selective - Credit Hours: 3.00
• Macroeconomics Selective - Credit Hours: 3.00
• Conversation Language Selective - Credit Hours: 2.00
• Directed Selectives - Credit Hours: 6.00
• Agriculture or Science Selectives - Credit Hours: 6.00
• Additional Math or Science Selectives - Credit Hours: 8.00
• Microeconomics (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
• Humanities Humanities Selective - Credit Hours: 3.00
• Foreign Language Selective - Credit Hours: 9.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Written or Oral Communications Selective (20000+ level) - Credit Hours: 3.00

Additional Degree Requirements
Electives (9-10 credits)

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

**Applied Meteorology and Climatology, BS**

**About the Program**

Many graduates pursue careers with the National Weather Service, the National Environmental Satellite Data and Information Service, the Environmental Research Laboratories, and the Department of Defense. Graduates also pursue careers with private meteorological or environmental consulting firms that provide weather information and apply atmospheric sciences to air pollution control, energy distribution, marketing, transportation, weather modification, and agriculture. Graduates also work for insurance and commodities industries that employ meteorologists who are educated in statistics, agriculture, and world climates.

Applied meteorologists apply weather and climate information to problems facing agriculture and commerce. Students acquire the skills and tools necessary to improve the health, safety, and productivity of today's world. Graduates work on many environmental problems such as air quality, renewable energy sources, climate change and the impacts of climate change.

The option involves extensive coursework in meteorology, physics, and mathematics, as well as first-hand experience in applying basic concepts to real world situations. Internship programs are available with private industry, the National Weather Service, or the National Oceanic and Atmospheric Administration. In addition there are regular opportunities to work in University laboratories and the State Climate Office.

**Degree Requirements**

**120 Credits Required**

**Departmental/Program Major Courses (32 credits)**

**Required Major Courses (32 credits)**
- AGRY 28500 - World Crop Adaptation And Distribution (satisfies Science, Technology and Society for core)
- AGRY 33500 - Weather And Climate
- AGRY 33700 - Environmental Hydrology
- AGRY 39800 - Agronomy Seminar
- AGRY 43100 - Atmospheric Thermodynamics
- AGRY 43200 - Atmospheric Dynamics I
- AGRY 43300 - Atmospheric Dynamics II
- AGRY 44100 - Synoptic Laboratory I
- AGRY 44200 - Synoptic Laboratory II
- AGRY 44300 - Synoptic Laboratory III

Crop Science, BS

About the Program

Crop science provides an education in the basic sciences, with applications in crop plant management and crop improvement. Opportunities are numerous and encompass a broad range in science, business, and education. Students are especially qualified for graduate study in plant nutrition, environmental science, crop physiology and ecology, biotechnology and plant genetics, and plant breeding.

- Elective - Credit Hours: 0.00-1.00

12-14 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Plant Genetics, Breeding, and Biotechnology, BS

About the Program

Plant genetics, breeding, and biotechnology students are interested in agricultural biotechnology, genetic engineering, and research in genetic mechanisms that control crop growth and development. Students prepare for many research opportunities in industry and acquire the necessary background for graduate studies. Students also learn the fundamentals of genetics and
practical plant breeding as well as the latest developments in genetic engineering, environmentally sound crop production practices, development of varieties appropriate for the agriculture of developing countries, and strategies for developing plant lines adapted to environmental stresses. Opportunities exist for training both in laboratory and field practices important to modern genetics research. A professional internship involving practical aspects of the option is required.

Plant Genetics, Breeding, and Biotechnology Website

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (21-22 credits)

Required Major Courses (21-22 credits)

- AGRY 25500 - Soil Science
- AGRY 28500 - World Crop Adaptation And Distribution
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- AGRY 39800 - Agronomy Seminar
- AGRY 48000 - Plant Genetics
- AGRY 49800 - Agronomy Senior Seminar (Capstone)
- AGRY 52000 - Principles And Methods Of Plant Breeding
- AGRY 52500 - Crop Physiology And Ecology or
- HORT 30100 - Plant Physiology

Other Departmental /Program Course Requirements (89-91 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11300 - Introduction To Agronomy Academic Programs
- AGR 12500 - Introduction To Plant Science
- BCHM 30700 - Biochemistry
- BCHM 30900 - Biochemistry Laboratory
- BIOL 11000 - Fundamentals Of Biology I
- CHM 11500 - General Chemistry (satisfies Science Selective for core)
- CHM 11600 - General Chemistry (satisfies Science Selective for core)
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning Selective for core)
- MA 16020 - Applied Calculus II
- STAT 30100 - Elementary Statistical Methods (satisfies Information Literacy Selective for core)

- BIOL 11100 - Fundamentals Of Biology II or
- BTNY 11000 - Introduction To Plant Science
- BIOL 22100 - Introduction To Microbiology
- BIOL 23100 - Biology III: Cell Structure And Function or
- BTNY 42000 - Plant Cellular And Developmental Biology or
- BIOL 41500 - Introduction To Molecular Biology or
- BTNY 35000 - Biotechnology In Agriculture
- PHYS 17200 - Modern Mechanics or
- PHYS 22000 - General Physics
- PHYS 22100 - General Physics or
- PHYS 24100 - Electricity And Optics
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation (satisfies Oral Communication for core) or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
- Human Cultures: Humanities Selectives - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Directed Selective - Credit Hours: 12.00
- Written or Oral Communications Selective (20000+ level) - Credit Hours: 3.00

Additional Requirements

Click here for Plant Genetics, Plant Breeding & Biotechnology Supplemental Information

Electives (7-10 credits)

- Elective (credits required depend on Math, Physics, & Physiology course choices) - Credit Hours: 7.00 to 10.00

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
• Information Literacy
• Science #1
• Science #2
• Science, Technology, and Society
• Written Communication
• Oral Communication
• Quantitative Reasoning

Program Requirements

Fall 1st Year

• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 11300 - Introduction To Agronomy Academic Programs
• AGR 12500 - Introduction To Plant Science
• BIOL 11000 - Fundamentals Of Biology I
• CHM 11500 - General Chemistry
• MA 16010 - Applied Calculus I
• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

16-17 Credits

Spring 1st Year

• CHM 11600 - General Chemistry
• MA 16020 - Applied Calculus II
• BIOL 11100 - Fundamentals Of Biology II or
• BTNY 11000 - Introduction To Plant Science
• Elective - Credit Hours: 3.00

14 Credits

Fall 2nd Year

• AGRY 32000 - Genetics
• AGRY 32100 - Genetics Laboratory
- AGRY 39800 - Agronomy Seminar
- PHYS 17200 - Modern Mechanics or
- PHYS 22000 - General Physics
- Economics Selective - Credit Hours: 3.00
- Directed Selective - Credit Hours: 3.00

15 Credits

Spring 2nd Year

- AGRY 28500 - World Crop Adaptation And Distribution
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- PHYS 22100 - General Physics or
- PHYS 24100 - Electricity And Optics
  Elective - Credit Hours: 1.00

15-16 Credits

Fall 3rd Year

- AGRY 25500 - Soil Science ♦
- BCHM 30700 - Biochemistry
- BCHM 30900 - Biochemistry Laboratory
- BIOL 23100 - Biology III: Cell Structure And Function or
- BTNY 42000 - Plant Cellular And Developmental Biology
- UCC Humanities Selective - Credit Hours: 3.00
- Elective - Credit Hours: 2.00

15 Credits

Spring 3rd Year

- BIOL 22100 - Introduction To Microbiology
- Directed Selective - Credit Hours: 6.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

16 Credits

Fall 4th Year
• AGRY 48000 - Plant Genetics
• AGRY 49800 - Agronomy Senior Seminar
• AGRY 52000 - Principles And Methods Of Plant Breeding
• STAT 30100 - Elementary Statistical Methods

Soil and Water Sciences, BS

About the Program

The Soil and Water Sciences option provides a strong science education, while preparing students to apply this knowledge in many technical phases of soil, water resources and environmental management. Opportunities are numerous and encompass a broad range in science, management, and education with diverse applications addressing agricultural water use, food security, soil and water quality and secure water supplies. Students are especially qualified for graduate study in hydrology, water resources, soil chemistry, soil physics, soil microbiology, environmental science, soil mineralogy and genesis, and ecology.

Minor

Crop Science Minor

Requirements for the Minor (18 credits)

Required Courses (6 credits)

- AGRY 25500 - Soil Science
- AGRY 10500 - Crop Production or AGRY 37500 - Crop Production Systems

Selective Courses (12 credits)

- AGRY 10500 - Crop Production *
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- AGRY 33500 - Weather And Climate
- AGRY 36500 - Soil Fertility
- AGRY 37500 - Crop Production Systems *
- AGRY 48000 - Plant Genetics
- AGRY 50500 - Forage Management
- AGRY 51500 - Plant Mineral Nutrition
- AGRY 52000 - Principles And Methods Of Plant Breeding
- BTNY 30100 - Introductory Plant Pathology
- BTNY 30400 - Introductory Weed Science
- BTNY 35000 - Biotechnology In Agriculture
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
Notes

- Departmental permission is not required to enroll in this minor.
- Students majoring in the Department of Agronomy cannot obtain a Crop Science minor.
- * If not used above as a required course.

- RUSS 11100 - Conversation Supplement To Russian Level I
- RUSS 11200 - Conversation Supplement To Russian Level II
- RUSS 21100 - Conversation Supplement To Russian Level III
- RUSS 21200 - Conversation Supplement To Russian Level IV
- SPAN 11200 - Elementary Spanish Conversation
• SPAN 21100 - Elementary Spanish Conversation II

Directed Selective (6 Credits)

• ENTM 20600 - General Entomology and
• ENTM 20700 - General Entomology Laboratory
• BTNY 30100 - Introductory Plant Pathology and
• BTNY 30400 - Introductory Weed Science

AGR or Science Selective (6 Credits)

• FS 20000:59999
• AGEC 45100 - Applied Econometrics
• AGRY 27000 - Forest Soils
• AGRY 32000 - Genetics
• AGRY 32100 - Genetics Laboratory
• AGRY 33500 - Weather And Climate
• AGRY 35200 - Quantitative Techniques For Firm Decision Making
• AGRY 36500 - Soil Fertility
• AGRY 38500 - Environmental Soil Chemistry
• AGRY 46500 - Soil Physical Properties
• ANSC 22100 - Principles Of Animal Nutrition
• ANSC 23000 - Physiology Of Domestic Animals
• BCHM 10000 - Introduction To Biochemistry
• BCHM 30700 - Biochemistry
• BCHM 30900 - Biochemistry Laboratory
• BIOL 22100 - Introduction To Microbiology
• BIOL 23100 - Biology III: Cell Structure And Function
• BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
• BIOL 24100 - Biology IV: Genetics And Molecular Biology
• BIOL 24200 - Laboratory In Biology IV: Genetics And Molecular Biology
• BIOL 28600 - Introduction To Ecology And Evolution
• BTNY 30500 - Fundamentals Of Plant Classification
• BTNY 31600 - Plant Anatomy
• BTNY 35000 - Biotechnology In Agriculture
• BTNY 11000 - Introduction To Plant Science
• BTNY 21100 - Plants And The Environment
• BTNY 30100 - Introductory Plant Pathology
• CHM 22400 - Introductory Quantitative Analysis
• CHM 25500 - Organic Chemistry
• CHM 25501 - Organic Chemistry Laboratory
• CHM 25600 - Organic Chemistry
• CHM 25601 - Organic Chemistry Laboratory

Department of Animal Sciences

Overview
The Purdue University Department of Animal Sciences promotes leadership and inspiration to educate students, enabling them to anticipate and effectively respond to challenges facing the global animal industries. The Animal Sciences faculty conducts relevant scientific research and facilitates technology transfer for efficient and sustainable production of high quality animal products, optimizing animal well-being, enhancing the human diet, and advancing sound environmental practices.

The vision of the Department of Animal Sciences is simple. We desire to be the "place to go" for the citizens of Indiana and beyond for knowledge in animal sciences. This includes students, commodity groups, industry partners, government agencies, consumers, and many others. Our shared goals are to:

- provide students with a rigorous and relevant education, preparing them for a lifetime of learning;
- achieve scientific preeminence in selected areas, and develop teams to identify and solve real world problems; and
- meet the needs of our diverse clientele making the best use of emerging technologies.

The Animal Sciences faculty has expertise in the disciplines of growth and development, nutrition, breeding and genetics, physiology, management, and animal well-being and behavior. In addition, scientists in the USDA Livestock Behavior Unit associated with Purdue are adjunct faculty members.

Concentrations include:

- Animal Agribusiness
- Behavior/Well-Being
- Biosciences
- Pre-Veterinary Medicine
- Production
- Products

The main office for the department is located in 1014 Creighton Hall of Animal Sciences.

Baccalaureate

Animal Sciences: Animal Agribusiness Concentration, BS
About the Program

This Department of Animal Sciences option is best suited for those interested in business aspects of the animal industry and gaining knowledge in accounting, sales and marketing, and business management. Graduates are high in demand in sales and service areas of animal health products; feed, production, equipment firms; sales companies; and animal representatives for banks and lending organizations, insurance companies, marketing, advertising, and public relations agencies. You may be well suited for animal agribusiness if you enjoy meeting people, have a good oral communication skills as well as a proficiency in writing. Experience with raising and managing of animals is essential since you will be expected to interact and relate to managers, veterinarians, businessmen, and owners of animal enterprises. An interest in economics, marketing, and business management is important.

Animal Sciences

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (33 credits)

Required Major Courses (12 credits)

- ANSC 10200 - Introduction To Animal Agriculture (satisfies Science, Technology & Society for core)
- ANSC 18100 - Orientation To Animal Sciences
- ANSC 22100 - Principles Of Animal Nutrition ♦
- ANSC 23000 - Physiology Of Domestic Animals
- ANSC 48100 - Contemporary Issues in Animal Sciences

ANSC Restricted Selectives (21 credits)

(see ANSC Undergraduate Student Handbook)

18 credits have to be 30000 or higher

- Animal Genetics Selective - Credit Hours: 4.00
- Animal Nutrition Selective - Credit Hours: 3.00
- Animal Physiology Selective - Credit Hours: 3.00
- Animal Production/Management Selective - Credit Hours: 3.00
- Animal Products Selective - Credit Hours: 3.00
- Animal Sciences Selectives - Credit Hours: 5.00

Additional Degree Requirements

15 Credits

Spring 3rd Year
• Agricultural Economics, Economics, or Management Selective - Credit Hours: 3.00
• Animal Genetics Selective - Credit Hours: 4.00
• Animal Products Selective - Credit Hours: 3.00
• Animal Sciences Selective - Credit Hours: 2.00
• Humanities or Social Science Selective - Credit Hours: 3.00

15 Credits

Fall 4th Year

• ANSC 48100 - Contemporary Issues in Animal Sciences
• Agricultural Economics, Economics, or Management Selective - Credit Hours: 3.00
• Animal Production/Management Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Electives - Credit Hours: 5.00

15 Credits

Spring 4th Year

• Animal Sciences Selective - Credit Hours: 3.00
• Agricultural Economics, Economics, or Management Selective - Credit Hours: 3.00
• Electives - Credit Hours: 7.00 - 8.00

13-14 Credits

Notes

• 2.0 GPA required for Bachelor of Science degree.
• ANSC courses must be at 2.0 or higher GPA to earn a BS in Animal Sciences
• Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be
proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.
The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Animal Sciences: Behavior/Well-Being Concentration, BS

About the Program

Students desiring a balance of animal production, behavioral sciences, and well-being are best served by this option in the department of Animal Sciences. Careers available as managers of animal production units (e.g., beef cow-calf or feed lot manager, flock supervisor, swine manager or horse trainer or breeder). Limited career opportunities may be available as an animal trainer, zoo environmental enhancement specialist, companion animal consultant, breed association animal well-being specialist, and pet safety education specialist for a humane society. Students interested in advanced studies can become animal behavior consultants or scientists at universities.

Foreign Language proficiency requirements vary by program.
For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Animal Sciences: Biosciences Concentration, BS

About the Program

The Department of Animal Sciences offers this specialization that is intended for students seeking careers in research or technical services related to animal nutrition, growth and development, animal genetics, reproduction, animal well-being, and management. Those in this specialization should have a strong interest in and curiosity in discovery and have enjoyed their high school biology, chemistry, mathematics, and physics courses. Students who aspire to careers in research and teaching in colleges and universities or in agribusinesses should enroll in this option. It can also be used as an excellent preparation for professional careers such as human medical doctors, veterinarians, dentists, and employment in the nutrition, genomics, and pharmaceutical industries. Graduates continuing for the M.S. or Ph.D. degrees in animal sciences qualify for numerous research, teaching, or extension positions in industry, government, universities, and colleges.

Animal Sciences

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (33 credits)

Required Major Courses (12 credits)

- ANSC 10200 - Introduction To Animal Agriculture (satisfies Science, Technology & Society for core)
- ANSC 18100 - Orientation To Animal Sciences
- ANSC 22100 - Principles Of Animal Nutrition ♦
- ANSC 23000 - Physiology Of Domestic Animals
• ANSC 48100 - Contemporary Issues in Animal Sciences

ANSC Restricted Selectives (21 credits)

(see ANSC Undergraduate Student Handbook)

18 credits must be 30000 or higher

• Animal Genetics Selective - Credit Hours: 4.00
• Animal Nutrition Selective - Credit Hours: 3.00
• Animal Physiology Selective - Credit Hours: 3.00
• Animal Production/Management selective - Credit Hours: 3.00
• Animal Products Selective - Credit Hours: 3.00
• Animal Sciences Selectives - Credit Hours: 5.00

Additional Degree Requirements

Animal Sciences: Production Concentration, BS

About the Program

Opportunities associated with this Department of Animal Sciences option include the leadership and management of any enterprise that deals with the daily production and care of animals. This could include food animal species of beef or dairy cattle, chickens, ducks, fish, sheep, swine, or turkeys or many companion animal species including cats, dogs, horses, and many exotic or zoo animals. This option is the best balance of science, business, and the enterprise management subjects designed to prepare someone to manage live animals. Enterprises might be owned by the graduate's family, the graduate, or any agribusiness company. Graduates of this option often serve as technical support staff for input companies, as field or services representatives in various commodity organizations, livestock sale companies, or procurement officers for meat processing companies. You may be well suited for an animal production management career if you enjoy working with and supervising people, have good oral communication and problem-solving skills as well as competencies working with animals directly. Experience with the raising and managing of animals is essential since you will be expected to interact and relate to managers, veterinarians, business representatives, and owners of animal enterprises.

- Animal Sciences Selective - Credit Hours: 2.00
- Enterprise Management Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Elective - Credit Hours: 3.00

15 Credits

Spring 4th Year

- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Production/Management Selective (Non-ANSC) - Credit Hours: 3.00
- Electives - Credit Hours: 7.00 - 8.00

13-14 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Minimum 2.0 GPA required in Animal Science courses
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be
proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Animal Sciences: Products Concentration, BS

About the Program

This Department of Animal Sciences option is meant to prepare students who are interested in the live animal production of quality animal products combined with the ever-growing further processing industry of safe, healthful food. Opportunities include product-development managers; meat scientists; live-animal procurement managers; and sales positions in milk, egg, or meat processing industries. Many graduates become graders and inspectors at the farm or manufacturing level for milk, meat and eggs; commercial and seedstock animal production evaluators and breeders; or university or industry researchers and product developers. Graduates continuing for the M.S. or Ph.D. degree in growth and development, food science, agricultural economics, or muscle biology qualify for numerous research, teaching, or extension positions in industry, government, universities, and colleges. You should enjoy the challenge of applying basic information to the solution of practical problems as well as the challenges of working in the consumer-driven food industries.

Animal Sciences

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (33 credits)

Required Major Courses (12 credits)

- ANSC 10200 - Introduction To Animal Agriculture (satisfies Science, Technology & Society for core)
- ANSC 18100 - Orientation To Animal Sciences
- ANSC 22100 - Principles Of Animal Nutrition
- ANSC 23000 - Physiology Of Domestic Animals
- ANSC 48100 - Contemporary Issues in Animal Sciences (Capstone)

ANSC Restricted Selectives (21 credits)

18 credits must be 30000 or higher - see ANSC Undergraduate Student Handbook

- Animal Genetics Selective - Credit Hours: 4.00
- Animal Nutrition Selective - Credit Hours: 3.00
- Animal Physiology Selective - Credit Hours: 3.00
- Animal Production/Management selective - Credit Hours: 3.00
- Animal Products Selective - Credit Hours: 3.00
- Animal Sciences Selectives - Credit Hours: 5.00

Additional Degree Requirements

Click here for Animal Sciences: Products Supplemental Information

Other Departmental /Program Course Requirements (66-68 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11400 - Introduction to Animal Sciences Academic Programs
- AGRY 32000 - Genetics
- BCHM 30700 - Biochemistry
- BCHM 30900 - Biochemistry Laboratory
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 22100 - Introduction To Microbiology
- CHM 11100 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- CHM 25700 - Organic Chemistry
- MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)
- STAT 30100 - Elementary Statistical Methods
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Business Management Selective - Credit Hours: 3.00
- Food Science Selective - Credit Hours: 3.00 - 4.00
- Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
- Human Cultures: Humanities Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

Electives (19-21 credits)

- Elective - Credit Hours: 19.00-21.00
College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

Minor

Animal Science Minor

Requirements for the Minor (18 credits)

Complete one course in at least two areas.

A. Nutrition

- ANSC 22100 - Principles Of Animal Nutrition

B. Physiology

- ANSC 23000 - Physiology Of Domestic Animals
- BIOL 20300 - Human Anatomy And Physiology
- BIOL 20400 - Human Anatomy And Physiology

C. Genetics

- ANSC 31100 - Animal Breeding
- ANSC 51100 - Population Genetics
- ANSC 51400 - Animal Biotechnology
- BIOL 41500 - Introduction To Molecular Biology

D. Products

- ANSC 30100 - Animal Growth, Development, And Evaluation
- ANSC 35100 - Meat Science

E. Electives
• Remainder of 18 credits may be completed from other courses listed above, or from Animal Sciences (ANSC) courses that are numbered 30100 or higher.
• Not more than four total credits from ANSC 37000, ANSC 37100, ANSC 37200, ANSC 47000, ANSC 47100, and ANSC 47200 may be used.
• Only one of the physiology courses listed above may be used to satisfy the minor.

Notes

• Departmental permission is not required to enroll in this minor.
• Students must achieve a minimum 2.00 grade point average in graded ANSC courses to meet minimum requirements for the Animal Sciences academic minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.
The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Program Information

Animal Sciences: Animal Agribusiness Supplemental Information

Animal Genetics Selective (4 Credits)

• ANSC 31100 - Animal Breeding
• ANSC 51100 - Population Genetics
• ANSC 51400 - Animal Biotechnology
• AGRY 61100 - Quantitative Genetics
• BIOL 41500 - Introduction To Molecular Biology

Animal Nutrition Selective (3 Credits)

• ANSC 32400 - Applied Animal Nutrition
• ANSC 52200 - Monogastric Nutrition
• ANSC 52400 - Ruminant Nutrition And Physiology

Animal Physiology Selective (3 Credits)

• ANSC 33200 - Environmental Physiology Of Domestic Animals
• ANSC 33300 - Physiology Of Reproduction
• ANSC 53500 - Avian Physiology
• ANSC 55500 - Animal Growth And Development

Department of Biochemistry

Overview

The Department of Biochemistry is a vibrant research community with widespread, multidisciplinary collaborations. We offer both undergraduate and graduate programs with emphasis on research excellence in broad areas of science. The field of biochemistry has historically focused on molecular dissection of biological molecules and cellular pathways. Our current faculty build upon this classical approach, using cutting-edge approaches ranging from genome-wide transcriptional analyses, state-of-the-art mass spectrometry, and x-ray crystallography in a variety of model systems including bacteria, fungi, plants and fruit flies. These approaches allow our researchers to link real world problems such as energy production and human disease prevention to defects in basic molecular processes, tackling the most pressing issues in society.

Faculty

Contact Information

Department of Biochemistry
Purdue University
Biochemistry Building
175 South University Street
West Lafayette, IN 47907-2063
Phone: 765-494-1600

Email: biochem-boilers@purdue.edu

Website

The main office for the department is located in Room 120 of the BCHM Building.

Graduate Information

For Graduate Information please see Biochemistry Graduate Program Information.

Baccalaureate

Biochemistry, BS

About the Program
Biochemistry, the chemistry of living things, addresses the basic materials and processes of life itself. Biochemists investigate the chemical nature of such fundamental processes as the regulation of gene expression, the hormonal control of cell proliferation and differentiation. Knowledge of the molecular underpinnings of biological materials allows us to understand life processes and solve basic biological problems.

Students in the Department of Biochemistry, historically situated in the College of Agriculture, enjoy close mentoring by faculty through smaller class sizes and academic advising. Another strength of our program is that we strongly promote hands-on research and critical thinking skills. All students in the department participate in undergraduate research supervised by a faculty member.

There is also an opportunity to complete a five-year dual degree with biological engineering following acceptance into the College of Engineering.

How to apply to Biochemistry in the College of Agriculture

Degree Requirements

**120 Credits Required**

Departmental/Program Major Courses (22 credits)

Required Major Courses (22 credits)

- BCHM 10000 - Introduction To Biochemistry
- BCHM 22100 - Analytical Biochemistry
- BCHM 29000 - Experimental Design Seminar
- BCHM 32200 - Analytical Biochemistry II
- BCHM 36100 - Molecules
- BCHM 39000 - Professional Development Seminar
- BCHM 46200 - Metabolism
- BCHM 46500 - Biochemistry Of Life Processes
- BCHM 49000 - Undergraduate Seminar
- BCHM 49800 - Research In Biochemistry (Capstone)

Other Departmental/Program Course Requirements (91-92 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11500 - Introduction To Biochemistry Academic Programs
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 23100 - Biology III: Cell Structure And Function
• BIOL 23200 - Laboratory In Biology III: Cell Structure And Function
• CHM 11500 - General Chemistry (satisfies Science #1 for core)
• CHM 11600 - General Chemistry (satisfies Science #2 for core)
• CHM 25500 - Organic Chemistry ♦
• CHM 25501 - Organic Chemistry Laboratory
• CHM 25600 - Organic Chemistry
• CHM 25601 - Organic Chemistry Laboratory
• CHM 37200 - Physical Chemistry
• MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)
• MA 16020 - Applied Calculus II
• PHYS 22000 - General Physics
• PHYS 22100 - General Physics
• STAT 30100 - Elementary Statistical Methods
• ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core) or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
• COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
• Bioinformatics Selective - Credit Hours: 3.00
• Science Selective - Credit Hours: 6.00
• Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
• Human Cultures: Humanities – Credit Hours: 3.00 (satisfies Humanities for core)
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

Additional Degree Requirements

Click here for Biochemistry Supplemental Information

Electives (6-7 credits)

• Electives - Credit Hours: 6.00-7.00

College of Agriculture & University Level Requirements

• 2.00 GPA required for Bachelor of Science degree.
• 32 Upper division credits taken from Purdue
• International Understanding Selective - Credit Hours: 9.00
• Multicultural Awareness Selective - Credit Hours: 3.00
• 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
• Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

• Human Cultures Humanities
• Human Cultures Behavioral/Social Science
• Information Literacy
• Science #1
• Science #2
• Science, Technology, and Society
• Written Communication
• Oral Communication
• Quantitative Reasoning

For a complete listing of course selectives, visit the Provost's Website.

Program Requirements

Fall 1st Year

• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 11500 - Introduction To Biochemistry Academic Programs
• BCHM 10000 - Introduction To Biochemistry
• BIOL 11000 - Fundamentals Of Biology I
• CHM 11500 - General Chemistry
• MA 16010 - Applied Calculus I
• Humanities or Social Science Selective - Credit Hours: 3.00

17 Credits

Spring 1st Year
• BIOL 11100 - Fundamentals Of Biology II  
• CHM 11600 - General Chemistry  
• MA 16020 - Applied Calculus II  
• ENGL 10600 - First-Year Composition or  
• ENGL 10800 - Accelerated First-Year Composition or  
• HONR 19903 - Interdisciplinary Approaches In Writing or  
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

14-15 Credits

Fall 2nd Year

• BCHM 22100 - Analytical Biochemistry  
• BIOL 23100 - Biology III: Cell Structure And Function  
• BIOL 23200 - Laboratory In Biology III: Cell Structure And Function  
• CHM 25500 - Organic Chemistry  
• CHM 25501 - Organic Chemistry Laboratory  
• STAT 30100 - Elementary Statistical Methods

15 Credits

Spring 2nd Year

• AGRY 32000 - Genetics  
• AGRY 32100 - Genetics Laboratory  
• BCHM 29000 - Experimental Design Seminar  
• BCHM 36100 - Molecules  
• CHM 25600 - Organic Chemistry  
• CHM 25601 - Organic Chemistry Laboratory  
• COM 11400 - Fundamentals Of Speech Communication or  
• COM 21700 - Science Writing And Presentation or  
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or  
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
16 Credits

Fall 3rd Year

- BCHM 32200 - Analytical Biochemistry II
- BCHM 39000 - Professional Development Seminar
- BCHM 46200 - Metabolism
- BCHM 49800 - Research In Biochemistry
- PHYS 22000 - General Physics
- Human Cultures: Humanities - Credit Hours: 3.00

14 Credits

Spring 3rd Year

- BCHM 49800 - Research In Biochemistry
- PHYS 22100 - General Physics
- Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Elective - Credit Hours: 4.00

15 Credits

Fall 4th Year

- BCHM 49800 - Research In Biochemistry
- Bioinformatics Selective - Credit Hours: 3.00
- Economics Selective - Credit Hours: 3.00
- Science Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
16 Credits

Spring 4th Year

- BCHM 46500 - Biochemistry Of Life Processes
- BCHM 49000 - Undergraduate Seminar
- CHM 37200 - Physical Chemistry
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Elective - Credit Hours: 2.00 - 3.00

12-13 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer
The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Biochemistry: Pre-Med Concentration, BS

About the Program

Biochemistry, the chemistry of living things, addresses the basic materials and processes of life itself. - Electives - Credit Hours: 3.00-5.00

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning
  For a complete listing of course selectives, visit the Provost's Website.

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11500 - Introduction To Biochemistry Academic Programs
- BCHM 10000 - Introduction To Biochemistry
- BIOL 11000 - Fundamentals Of Biology I

- Human Cultures: Humanities - Credit Hours: 3.00
- Elective - Credit Hours: 2.00

16 Credits

Spring 3rd Year

- BCHM 49800 - Research In Biochemistry
- PHYS 22100 - General Physics
- ANSC 22100 - Principles Of Animal Nutrition or
- ANSC 23000 - Physiology Of Domestic Animals
- Humanities or Social Science Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

14-15 Credits

Fall 4th Year

- BCHM 49800 - Research In Biochemistry
- BIOL 22100 - Introduction To Microbiology
- Bioinformatics Selective - Credit Hours: 3.00
- Economics Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00

14 Credits

Spring 4th Year

- BCHM 46500 - Biochemistry Of Life Processes
- BCHM 49000 - Undergraduate Seminar
- CHM 37200 - Physical Chemistry
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Elective - Credit Hours: 0.00 - 2.00

13-15 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.
Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as “one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Minor

Biochemistry Minor

Requirements for the Minor (18-19 credits)

A. Required Courses (11-12 credits)

- BCHM 10000 - Introduction To Biochemistry or
- Approved Science, Technology, and Society (STS)
- CHM 25600 - Organic Chemistry or
- CHM 26200 - Organic Chemistry or
- CHM 26605 - Organic Chemistry or
- MCMP 20500 - Organic Chemistry II
- BCHM 36100 - Molecules or
- BCHM 56100 - General Biochemistry I
- BCHM 46200 - Metabolism or
- BCHM 56200 - General Biochemistry II

B. Selective Courses (7 credits)
- BCHM 29000 - Experimental Design Seminar
- BCHM 32200 - Analytical Biochemistry II
- BCHM 46500 - Biochemistry Of Life Processes
- BCHM 49000 - Undergraduate Seminar
- BCHM 49800 - Research In Biochemistry
- BCHM 22100 - Analytical Biochemistry or
- CHM 32100 - Analytical Chemistry I
- Any other BCHM course at the 40000-level or higher

Notes

- Departmental permission is not required for this minor.
- Departmental permission is required to register for the following courses: BCHM 29000, BCHM 36100, BCHM 46200, BCHM 46300, BCHM 46500, BCHM 49000 and BCHM 49800

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Program Information

Biochemistry Supplemental Information

Science Selective (6 Credits)

- BCHM  60000:69999
- BIOL  20000:20400, 28600:29400

- EAPS  22000:59900
- HONR  19900 - Human Genetics:New Hope
- HONR 19900&nbsp;- Science & Psuedoscience
- HONR 29900 - Paradigm Shifts for Biology
- HONR 29900 - Physics for Future Presidents
- HONR 39900 - Probability
- MA    25000:59999
- MCPP  20600:59999
- STAT  41600:47900, 51200:59900
- ABE  20100 - Thermodynamics In Biological Systems I
- ABE  20200 - Thermodynamics In Biological Systems II
- ABE  20500 - Computations For Engineering Systems
- ABE  21000 - Thermodynamics Principles Of Engineering And Biological Systems
- ABE  30100 - Numerical And Computational Modeling In Biological Engineering
- ABE  30300 - Applications Of Physical Chemistry To Biological Processes
- ABE 30500 - Physical Properties Of Biological Materials
- ABE 31000 - Thermodynamics Of Food And Biological Systems
- ABE 32000 - Solid Modeling, Simulation, And Analysis
- ABE 32500 - Soil And Water Resource Engineering
- ABE 33000 - Design Of Machine Components
- ABE 33600 - All Terrain Vehicle Design
- ABE 37000 - Biological/Microbial Kinetics And Reaction Engineering
- ABE 53100 - Instrumentation And Data Acquisition
- ABE 56000 - Biosensors: Fundamentals and Applications
- AGRY 25500 - Soil Science
- AGRY 27000 - Forest Soils
- AGRY 33700 - Environmental Hydrology
- AGRY 38500 - Environmental Soil Chemistry
- AGRY 34900 - Soil Ecology
- AGRY 43100 - Atmospheric Thermodynamics
- AGRY 43200 - Atmospheric Dynamics I
- AGRY 43300 - Atmospheric Dynamics II
- AGRY 44100 - Synoptic Laboratory I
- AGRY 44200 - Synoptic Laboratory II
- AGRY 44300 - Synoptic Laboratory III
- AGRY 46500 - Soil Physical Properties
- AGRY 48000 - Plant Genetics
- AGRY 51100 - Population Genetics
- AGRY 51500 - Plant Mineral Nutrition
- AGRY 52000 - Principles And Methods Of Plant Breeding
- AGRY 52500 - Crop Physiology And Ecology
- AGRY 53000 - Advanced Plant Genetics
- AGRY 53500 - Boundary Layer Meteorology
- AGRY 53600 - Environmental Biophysics
- AGRY 54400 - Environmental Organic Chemistry
- AGRY 55300 - Introduction To SAS For Statistical Analysis
- AGRY 55500 - Soil And Plant Analysis
- AGRY 54000 - Soil Chemistry
- AGRY 56000 - Soil Physics
- AGRY 57200 - Molecular Cytogenetics
- AGRY 57300 - Molecular Cytogenetics Laboratory
- AGRY 58000 - Soil Microbiology
- ANSC 22100 - Principles Of Animal Nutrition
- ANSC 23000 - Physiology Of Domestic Animals
- ANSC 29500 - Special Topics In Animal Sciences
- ANSC 33300 - Physiology Of Reproduction
- ANSC 51100 - Population Genetics
- ANSC 51400 - Animal Biotechnology
- ANSC 52400 - Ruminant Nutrition And Physiology
- ANSC 52200 - Monogastric Nutrition
- ANSC 53500 - Avian Physiology
- ANSC 53600 - The Digestive System In Health And Disease
- ANSC 55500 - Animal Growth And Development
- BCHM 27500 - Honors Course - Lower Division
- BCHM 29801 - Head Start To Introductory Biochemistry Research
- BCHM 49500 - Special Assignments
- BCHM 49800 - Research In Biochemistry
- BCHM 49801 - Head Start To Biochemistry Research
- BCHM 53600 - Biological And Structural Aspects Of Drug Design And Action
- BIOL 22100 - Introduction To Microbiology
- BTNY 20700 - The Microbial World
- BTNY 20900 - Plant Diversity
- BTNY 21100 - Plants And The Environment
- BTNY 30100 - Introductory Plant Pathology
- BTNY 30200 - Plant Ecology
- BTNY 31600 - Plant Anatomy
- BTNY 35000 - Biotechnology In Agriculture
- BTNY 42000 - Plant Cellular And Developmental Biology
- BTNY 50400 - Advanced Weed Science
- BTNY 50500 - Advanced Biology Of Weeds
- BTNY 55000 - Biology Of Fungi
- BTNY 55200 - Molecular Approaches In Plant Biology
- BTNY 55300 - Plant Growth And Development
- BTNY 55800 - Pathogens Of Plants
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- ENTM 21000 - Introduction To Insect Behavior
- ENTM 22820 - Forensic Analysis
- ENTM 31100 - Insect Ecology
- FNR 20100 - Marine Biology
- FNR 22500 - Dendrology
- FNR 30500 - Conservation Genetics
- FNR 32200 - Forest Soil: Properties, Processes, And Management
- FNR 33100 - Forest Ecosystems
- FNR 33500 - Aquatic Sampling Techniques
- FNR 35300 - Natural Resources Measurement
- FNR 43400 - Tree Physiology
- FNR 44700 - Vertebrate Population Dynamics
- FNR 45300 - Fish Physiology
- FNR 45500 - Fish Ecology
- FNR 51100 - Population Genetics
- FNR 54300 - Conservation Biology I
- FNR 54400 - Conservation Biology II
- FNR 55100 - Advanced Ichthyology
- FNR 55200 - Advanced Freshwater Ecology
- FS 36200 - Food Microbiology
- FS 36300 - Food Microbiology Laboratory
- FS 43100 - Physical Chemistry For Food And Agriculture
- FS 45300 - Food Chemistry
- FS 46700 - Food Analysis
- FS 46900 - Food Analysis Laboratory
- FS 56500 - Microbial Foodborne Pathogens
- FS 56600 - Microbial Techniques For Food Pathogens
- FS 59100 - Special Topics
- HORT 30100 - Plant Physiology
- HORT 50100 - Scanning Electron Microscopy: Principles
- HORT 50200 - Scanning Electron Microscopy: Application
• HORT 50300 - Transmission Electron Microscopy: Principles
• HORT 50400 - Transmission Electron Microscopy: Application
• HORT 55100 - Plant Responses To The Environment
• HORT 55300 - Plant Growth And Development
• IT 22600 - Biotechnology Laboratory I
• IT 22700 - Biotechnology Laboratory II
• NRES 23000 - Survey Of Meteorology
• NRES 25500 - Soil Science
• NRES 38500 - Environmental Soil Chemistry
• NUTR 30300 - Essentials Of Nutrition
• NUTR 31500 - Fundamentals Of Nutrition
• NUTR 43700 - Macronutrient Metabolism In Human Health And Disease
• NUTR 43800 - Micronutrient And Phytochemical Metabolism In Human Health And Disease
• NUTR 45300 - Food Chemistry
• TLI 52100 - Drug Development

Economics Selective (3 Credits)

• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• AGEC 20400 - Introduction To Resource Economics And Environmental Policy
• AGEC 21700 - Economics
• ECON 21000 - Principles Of Economics
• ECON 21100 - Contemporary Economic Problems
• ECON 25100 - Microeconomics
• ECON 25200 - Macroeconomics

Humanities or Social Science Selective (9 Credits)

Department of Botany and Plant Pathology

Overview

Welcome to the Department of Botany and Plant Pathology at Purdue University.

Research, teaching and extension have been an integral part of the Department of Botany and Plant Pathology since 1887. Today's department includes 31 faculty who are advancing and teaching the disciplines of Plant Biology, Plant Pathology and Weed Science.

Explore our web site and see the opportunities our department offers. Learn how you can do more to protect the environment, apply genetic knowledge to improve plants, manage natural resources, control weeds, or diagnose plant diseases with a degree from Purdue's Botany and Plant Pathology department.

Faculty

Contact Information

Department of Botany and Plant Pathology Website

Department of Botany and Plant Pathology
Purdue University
Lilly Hall of Life Sciences
915 West State Street
West Lafayette, IN 47907-2054
Phone: 765.494.0352
E-mail: botany@purdue.edu

The main office for the department is located in Room 1-446 of LILY Hall.

Graduate Information

For Graduate Information please see Botany and Plant Pathology Graduate Program Information.

Baccalaureate

Plant Science, BS
About the Program

This major is designed for students who are interested in the biology of plants: how they grow, develop and evolve; the interactions of plants with other organisms and their role in the environment; how to manage plants that are grown for food, fiber and fuel. Our major allows students to develop expertise in these areas, prepare for a career in fields such as biotechnology and environmental management, and move forward to advanced graduate studies.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (28 credits)

Required Major Courses (28 credits)

- BTNY 11100 - Principles Of Plant Biology
- BTNY 12000 - Principles Of Plant Biology I
- BTNY 20700 - The Microbial World
- BTNY 20800 - Introduction To Plant Science Research
- BTNY 26200 - Plant Structure And Tissue Biology
- BTNY 30200 - Plant Ecology
- BTNY 30500 - Fundamentals Of Plant Classification
- BTNY 42000 - Plant Cellular And Developmental Biology
- BTNY 49700 - Undergraduate Seminar (Capstone)
- BTNY 49800 - Research In Plant Science (Capstone)

Other Departmental /Program Course Requirements (74.5-75.5 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12500 - Introduction To Plant Science
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- BCHM 30700 - Biochemistry
- CHM 11100 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- HORT 30100 - Plant Physiology
- MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)
- PHYS 21400 - The Nature Of Physics
- STAT 30100 - Elementary Statistical Methods
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core)
  or
- ENGL 10800 - Accelerated First-Year Composition
- HONR 19903 - Interdisciplinary Approaches In Writing
  or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
• COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

Focus Selective - Credit Hours: 15.00
• Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
• Human Cultures: Humanities - Credit Hours: 3.00
• Science, Technology & Society Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
• Written or Oral Communications Selective (20000+ level) - Credit Hours: 3.00

Additional Requirements

Click here for Plant Science - Supplemental Information

Electives (16.5-17.5 credits)

• Elective - Credit Hours: 16.50-17.50

College of Agriculture & University Level Requirements

• 2.00 GPA required for Bachelor of Science degree.
• 32 Upper division credits taken from Purdue
• International Understanding Selective - Credit Hours: 9.00
• Multicultural Awareness Selective - Credit Hours: 3.00
• 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
• Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

• Human Cultures Humanities
• Human Cultures Behavioral/Social Science
• Information Literacy
• Science #1
• Science #2
• Science, Technology, and Society
• Written Communication
• Oral Communication
• Quantitative Reasoning

For a complete listing of course selectives, visit the Provost's Website.

Prerequisite Information:
Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12500 - Introduction To Plant Science
- BTNY 12000 - Principles Of Plant Biology I
- CHM 11100 - General Chemistry
- MA 16010 - Applied Calculus I
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

14.5-15.5 Credits

Spring 1st Year

- BTNY 11100 - Principles Of Plant Biology
- BTNY 20700 - The Microbial World
- CHM 11200 - General Chemistry
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Elective - Credit Hours: 3.00

16 Credits

Fall 2nd Year

- BTNY 20800 - Introduction To Plant Science Research
- BTNY 26200 - Plant Structure And Tissue Biology
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- Focus Selective - Credit Hours: 3.00
- Human Cultures: Humanities Selective - Credit Hours: 3.00

15 Credits

Spring 2nd Year

- AGRY 32000 - Genetics
AGRY 32100 - Genetics Laboratory
BTNY 30200 - Plant Ecology
PHYS 21400 - The Nature Of Physics
Science, Technology, & Society Selective - Credit Hours: 3.00
Focus Selective - Credit Hours: 3.00
16 Credits

Fall 3rd Year

BTNY 30500 - Fundamentals Of Plant Classification ♦
BCHM 30700 - Biochemistry
Economics Selective - Credit Hours: 3.00
Focus Selective - Credit Hours: 3.00
Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00
15 Credits

Spring 3rd Year

BTNY 42000 - Plant Cellular And Developmental Biology
HORT 30100 - Plant Physiology
STAT 30100 - Elementary Statistical Methods
Humanities or Social Science Selective - Credit Hours: 3.00
Elective - Credit Hours: 3.00
16 Credits

Fall 4th Year

BTNY 49800 - Research In Plant Science
Focus Selective - Credit Hours: 3.00
Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
Electives - Credit Hours: 6.00
15 Credits

Spring 4th Year

BTNY 49700 - Undergraduate Seminar
Humanities or Social Science Selective - Credit Hours: 3.00
Electives - Credit Hours: 4.50-5.50
Focus Selective - Credit Hours: 3.00
11.5-12.5 Credits
Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as “one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Minor

Plant Biology Minor

Requirements for the Minor (15 credits)

Required Courses (4 credits)

- BTNY 11000 - Introduction To Plant Science

Selective Courses (11 credits)

- BTNY 11100 - Principles Of Plant Biology
- BTNY 20700 - The Microbial World
- BTNY 28500 - Plants And Civilization
- BTNY 30100 - Introductory Plant Pathology
- BTNY 30200 - Plant Ecology
- BTNY 30400 - Introductory Weed Science
• BTNY 30500 - Fundamentals Of Plant Classification
• BTNY 42000 - Plant Cellular And Developmental Biology
• BTNY 49800 - Research In Plant Science *
• BTNY 55000 - Biology Of Fungi
• HORT 30100 - Plant Physiology

Notes

• Departmental permission is not required to enroll in this minor.
• *A maximum of three credits of BTNY 49800 or comparable research in the plant sciences may be applied to the minor.
• Students in the Plant Science major cannot minor in Plant Biology.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Plant Pathology Minor

Requirements for the Minor (15 credits)

Required Courses (9 credits)

• BTNY 30100 - Introductory Plant Pathology
• BTNY 52500 - Intermediate Plant Pathology
• BTNY 53500 - Plant Disease Management

Selective Courses (6 credits)

• BTNY 20700 - The Microbial World
• BTNY 49800 - Research In Plant Science *
• BTNY 51700 - Diseases Of Agronomic Crops
• BTNY 55000 - Biology Of Fungi

Notes

• Departmental permission is not required to enroll in this minor.
• * A maximum of three credits of BTNY 49800 or comparable research in the plant sciences may be applied to the minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Weed Science Minor

Requirements for the Minor (15 credits)

A. Required Courses (6 credits)

- BTNY 30400 - Introductory Weed Science
- BTNY 50400 - Advanced Weed Science or
- BTNY 50500 - Advanced Biology Of Weeds

B. Selectives (9 credits)

- BTNY 30200 - Plant Ecology
- BTNY 30500 - Fundamentals Of Plant Classification
- BTNY 35000 - Biotechnology In Agriculture
- BTNY 49800 - Research In Plant Science *
- HORT 30100 - Plant Physiology

Notes

- Department permission is not required to enroll in this minor.
- *A maximum of three credits of BTNY 49800 or comparable research in the plant sciences may be applied to the minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.
The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Program Information

Plant Science- Supplemental Information

Focus Selective (18 Credits)

- EPCS 10000:59999
- ABE 32500 - Soil And Water Resource Engineering
- AGEC 25000 - Economic Geography Of World Food And Resources
- AGEC 34000 - International Economic Development
- AGEC 41000 - Agricultural Policy
- AGRY 10500 - Crop Production
- AGRY 12000 - Water And Food Security
- AGRY 25500 - Soil Science
- AGRY 28500 - World Crop Adaptation And Distribution
- AGRY 33500 - Weather And Climate
- AGRY 34900 - Soil Ecology
- AGRY 35000 - Global Awareness
- AGRY 38500 - Environmental Soil Chemistry
- AGRY 45000 - Soil Conservation and Water Management
- AGRY 48000 - Plant Genetics
- AGRY 51100 - Population Genetics
- AGRY 52000 - Principles And Methods Of Plant Breeding
- AGRY 52500 - Crop Physiology And Ecology
- AGRY 53000 - Advanced Plant Genetics
- AGRY 53600 - Environmental Biophysics
- AGRY 54400 - Environmental Organic Chemistry
- AGRY 54500 - Remote Sensing Of Land Resources
- AGRY 57200 - Molecular Cytogenetics
- AGRY 58000 - Soil Microbiology
- AGRY 58200 - Environmental Fate Of Pesticides
- AGRY 58500 - Soils And Land Use
- BCHM 22100 - Analytical Biochemistry
- BCHM 56100 - General Biochemistry I
- BCHM 56200 - General Biochemistry II
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 12100 - Biology I: Diversity, Ecology, And Behavior
- BIOL 24100 - Biology IV: Genetics And Molecular Biology
- BIOL 41500 - Introduction To Molecular Biology
- BIOL 41600 - Viruses And Viral Disease
- BIOL 43800 - General Microbiology
- BIOL 48100 - Eukaryotic Genetics
- BIOL 51700 - Molecular Biology: Proteins
- BIOL 58000 - Evolution
- BIOL 59500 - Special Assignments
- BTNY 20400 - Crop and Weed Identification
- BTNY 30100 - Introductory Plant Pathology
- BTNY 30400 - Introductory Weed Science
- BTNY 35000 - Biotechnology In Agriculture
- BTNY 39000 - Selected Topics In Plant Science
- BTNY 42000 - Plant Cellular And Developmental Biology
- BTNY 50400 - Advanced Weed Science
- BTNY 50500 - Advanced Biology Of Weeds
- BTNY 52500 - Intermediate Plant Pathology
- BTNY 53500 - Plant Disease Management
- BTNY 55000 - Biology Of Fungi
- BTNY 55200 - Molecular Approaches In Plant Biology
- BTNY 55300 - Plant Growth And Development
- BTNY 55500 - Aquatic Botany
- EAPS 10000 - Planet Earth
- EAPS 11100 - Physical Geology
- EAPS 42000 - Global Change Modeling
- ENGL 23400 - Ecological Literature
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- ENTM 31100 - Insect Ecology
- ENTM 51000 - Insect Pest Management
- FNR 20100 - Marine Biology
- FNR 21000 - Natural Resource Information Management
- FNR 22500 - Dendrology
- FNR 23000 - The World's Forests And Society
- FNR 30500 - Conservation Genetics
- FNR 33100 - Forest Ecosystems
- FNR 33300 - Fire Effects In Forest Environments
- FNR 34100 - Wildlife Habitat Management
- FNR 35300 - Natural Resources Measurement
- FNR 35700 - Fundamental Remote Sensing
- FNR 36500 - Natural Resources Issues, Policy, And Administration
- FNR 40600 - Natural Resource And Environmental Economics
- FNR 43400 - Tree Physiology
- FNR 48800 - Global Environmental Issues
- FNR 55800 - Remote Sensing Analysis And Applications
- HORT 20100 - Plant Propagation
- HORT 55100 - Plant Responses To The Environment
- NRES 28000 - Hazardous Waste Handling
- POL 22300 - Introduction To Environmental Policy
- POL 30000 - Introduction To Political Analysis
- POL 32300 - Comparative Environmental Policy
- POL 32700 - Global Green Politics
- POL 42300 - International Environmental Policy
- POL 52300 - Environmental Politics And Public Policy
- SFS 30100 - Agroecology
- STAT 50300 - Statistical Methods For Biology
- STAT 51100 - Statistical Methods

**Economics Selective (3 Credits)**

- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy
- AGEC 21700 - Economics
- ECON 21000 - Principles Of Economics
- ECON 25100 - Microeconomics
- ECON 25200 - Macroeconomics

Department of Entomology

Overview

Vision

To be a leader recognized worldwide for the solutions and discoveries generated through the application of science focused on arthropod and nematode biology.

Mission

To improve the quality of life for the state, nation and the world by advancing scientific knowledge through the development and application of arthropod/nematode science.

Core Values

• Strive to be pace setting in everything we do
• Encourage the highest standards of ethics and citizenship
Operate in an open, objective, and inclusive environment
A community of scholars committed to excellence and teamwork
Promote the synergism that comes from interdisciplinary interactions
Value our human capital
Embrace and promote increased diversity
Adopt emerging information and other technologies as tools - not final solutions
Resolve to actively disseminate our knowledge to people of all ages

The main office for the department is located in Room 127 of SMTH Hall.

Graduate Information

For Graduate Information please see Entomology Graduate Program Information.

Baccalaureate

Insect Biology, BS

About the Program

Insect Biology Majors study insects and related organisms. The program emphasizes "hands on learning" with opportunities for faculty mentored undergraduate research, field and laboratory experiences and study abroad options. Insect biologists apply knowledge and modern technology to address grand challenges including protection of human and animal health, food, and property, and natural environments. Insect biologists work as scientists, educators, technicians, consultants, and specialists in urban, agricultural, and natural environments to prevent the spread of disease, feed the world, promote biodiversity, protect the environment, solve crimes, strengthen biosecurity, and teach science. Careers are as diverse as the insects we study.

Entomology Website
Degree Requirements

120 Credits Required

Departmental/Program Major Courses (43 credits)

Required Major Courses (43 credits)

- ENTM 10100 - Insect Biology And Societal Grand Challenges
- ENTM 10200 - The Practice Of Science
- ENTM 20100 - Scientific And Technical Communication
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- ENTM 21000 - Introduction To Insect Behavior
- ENTM 25300 - Insect Physiology And Biochemistry
- ENTM 30100 - Experimentation And Analysis
- ENTM 31100 - Insect Ecology
- ENTM 31200 - Insect Chemical Ecology
- ENTM 33500 - Introduction To Insect Identification
- ENTM 35300 - Insecticides And Environment
- ENTM 39300 - Insect Biology Practicum (requires four 8-week courses of 0.5 credit hours each for a total of 2.00 credit hours)
- ENTM 40100 - Addressing Grand Challenges Through Insect Biology
- ENTM 41000 - Applied Insect Biology
- ENTM 49310 - Insect Biology Capstone Experience
- ENTM 49390 - Insect Biology Capstone Forum
- ENTM 41001 - Insects Of Urban Landscapes or
- ENTM 41002 - Insects Of Agricultural Crops

Other Departmental /Program Course Requirements (58-59 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11700 - Introduction To Entomology Academic Programs
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BTNY 35000 - Biotechnology In Agriculture
- CHM 11000 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- PHYS 21400 - The Nature Of Physics
- STAT 30100 - Elementary Statistical Methods

- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core) or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

- Calculus Selective (satisfies Quantitative Reasoning for core) - Credit Hours: 3.00 *
- Directed Science Selective - Credit Hours: 3.00
- Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
- Science, Technology & Society Selective - Credit Hours: 3.00
- Human Cultures: Humanities Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00

Additional Requirements

Click here for Insect Biology Supplemental Information

Electives (18-19 credits)

- Electives - Credit Hours: 18.00-19.00

College of Agriculture & University Level Requirements

- 2.00 GPA required for Bachelor of Science degree.
- 32 Upper division credits taken from Purdue
- International Understanding Selective - Credit Hours: 9.00
- Multicultural Awareness Selective - Credit Hours: 3.00
- 6 Credits: Written/Oral Communication or Social Science and Humanities categories must come from 30000+ courses or above - Credit Hours: 3.00 AND Written/Oral Communication or Social Science and Humanities categories must come from 30000+ or above or from a course with a required pre-requisite in the same department - Credit Hours: 3.00
- Humanities and/or Social Sciences outside the College of Agriculture - Credit Hours: 9.00

University Core Requirements

- Human Cultures Humanities
- Human Cultures Behavioral/Social Science
- Information Literacy
- Science #1
- Science #2
- Science, Technology, and Society
- Written Communication
- Oral Communication
- Quantitative Reasoning

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11700 - Introduction To Entomology Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- CHM 11100 - General Chemistry
- ENTM 10100 - Insect Biology And Societal Grand Challenges
- ENTM 10200 - The Practice Of Science
- Calculus Selective - Credit Hours: 3.00 ♦

14 Credits

Spring 1st Year

- BIOL 11100 - Fundamentals Of Biology II
- CHM 11200 - General Chemistry
- ENTM 21000 - Introduction To Insect Behavior
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- Economics Selective - Credit Hours: 3.00

16-17 Credits

Fall 2nd Year

- ENTM 20100 - Scientific And Technical Communication
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- PHYS 21400 - The Nature Of Physics
- STAT 30100 - Elementary Statistical Methods
- Human Cultures: Humanities Selective - Credit Hours: 3.00

15 Credits

Spring 2nd Year
• ENTM 31100 - Insect Ecology
• ENTM 25300 - Insect Physiology And Biochemistry

• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

• Humanities or Social Science Selective - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

16 Credits

Fall 3rd Year

• AGRY 32000 - Genetics
• AGRY 32100 - Genetics Laboratory
• ENTM 30100 - Experimentation And Analysis
• ENTM 33500 - Introduction To Insect Identification
• ENTM 39300 - Insect Biology Practicum - Credit Hours: 1.00
• Science, Technology, & Society Selective - Credit Hours: 3.00

15 Credits

Spring 3rd Year

• BTNY 35000 - Biotechnology In Agriculture
• ENTM 31200 - Insect Chemical Ecology
• ENTM 35300 - Insecticides And Environment
• ENTM 39300 - Insect Biology Practicum - Credit Hours: 1.00
• Directive Science Selective - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

16 Credits

Fall 4th Year

• ENTM 41000 - Applied Insect Biology
• ENTM 49310 - Insect Biology Capstone Experience

• ENTM 41001 - Insects Of Urban Landscapes or
• ENTM 41002 - Insects Of Agricultural Crops

• Electives - Credit Hours: 9.00-10.00
14-15 Credits

Spring 4th Year

- ENTM 40100 - Addressing Grand Challenges Through Insect Biology
- ENTM 49310 - Insect Biology Capstone Experience
- ENTM 49390 - Insect Biology Capstone Forum
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+) - Credit Hours: 3.00
- Elective - Credit Hours: 3.00

13 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Insect Biology: Forensic Entomology, BS

Students desiring to focus exclusively on forensic entomology are best served by this option in the department of Entomology. The forensic entomology area of concentration provides the coursework necessary for American Board of Forensic Entomology technician certification and is designed to meet the standards of the Forensic Science Education Programs Accreditation Commission for forensic science. As such, this program is intended for those interested in being crime scene investigators.
anticipating they will work with entomological material, as well as post-graduate programs in Entomology of Biology focusing on forensics.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (52 credits)

Required Major Courses (52 credits)

- ENTM 10100 - Insect Biology And Societal Grand Challenges
- ENTM 10200 - The Practice Of Science
- ENTM 20100 - Scientific And Technical Communication
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- ENTM 21000 - Introduction To Insect Behavior
- ENTM 22810 - Forensic Investigation
- ENTM 22820 - Forensic Analysis
- ENTM 22830 - Forensic Testimony And Ethics
- ENTM 22840 - Forensic Entomology Principles
- ENTM 25300 - Insect Physiology And Biochemistry
- ENTM 30100 - Experimentation And Analysis
- ENTM 31100 - Insect Ecology
- ENTM 32810 - Practical Molecular Biology
- ENTM 32820 - Medico-Legal Entomology
- ENTM 33500 - Introduction To Insect Identification
- ENTM 39300 - Insect Biology Practicum (requires four 8-week courses of 0.5 credit hours each for a total of 2.00 credit hours)
- ENTM 40100 - Addressing Grand Challenges Through Insect Biology
- ENTM 42820 - Carrion Ecology
- ENTM 49390 - Insect Biology Capstone Forum

Other Departmental /Program Course Requirements (67-68 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11700 - Introduction To Entomology Academic Programs
- AGRY 32000 - Genetics
- AGRY 32100 - Genetics Laboratory
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- CHM 11500 - General Chemistry
- CHM 11600 - General Chemistry
- CHM 25500 - Organic Chemistry
- CHM 25501 - Organic Chemistry Laboratory
- CHM 25600 - Organic Chemistry
- CHM 25601 - Organic Chemistry Laboratory
- PHYS 22000 - General Physics
- PHYS 22100 - General Physics
- STAT 30100 - Elementary Statistical Methods
- ENGL 10600 - First-Year Composition or

Department of Food Science

Overview

The Department of Food Science at Purdue University is committed to impacting the world food system and quality of life by educating and training undergraduate and graduate students for careers in industry, government, and academia. Our mission is to expand and transfer knowledge for continuous improvement of the safety, quality, value, and security of the world's food supply through basic research and outreach programs.

Our faculty, staff, and students are located on Purdue University's main campus in the Philip E. Nelson Hall of Food Science, 745 Agriculture Mall Drive, West Lafayette, Indiana 47907. This building provides excellent research laboratories, as well as specialized facilities such as the sensory evaluation laboratory, pilot scale-manufacturing plant, student product development and innovation laboratory, and enology library for us to engage with the food and beverage industry and government partners.

The main office for the department is located in Room 2211 of the NLSN Building.

Graduate Information

For Graduate Information please see Food Sciences Graduate Program Information.
Baccalaureate

Food Science, BS

About the Program

The field of Food Science applies science, such as microbiology and biochemistry, to discover ways to improve the taste, nutrition, and value of the food supply. A food scientist possesses the skills necessary to convert raw food products into safe, attractive foods and beverages. Graduates apply scientific knowledge and economic principles to food production, storage, distribution, product development, quality control, inspection, and sales, or they pursue graduate studies in food processing, microbiology, or chemistry.

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (34 credits)

Required Major Courses (34 credits)

- FS 16100 - Science Of Food
- FS 24500 - Food Packaging
- FS 29800 - Sophomore Seminar
- FS 34000 - Introduction To Food Law And Regulations
- FS 34100 - Food Processing I
- FS 34200 - Food Processing I Laboratory
- FS 36100 - Food Plant Sanitation
- FS 36200 - Food Microbiology
- FS 36300 - Food Microbiology Laboratory
- FS 43500 - Sensory Science
- FS 44200 - Food Processing II
- FS 44300 - Food Product Design (Capstone)
- FS 44400 - Statistical Process Control
- FS 44700 - Food Processing II Laboratory
- FS 45300 - Food Chemistry
- FS 45400 - Food Chemistry Laboratory
- FS 46700 - Food Analysis
- FS 46900 - Food Analysis Laboratory
- FS 48200 - Food Science Senior Seminar
- FS 53000 - Food Ingredient Technology

Other Departmental /Program Course Requirements (73-74 credits)
(See Advising Resources)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11800 - Introduction To Food Science Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 11100 - Fundamentals Of Biology II
- BIOL 22100 - Introduction To Microbiology ♦
- CHM 11500 - General Chemistry
- CHM 11600 - General Chemistry
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- BCHM 30700 - Biochemistry ♦
- BCHM 30900 - Biochemistry Laboratory
- MA 16010 - Applied Calculus I
- MA 16020 - Applied Calculus II
- NUTR 31500 - Fundamentals Of Nutrition
- PHYS 22000 - General Physics ♦
- STAT 30100 - Elementary Statistical Methods
- ENGL 10600 - First-Year Composition (satisfies Written Communication for core) (satisfies Information Literacy for core) or
  - ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
- COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Economics Selective (satisfies Human Culture Behavioral/Social Science for core) - Credit Hours: 3.00
- UCC Humanities Selective (satisfies Human Cultures Humanities for core) - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective - Credit Hours: 3.00
- Humanities or Social Science Selective (30000+ level) - Credit Hours: 3.00
- Professional Communications Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ Level) - Credit Hours: 3.00

Additionals Requirements

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11800 - Introduction To Food Science Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- CHM 11500 - General Chemistry
- FS 16100 - Science Of Food
- MA 16010 - Applied Calculus I

15 Credits

Spring 1st Year

- BIOL 11100 - Fundamentals Of Biology II
- CHM 11600 - General Chemistry
- MA 16020 - Applied Calculus II
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

- Elective - Credit Hours: 1.00

15-16 Credits

Fall 2nd Year

- BIOL 22100 - Introduction To Microbiology
- CHM 25700 - Organic Chemistry
- CHM 25701 - Organic Chemistry Laboratory
- FS 29800 - Sophomore Seminar
- STAT 30100 - Elementary Statistical Methods
• COM 11400 - Fundamentals Of Speech Communication or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

16 Credits

Spring 2nd Year

• BCHM 30700 - Biochemistry ♦
• BCHM 30900 - Biochemistry Laboratory
• FS 24500 - Food Packaging
• PHYS 22000 - General Physics ♦
• Economics Selective - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

15 Credits

Fall 3rd Year

• FS 34100 - Food Processing I
• FS 34200 - Food Processing I Laboratory
• FS 36100 - Food Plant Sanitation
• FS 36200 - Food Microbiology
• FS 36300 - Food Microbiology Laboratory
• NUTR 31500 - Fundamentals Of Nutrition
• UCC Humanities Elective - Credit Hours: 3.00
• Elective - Credit Hours: 2.00

17 Credits

Spring 3rd Year

• FS 45300 - Food Chemistry
• FS 45400 - Food Chemistry Laboratory
• FS 46700 - Food Analysis
• FS 46900 - Food Analysis Laboratory
• Written or Oral Communication Selective (20000+ Level) - Credit Hours: 3.00
• Elective - Credit Hours: 3.00

15 Credits

Fall 4th Year

• FS 44200 - Food Processing II
• FS 44400 - Statistical Process Control
• FS 44700 - Food Processing II Laboratory
• FS 48200 - Food Science Senior Seminar
• FS 53000 - Food Ingredient Technology
• Professional Communication Selective - Credit Hours: 3.00
• Humanities or Social Sciences Selective - Credit Hours: 3.00

12 Credits

Spring 4th Year

• FS 34000 - Introduction To Food Law And Regulations
• FS 43500 - Sensory Science
• FS 44300 - Food Product Design (Capstone)
• Humanities or Social Sciences Selective - Credit Hours: 3.00
• Humanities or Social Sciences Selective (30000+) - Credit Hours: 3.00
• Electives - Credit Hours: 3.00 - 4.00

14-15 Credits

Notes

• 2.0 GPA required for Bachelor of Science degree.
• Minimum GPA of 2.50 in FS core classes and NUTR 31500 is required for graduation
• Students must meet a minimum GPA ≥ 2.50 in math and science courses to enroll in upper division FS courses.
• Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.
Minor

Fermentation Sciences Minor

About this Program:

Enable students enrolled in the program to develop specific science-based knowledge, skills and expertise in the fermentation sciences area to broaden their employment and/or entrepreneurial opportunities.

Currently, there is enormous interest in the use of microorganisms at an industrial level in fields such as the pharmaceutical, chemical, and food industries. Even though fermentations have been used since ancient times as methods for food preservation, the industrial potential for sustainable production of many types of bio-based materials (ranging from foods and beverages, to biofuels, bioplastics, biopharmaceuticals, and fine chemicals) is only beginning to be explored.

Requirements for the Minor (18 credits)

Required Courses (3 credits)

- FS 16300 - Introduction To Fermentation Sciences

Minor Selectives - Choose Two (6 credits)

- BCHM 30700 - Biochemistry or
- BCHM 46200 - Metabolism or
- BCHM 56100 - General Biochemistry I or
- MCMP 20800 - Biochemistry For Pharmaceutical Sciences
AND
- BIOL 22100 - Introduction To Microbiology or
- BIOL 43800 - General Microbiology

Additional Courses: (9 credits)

- ABE 30400 - Bioprocess Engineering Laboratory
- ABE 58000 - Process Engineering Of Renewable Resources
- ABE 59100 - Special Topics - Principles of Systems and Synthetic Biology - Credit Hours: 3.00
- FS 47000 - Wine Appreciation
- FS 49100 - Special Assignments In Food Science
  - Dairy Products - Credit Hours: 1.00
  - Anaerobic Microbial Physiology - Credit Hours: 3.00
  - Crucial Metabolic Pathways in Food Fermentation - Credit Hours: 1.00
- FS 50600 - Commercial Grape And Wine Production
- FS 56400 - Commercial Food And Beverage Fermentations
- FS 59100 - Special Topics - Commercial Food and Beverage Fermentations Lab - Credit Hours: 1.00
- GER 28000 - German Special Topics - Beer & Brewing in Germany - Credit Hours: 3.00
- HORT 50600 - Commercial Grape And Wine Production
Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Food Science Minor

Requirements for the Minor (18 credits)

Required Courses (11 credits)

- FS 16100 - Science Of Food
- FS 34100 - Food Processing I
- FS 36200 - Food Microbiology
- FS 45300 - Food Chemistry

Selective Courses (7 credits)

- ANSC 35100 - Meat Science
- ANSC 35101 - Meat Science Laboratory
- NUTR 31500 - Fundamentals Of Nutrition
- FS 10000-59999* - All Food Sciences courses - Credit Hours: 3.00

Notes

- Department permission is not required to enroll in this minor.
- * Maximum of 3 credits of independent study (FS 29100 or FS 49100).

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Pet Food Processing Minor

Requirements for the Minor (21 credits)

Required Courses (21 credits)

- ANSC 10600 - Biology Companion Animal *
- ANSC 32400 - Applied Animal Nutrition
- ANSC 44600 - Companion Animal Management
- FS 16100 - Science Of Food
Notes

- Department permission is not required to enroll in this minor.
- * (3) ANSC 10200 (Introduction to Animal Agriculture) can be substituted for ANSC 10600, but ANSC 10600 is preferred for this minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Department of Forestry and Natural Resources

Overview

Welcome to the Department of Forestry and Natural Resources (FNR)! As one of the nation's elite programs in ecology and evolutionary biology, it is our mission to develop and disseminate knowledge associated with the protection, management, and sustainable use of terrestrial and aquatic ecosystems. FNR is training the next generation of professionals in the natural resource sciences, which includes aquatic science, forestry and wildlife.

Graduate Information

For Graduate Information please see Forestry and Natural Resources Graduate Program Information.

Baccalaureate

Aquatic Sciences: Fisheries Concentration, BS

About the Program

The Fisheries concentration will provide students with applied training relevant to fisheries science and management fields. This concentration builds on traditional fisheries programs by offering course in Fish Population Dynamics and Practical Fisheries Management. The Fisheries concentration is developed such that when a student completes the major/concentration she/he would have completed all coursework necessary to qualify as a Certified Fisheries Professional through the American Fisheries Society.

Forestry and Natural Resources

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (65-66 credits)

Required Major Courses (59-60 credits)

• FNR 12500 - Environmental Science And Conservation
- FNR 20100 - Marine Biology
- FNR 21000 - Natural Resource Information Management
- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 24250 - Laboratory In Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 25150 - Ecology And Systematics Of Mammals And Birds
- FNR 25250 - Laboratory In Ecology And Systematics Of Mammals And Birds
- FNR 30500 - Conservation Genetics
- FNR 35100 - Aquatic Sampling Techniques
- FNR 37010 - Natural Resources Practicum
- FNR 37100 - Fisheries And Aquatic Sciences Practicum
- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 38400 - Statistics For Natural Resources
- FNR 38500 - Fish Biology And Ecology
- FNR 40100 - Limnology
- FNR 45200 - Aquaculture
- FNR 45600 - Fish And Marine Population Dynamics
- FNR 45700 - Practical Fisheries Management
- FNR 47000 - Fundamentals Of Planning
- FNR 22310 - Introduction To Environmental Policy or
- POL 22300 - Introduction To Environmental Policy
- FNR 23000 - The World's Forests And Society or
- FNR 48800 - Global Environmental Issues
- FNR 52700 - Ecotoxicology or
- FNR 52800 - Wildlife And Environmental Forensics or
- FNR 52900 - Disease Ecology

Major Selectives (6 credits)

- Aquatics Selective - Credit Hours: 3.00
- Aquatics Selective - Credit Hours: 3.00

Other Departmental /Program Course Requirements (50-51 credits)

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11900 - Introduction To Forestry And Natural Resources Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- BIOL 28600 - Introduction To Ecology And Evolution
- BTNY 11000 - Introduction To Plant Science
- CHM 11100 - General Chemistry (satisfies Science #1 for core)
- CHM 11200 - General Chemistry (satisfies Science #2 for core)
- MA 16010 - Applied Calculus I (satisfies Quantitative Reasoning for core)
- STAT 30100 - Elementary Statistical Methods
- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness or
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy or
- ECON 25100 - Microeconomics
- AGRY 25500 - Soil Science or
- AGRY 27000 - Forest Soils
- PHIL 11100 - Introduction To Ethics or
- PHIL 28000 - Ethics And Animals or
• PHIL 29000 - Environmental Ethics
• ENGL 10600 - First-Year Composition (satisfies Written Communication and Information Literacy for core) or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity
• COM 11400 - Fundamentals Of Speech Communication (satisfies Oral Communication for core) or
• COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
• Physical Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Humanities or Social Science Selective - Credit Hours: 3.00
• Written or Oral Communication Selective - Credit Hours: 3.00

Prerequisite Information:
Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 11900 - Introduction To Forestry And Natural Resources Academic Programs
- BIOL 11000 - Fundamentals Of Biology I
- CHM 11100 - General Chemistry
- MA 16010 - Applied Calculus I
- ENGL 10600 - First-Year Composition or
- ENGL 10800 - Accelerated First-Year Composition or
- HONR 19903 - Interdisciplinary Approaches In Writing or
- SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

14-15 Credits

Spring 1st Year

- FNR 12500 - Environmental Science And Conservation
- BTNY 11000 - Introduction To Plant Science
- CHM 11200 - General Chemistry
- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
- SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World
- Elective - Credit Hours: 3.00-5.00

16-18 Credits

Fall 2nd Year

- FNR 20100 - Marine Biology
- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 24250 - Laboratory In Ecology And Systematics Of Fishes, Amphibians And Reptiles
- STAT 30100 - Elementary Statistical Methods
- AGEC 20300 - Introductory Microeconomics For Food And Agribusiness or
- AGEC 20400 - Introduction To Resource Economics And Environmental Policy or
- ECON 25100 - Microeconomics
- Written or Oral Communication Selective - Credit Hours: 3.00

16 Credits

Spring 2nd Year
- BIOL 28600 - Introduction To Ecology And Evolution
- FNR 21000 - Natural Resource Information Management
- FNR 25150 - Ecology And Systematics Of Mammals And Birds
- FNR 25250 - Laboratory In Ecology And Systematics Of Mammals And Birds
- FNR 34800 - Wildlife Investigational Techniques
- FNR 35100 - Aquatic Sampling Techniques
- AGRY 25500 - Soil Science or
- AGRY 27000 - Forest Soils

15 Credits

Summer Session

- FNR 37010 - Natural Resources Practicum
- FNR 37100 - Fisheries And Aquatic Sciences Practicum

6 Credits

Fall 3rd Year

- FNR 45600 - Fish And Marine Population Dynamics
- FNR 22310 - Introduction To Environmental Policy or
- POL 22300 - Introduction To Environmental Policy
- FNR 23000 - The World's Forests And Society or
- FNR 48800 - Global Environmental Issues
- Humanities or Social Science Selective - Credit Hours: 3.00

12 Credits

Spring 3rd Year

- FNR 30500 - Conservation Genetics
- FNR 38400 - Statistics For Natural Resources
- FNR 38500 - Fish Biology And Ecology
- FNR 40100 - Limnology

13 Credits

Fall 4th Year

- FNR 45700 - Practical Fisheries Management
- FNR 47000 - Fundamentals Of Planning
- Aquatics Science Selective - Credit Hours: 3.00
- Physical Science Elective - Credit Hours: 3.00

12 Credits
Spring 4th Year

- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 45200 - Aquaculture
- FNR 52700 - Ecotoxicology or
- FNR 52800 - Wildlife And Environmental Forensics or
- FNR 52900 - Disease Ecology
- PHIL 11100 - Introduction To Ethics or
- PHIL 28000 - Ethics And Animals or
- PHIL 29000 - Environmental Ethics
- Humanities or Social Science Selective - Credit Hours: 3.00

14 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Aquatic Sciences: Marine and Freshwater Biology Concentration, BS

About the Program
The Marine and Freshwater Biology concentration provides education and training opportunities for students broadly interested in aquatic sciences. Marine-science-focused courses are included in this concentration in response to interest shown by a large number of Purdue students enrolled in classes such as FNR 20100 Marine Biology. These courses include a Marine Biology Practicum experience along the Gulf Coast, an Advanced Marine Biology course and a physical sciences requirement (for example, oceanography). This concentration provides students with rigorous training in the marine sciences and places Purdue among the leaders in marine science education in the Midwest. The AQSC major also offers a new course in Limnology - a critical knowledge area for marine and freshwater biologists.

Forestry, BSFOR

About the Program

Learn to apply biological, ecological, economic and social knowledge as you develop and implement sustainable forest management plans. Studies emphasize understanding how forest ecosystems function, the role of natural and human disturbance, and ecosystem resilience. The Forestry major was recently revised to allow students to specialize in one of four concentrations: forest management, forest science, urban forestry, and sustainable biomaterials (the latter is a technology-based degree for making products out of wood). This major prepares the student for careers with public agencies such as state divisions of forestry or the U.S. Forest Service (forest management concentration), private industry and consulting firms (urban forestry, sustainable biomaterials) and graduate school (forest science). The major is accredited by the Society of American Foresters.

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Forestry: Forest Management Concentration, BSFOR

About the Program

Learn to apply biological, ecological, economic and social knowledge as you develop and implement sustainable forest management plans. Studies emphasize understanding how forest ecosystems function, the role of natural and human disturbance, and ecosystem resilience. The Forestry major was recently revised to allow students to specialize in one of four concentrations: forest management, forest science, urban forestry, and sustainable biomaterials (the latter is a technology-based degree for making products out of wood). This major prepares the student for careers with public agencies such as state divisions of forestry or the U.S. Forest Service (forest management concentration), private industry and consulting firms (urban forestry, sustainable biomaterials) and graduate school (forest science). The major is accredited by the Society of American Foresters.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish
Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Forestry: Urban Forestry, BSFOR

About the Program

Learn to apply biological, ecological, economic and social knowledge as you develop and implement sustainable forest management plans. Studies emphasize understanding how forest ecosystems function, the role of natural and human disturbance, and ecosystem resilience. The Forestry major was recently revised to allow students to specialize in one of four concentrations: forest management, forest science, urban forestry, and sustainable biomaterials (the latter is a technology-based degree for making products out of wood). This major prepares the student for careers with public agencies such as state divisions of forestry or the U.S. Forest Service (forest management concentration), private industry and consulting firms (urban forestry, sustainable biomaterials) and graduate school (forest science). The major is accredited by the Society of American Foresters.

Sustainable Biomaterials - Process and Product Design, BS

About the Program

Students learn the basics of sustainability of biomaterials, product design, processing and conservation. Studies focus on sustainable materials resource evaluation, product strength design, lean manufacturing, end of life options, cradle to grave, cradle to cradle, zero impact theories, and use of life cycle assessment techniques. You will gain experience with complex natural resources utilization issues on a local and global scale. You are prepared for management positions in manufacturing industries, particularly the wood products manufacturing and the hardwood cabinet and furniture industries.

16 Credits

Fall 2nd Year

- FNR 22500 - Dendrology
- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 24250 - Laboratory In Ecology And Systematics Of Fishes, Amphibians And Reptiles
- STAT 30100 - Elementary Statistical Methods
- Humanities or Social Science Selective - Credit Hours: 3.0

13 Credits

Spring 2nd Year

- AGRY 27000 - Forest Soils
- BIOL 28600 - Introduction To Ecology And Evolution
- FNR 21000 - Natural Resource Information Management
- FNR 25150 - Ecology And Systematics Of Mammals And Birds
- FNR 25250 - Laboratory In Ecology And Systematics Of Mammals And Birds
- FNR 34800 - Wildlife Investigational Techniques

15 Credits

Summer Session

- FNR 37010 - Natural Resources Practicum
- FNR 37050 - Forest Habitats And Communities Practicum
- FNR 37300 - Wildlife Practicum

6 Credits

Fall 3rd Year

- FNR 33100 - Forest Ecosystems
- FNR 34100 - Wildlife Habitat Management
- FNR 22310 - Introduction To Environmental Policy or
- POL 22300 - Introduction To Environmental Policy
- Humanities or Social Science Selective - Credit Hours: 3.00
- Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

15 Credits

Spring 3rd Year

- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 38400 - Statistics For Natural Resources
- (30000+ level CoA Humanities)
- Botany Selective - Credit Hours: 2.00
- Wildlife Selective - Credit Hours: 3.00
- Elective - Credit Hours: 3.00

14 Credits
Fall 4th Year

- FNR 35900 - Spatial Ecology And GIS
- FNR 44700 - Vertebrate Population Dynamics
- FNR 46500 - History And Role Of Hunting In North American Wildlife Conservation
- FNR 47000 - Fundamentals Of Planning
- FNR 52700 - Ecotoxicology or
- FNR 52800 - Wildlife And Environmental Forensics or
- FNR 52900 - Disease Ecology
- Elective - Credit Hours: 3.00

13 Credits

Spring 4th Year

- FNR 30500 - Conservation Genetics
- PHIL 11100 - Introduction To Ethics (satisfies Humanities for core) or
- PHIL 28000 - Ethics And Animals or
- PHIL 29000 - Environmental Ethics
- Humanities or Social Science Selective - Credit Hours: 3.00
- Wildlife Selective - Credit Hours: 3.00
- Elective - Credit Hour: 1.00-2.00

13-14 Credits

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be
proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program”.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Minor

Fisheries and Aquatic Sciences Minor

Requirements for the Minor (16 credits)

Required Courses (7 credits)

- FNR 20100 - Marine Biology
- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 24250 - Laboratory In Ecology And Systematics Of Fishes, Amphibians And Reptiles

Selective Courses (9 credits)

- FNR 37800 - Marine Biology Practicum
- FNR 38500 - Fish Biology And Ecology
- FNR 40100 - Limnology
- FNR 45200 - Aquaculture
- FNR 45300 - Fish Physiology
- FNR 45500 - Fish Ecology
- FNR 45800 - Advanced Marine Biology
- FNR 52700 - Ecotoxicology
- FNR 52800 - Wildlife And Environmental Forensics
- FNR 52900 - Disease Ecology
- FNR 55100 - Advanced Ichthyology
- FNR 55200 - Advanced Freshwater Ecology
- SFS 31100 - Aquaponics

Notes

- Departmental permission is not required to enroll in this minor.
- Other FNR 49800 or 59800 courses, with FNR approval may be used.
- For students in other FNR majors, courses required in the student's major cannot be used to meet the 9 credits of selectives for this minor.

Disclaimer
The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

**Forest Ecosystems Minor**

**Requirements for the Minor (18 credits)**

**Required Courses (12 credits)**

- FNR 22500 - Dendrology
- FNR 33100 - Forest Ecosystems
- FNR 33900 - Principles Of Silviculture
- FNR 35300 - Natural Resources Measurement

**Selective Courses (6 credits)**

- AGRY 27000 - Forest Soils
- BIOL 28600 - Introduction To Ecology And Evolution
- FNR 21000 - Natural Resource Information Management
- FNR 23000 - The World's Forests And Society
- FNR 30110 - Sustainable Wood Products Manufacturing
- FNR 33300 - Fire Effects In Forest Environments
- FNR 35700 - Fundamental Remote Sensing
- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 40700 - Forest Economics
- FNR 43400 - Tree Physiology
- FNR 53600 - Ecology Of Disturbance
- FNR 53601 - Ecology Of Disturbance Practicum

**Notes**

- Departmental permission is not required to enroll in this minor.
- Other FNR 49800 or FNR 59800 courses, with FNR approval may be used.
- For students in FNR majors, courses required in the student's major cannot be used to meet the 6 credits of selectives for this minor.

**Disclaimer**

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

**Furniture Design Minor**

**Requirements for the Minor (18 credits)**
Required Courses (18 credits)

- AD 53500 - Furniture Design
- FNR 31110 - Identification And Basic Properties Of Wood
- FNR 41800 - Properties Of Wood Related To Manufacturing
- FNR 41910 - Furniture Product Development And Strength Design
- FNR 42500 - Secondary Wood Products Manufacturing
- FNR 48410 - Sustainable Wood Products, Furniture Design And Manufacturing

Note

- Departmental permission is not required to enroll in this minor.

Urban Forestry Minor

Requirements for the Minor (16 credits)

A. Required Courses (7 credits)

- FNR 44400 - Arboricultural Practices
- FNR 44500 - Urban Forest Issues

B. Selective Courses (9 credits)

- AGRY 25500 - Soil Science
- FNR 21000 - Natural Resource Information Management
- FNR 22310 - Introduction To Environmental Policy
- FNR 22500 - Dendrology
- FNR 33900 - Principles Of Silviculture
- FNR 35700 - Fundamental Remote Sensing
- FNR 35900 - Spatial Ecology And GIS
- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 43400 - Tree Physiology
- HORT 21700 - Woody Landscape Plants
- HORT 30100 - Plant Physiology
- HORT 31700 - Landscape Contracting And Management

Notes

- Departmental permission is not required to enroll in this minor.
Other FNR 49800 or 59800 courses, with FNR approval may be used.

For students in other FNR majors, courses required in the student's major cannot be used to meet the eight credits of selectives for this minor.

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Wildlife Science Minor

Requirements for the Minor (17 credits)

Required Courses (11 credits)

- FNR 24000 - Wildlife In America
- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 24250 - Laboratory In Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 25150 - Ecology And Systematics Of Mammals And Birds
- FNR 25250 - Laboratory In Ecology And Systematics Of Mammals And Birds

Selective Courses (6 credits)

- BIOL 28600 - Introduction To Ecology And Evolution
- BIOL 48300 - Great Issues: Environmental And Conservation Biology
- BIOL 58000 - Evolution
- BIOL 58500 - Ecology
- FNR 30500 - Conservation Genetics
- FNR 33300 - Fire Effects In Forest Environments
- FNR 35900 - Spatial Ecology And GIS
- FNR 44700 - Vertebrate Population Dynamics
- FNR 46500 - History And Role Of Hunting In North American Wildlife Conservation
- FNR 52700 - Ecotoxicology
- FNR 52800 - Wildlife And Environmental Forensics
- FNR 52900 - Disease Ecology
- FNR 53600 - Ecology Of Disturbance
- FNR 54300 - Conservation Biology I
- FNR 56700 - Advanced Mammalogy
- FNR 57100 - Advanced Ornithology
- FNR 59800 - Topical Problems In Forestry And Natural Resources - Advanced Herpetology

Notes

- Departmental permission is not required to enroll in this minor.
- Other FNR 49800 or FNR 59800 courses, with FNR approval may be used.
• For students in FNR majors, courses required in the student's major cannot be used to meet the 6 credits of selectives for this minor.

Disclaimer

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Wood Products Manufacturing Technology Minor

Requirements for the Minor (15 credits)

Required Courses (9 credits)

• FNR 30110 - Sustainable Wood Products Manufacturing
• FNR 31110 - Identification And Basic Properties Of Wood
• FNR 48410 - Sustainable Wood Products, Furniture Design And Manufacturing

Selective Courses (6 credits)

• AD 49000 - Special Problems In Art And Design
• AD 53500 - Furniture Design
• CGT 11000 - Technical Graphics Communications
• MET 14300 - Materials And Processes I
• MET 24500 - Manufacturing Systems
• TLI 23500 - Introduction To Lean And Sustainable Systems
• TLI 43530 - Operations Planning And Management
• TLI 43540 - Facilities Planning And Material Handling

Note

• Departmental permission is not required to enroll in this minor.

- HONR 19900 - Interdisciplinary Honors - Introductory Seminar -Science And Pseudoscience
- HONR 29900 - Interdisciplinary Honors - Experiential Learning -Insects in Lit, Art, & Music
- HORT 30600 - History Of Horticulture

Written or Oral Communications Selective (3 Credits)

- ASL 10000:59999
- COM 20000:59999
- ENGL 20000:59999
- AGR 20100 - Communicating Across Culture
- ASEc 44000 - Methods Of Teaching Agricultural Education
- EDPS 31500 - Collaborative Leadership: Interpersonal Skills
- ENTM 20100 - Scientific And Technical Communication

Forest Health Selective (3 Credits)

- BTNY 30100 - Introductory Plant Pathology
- ENTM 10500 - Insects: Friend And Foe
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- FNR 33300 - Fire Effects In Forest Environments

Forestry: Forest Management Concentration Supplemental Information

Forestry Selectives

- FNR 30500 - Conservation Genetics
- FNR 31110 - Identification And Basic Properties Of Wood
- FNR 35900 - Spatial Ecology And GIS
- FNR 44400 - Arboricultural Practices
- FNR 53500 - Forest Regeneration
- FNR 53600 - Ecology Of Disturbance
- FNR 53601 - Ecology Of Disturbance Practicum
Forest Health Selectives

- BTNY 30100 - Introductory Plant Pathology
- BTNY 52500 - Intermediate Plant Pathology
- BTNY 53500 - Plant Disease Management
- BTNY 55800 - Pathogens Of Plants
- ENTM 20600 - General Entomology
- ENTM 20700 - General Entomology Laboratory
- ENTM 41000 - Applied Insect Biology
- ENTM 41001 - Insects Of Urban Landscapes
- FNR 33300 - Fire Effects In Forest Environments

Humanities or Social Sciences Selectives

See approved list at https://ag.purdue.edu/oap/Pages/core_social-humanities.aspx

Forestry: Forest Science Concentration Supplemental Information

Forest Science Concentration Selectives

Biometrics and Statistics

- BIOL 58210 - Ecological Statistics
- STAT 50300 - Statistical Methods For Biology
- STAT 51200 - Applied Regression Analysis
- STAT 51400 - Design Of Experiments

Ecology & Systematics Selectives

- FNR 24150 - Ecology And Systematics Of Fishes, Amphibians And Reptiles
- FNR 25150 - Ecology And Systematics Of Mammals And Birds

Forest Ecology and Silviculture

- AGRY 34900 - Soil Ecology
- BIOL 48300 - Great Issues: Environmental And Conservation Biology
- BIOL 58500 - Ecology
- BIOL 59100 - Field Ecology
- FNR 33300 - Fire Effects In Forest Environments
- FNR 53500 - Forest Regeneration
- FNR 53600 - Ecology Of Disturbance
- FNR 53601 - Ecology Of Disturbance Practicum
- FNR 54300 - Conservation Biology I

Forest Geospatial Analytics
- AT 20900 - Civilian Unmanned Aerial Systems
- ASM 21600 - Introduction To Surveying
- FNR 35900 - Spatial Ecology And GIS
- CE 40300 - Principles Of Photogrammetry And Remote Sensing

**Plant Biology Selectives**

Welcome to the Department of Horticulture and Landscape Architecture at Purdue University. The mission of the Department of Horticulture and Landscape Architecture is both education and discovery. Our faculty is committed to teaching and counseling students, and enjoys a worldwide reputation for excellence in research related to horticultural crops.

Our goal is to provide the student with the necessary technical information to be immediately successful in today's horticulture. Beyond that, we strive to provide students with the analytical skills necessary to interpret new information as the world of horticulture continues to change. In addition, our curricula are designed to provide you with communication skills, analytical skills and sensitivity to cultural diversity necessary for success in an increasingly global economy.

Upon graduation, you will leave Purdue with a wealth of knowledge and the skills for continued life-long learning. This commitment to quality education by our faculty makes the Department of Horticulture and Landscape Architecture at Purdue University one of the first places potential employers turn for employees.

Faculty

Contact Information

Department of Horticulture & Landscape Architecture

Purdue University
The main office for the department is located in room 207 of the HORT Building.

Graduate Information

For Graduate Information please see Horticulture and Landscape Architecture Graduate Program Information.

Baccalaureate

Horticulture: Horticultural Production and Marketing Concentration, BS

About the Program

Horticultural production and marketing prepares students in the commercial production of horticultural crops and business management of horticultural enterprises. Graduates may manage greenhouses or nurseries, floral or plant shops, garden centers, orchards, vegetable farms, and farm markets. They may be involved with development, distribution, or sales of equipment, chemicals, or plant materials.

Horticulture Website

Degree Requirements

120 Credits Required

Departmental/Program Major Courses (24 credits)

Required Major Courses (24 credits)

- HORT 10100 - Fundamentals Of Horticulture
- HORT 11000 - Opportunities In Horticulture
- HORT 20100 - Plant Propagation
- HORT 30100 - Plant Physiology
- HORT 31800 - Field Production Of Horticultural Crops
- HORT 31900 - Controlled Environment Production Of Horticultural Crops
• HORT 42700 - Horticulture Capstone
• HORT 43500 - Developing An Agricultural Startup
• HORT 51300 - Nutrition Of Horticulture Crops
• HORT 54100 - Postharvest Technology Of Fruits And Vegetables

Other Departmental/Program Course Requirements (88-89 credits)

• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• AGEC 33000 - Management Methods For Agricultural Business
• AGEC 33100 - Principles Of Selling In Agricultural Business
• AGR 10100 - Introduction To The College Of Agriculture And Purdue University
• AGR 12000 - Introduction To Horticulture And Landscape Architecture Academic Programs
• AGRY 25500 - Soil Science
• AGRY 32000 - Genetics
• BTNY 11000 - Introduction To Plant Science
• BTNY 30100 - Introductory Plant Pathology

Notes

- 2.0 GPA required for Bachelor of Science degree.
- Consultation with an advisor may result in an altered plan customized for an individual student.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.
Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Horticulture: Landscape Contracting and Management Concentration, BS

About the Program

Students selecting landscape contracting and management are prepared to direct "hands-on" fashion, the technical side of landscape construction and plant installation. Graduates of this program often operate a landscape contracting business, a design/build company or a landscape management firm, or they may work as a grounds manager.

Horticulture: Landscape Design Concentration, BS

About the Program

Graduates in Landscape Design will be ready to create planting plans and construction site plans for landscape and garden development. They will be able to work with clients to determine requirements and oversee installation of new landscapes, especially at the small commercial/institutional and residential scales.

Program Requirements

Fall 1st Year

- AGR 10100 - Introduction To The College Of Agriculture And Purdue University
- AGR 12000 - Introduction To Horticulture And Landscape Architecture Academic Programs
- BTNY 11000 - Introduction To Plant Science
- CHM 11100 - General Chemistry
- HORT 10100 - Fundamentals Of Horticulture ♦

- COM 11400 - Fundamentals Of Speech Communication or
- COM 21700 - Science Writing And Presentation or
• EDPS 31500 - Collaborative Leadership: Interpersonal Skills or
• SCLA 10200 - Transformative Texts, Critical Thinking And Communication II: Modern World

14 Credits

Spring 1st Year

• CHM 11200 - General Chemistry
• HORT 11000 - Opportunities In Horticulture
• HORT 20100 - Plant Propagation ♦
• MA 15800 - Precalculus- Functions And Trigonometry

• ENGL 10600 - First-Year Composition or
• ENGL 10800 - Accelerated First-Year Composition or
• HONR 19903 - Interdisciplinary Approaches In Writing or
• SCLA 10100 - Transformative Texts, Critical Thinking And Communication I: Antiquity To Modernity

• Human Cultures: Humanities Selective - Credit Hours: 3.00

16-17 Credits

Fall 2nd Year

• AGEC 20300 - Introductory Microeconomics For Food And Agribusiness
• CHM 25700 - Organic Chemistry ♦
• HORT 21700 - Woody Landscape Plants
• LA 10110 - Survey Of Landscape Architecture
• LA 16100 - Land And Society
• Elective - Credit Hours: 2.00

16 Credits

Spring 2nd Year

• AGEC 33000 - Management Methods For Agricultural Business
• AGRY 25500 - Soil Science ♦
• HORT 30100 - Plant Physiology
• Business/Supervision/Personnel Selective - Credit Hours: 3.00
• Humanities or Social Sciences Selective - Credit Hours: 3.00

16 Credits

Fall 3rd Year

• AGEC 33100 - Principles Of Selling In Agricultural Business
• BTNY 30100 - Introductory Plant Pathology
• HORT 21810 - Flowers For Color
• HORT 21820 - Hardy Herbaceous Landscape Plants
• Business/Supervision/Personnel Selective - Credit Hours: 3.00
• Entomology Selective - Credit Hours: 3.00

15 Credits

Spring 3rd Year

• AGRY 32000 - Genetics
• HORT 31900 - Controlled Environment Production Of Horticultural Crops
• MGMT 20010 - Business Accounting
• Statistics Selective - Credit Hours: 3.00
• Elective - Credit Hours: 2.00-3.00

14-15 Credits

Fall 4th Year

• HORT 31700 - Landscape Contracting And Management
• HORT 31800 - Field Production Of Horticultural Crops
• HORT 43500 - Developing An Agricultural Startup
• Humanities or Social Sciences Selective - Credit Hours: 3.00
• Elective - Credit Hours: 2.00

15 Credits

Spring 4th Year

• HORT 42700 - Horticulture Capstone
• Business/Supervision/Personnel Selective - Credit Hours: 3.00
• Business/Supervision/Personnel Selective - Credit Hours: 3.00
• Humanities or Social Science Selective(30000+ level) - Credit Hours: 3.00
• Written or Oral Communication Selective (20000+ level) - Credit Hours: 3.00

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish
Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Horticulture: Plant Science Concentration, BS

About the Program

Plant Science includes training to improve plants through genetic manipulation and to investigate new methods of propagation, growth, handling, and marketing of horticultural crops. Horticultural scientists work at colleges and universities, state and federal experiment stations, and public or private laboratories and foundations. This curriculum prepares students for scientifically oriented careers such as technicians in plant breeding, propagation, and research industries. It is an excellent preparatory program for students planning to pursue post-graduate study toward a Masters or PhD degree.

Horticulture: Public Horticulture Concentration, BS

About the Program

Public horticulture is a professional program leading to employment in botanical gardens and arboretums and other horticultural establishments serving the public. Graduates work as curators of plant collections, educators, plant propagators, illustrators, and writers. Practical training through internships in public gardens is stressed.

Landscape Architecture, BSLA

About the Program

Landscape architecture allows students to develop abilities in problem solving, analytical thinking, and communication. Three fundamental tracks run through the curriculum - design, technical, and plant materials. First-year students enter the pre-landscape architecture program and learn basic art, graphic communication, and design skills. Based on performance in their first year, qualified students are admitted into the professional landscape architecture program. In their second year, increasingly challenging projects allow students to apply their knowledge. Third-year students complete larger-scale projects and focus on more diverse and technically difficult concepts. Between the third and fourth years, students complete a co-op program wherein students are placed in professional offices nationwide for a minimum of forty weeks. Fourth year students focus on “real-client” projects in urban and regional design.

14 Credits

Notes

2.0 GPA required for Bachelor of Science degree.

** Students in Landscape Architecture fulfill the foundational mathematics requirement by (1) completing MA 15800 or higher or (2) completing STAT 30100. Enrolling in STAT 30100 requires either successfully completing MA 15300 and MA 15400 or
taking the advanced credit examination for MA 15300 and MA 15400 to establish competency. Three (3) credits of MA 15300 or MA 15400 may be used as an unrestricted elective in the College of Agriculture Undergraduate plans of study, but may not be used as Mathematics and Sciences selective.

Consultation with an advisor may result in an altered plan customized for an individual student.

Change of Option from Pre-landscape Architecture to the Professional Landscape Architecture Program

Pre-landscape architecture students, who wish to continue into the landscape architecture professional program, or transfer students from other institutions, must qualify by meeting the following criteria, or through further assessment as described below:

1. Overall GPA - The student must be in good academic standing. A minimum overall GPA of 2.5 across all Purdue and transferred credit coursework is necessary for acceptance into the landscape architecture professional program.

2. Grade point average of 3.0 or higher in all landscape architecture prefixed courses taken (LA Index).

3. Completion of LA 10600; or 11600 and 21600; or approved equivalent, and a minimum of 24 credit hours of Purdue accepted college level coursework are the minimum necessary for acceptance into the landscape architecture professional program.

Foreign Language Courses

Foreign Language proficiency requirements vary by program.

For acceptable languages and proficiency levels, see your advisor: American Sign Language, Arabic, Chinese, French, German, (ancient) Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish

Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

Sustainable Food and Farming Systems, BS

Overview

Learn how to design and manage a small farm enterprise. Study the principles of sustainable agriculture including non-chemical pest and soil management. Investigate organic, local, and urban agriculture systems and study the resilience of the American food
Gain hands-on experience at the new Purdue University student farm. This is a comprehensive, science-based degree program that will prepare you to manage low-input farming enterprises and for a career in many other agricultural and environmental professional fields.

Turf Management and Science, BS

About the Program
This major is for students interested in a career as a professional turf manager. A turf manager oversees and implements cultural management programs for the maintenance, production, conditioning and performance of a wide variety of turf areas like lawns, athletic fields, golf courses, parks, and sod farms. Managing a visually pleasing and manicured turf that is subject to intense use requires a foundation of technical expertise, the ability to make precise management decisions and a wealth of practical experience. The Turf Science and Management curriculum is based in scientific principles, while also providing the technical information, business/management, written/oral communication, and problem solving coursework and skills to promote managerial success. This Bachelor of Science degree broadly prepares students to handle a wide array of potential career paths in the Turf Industry.

Notes

Change of Options from Pre-landscape Architecture to the Professional Landscape Architecture Program

Pre-landscape architecture students, who wish to continue into the landscape architecture professional program, or transfer students from other institutions, must qualify by meeting the following criteria, or through further assessment as described below:

1. Overall GPA - The student must be in good academic standing. A minimum overall GPA of 2.5 across all Purdue and transferred credit coursework is necessary for acceptance into the landscape architecture professional program.
2. Grade point average of 3.0 or higher in all landscape architecture prefixed courses taken (LA Index).

3. Completion of LA 10600; or 11600 and 21600; or approved equivalent, and a minimum of 24 credit hours of Purdue accepted college level coursework are the minimum necessary for acceptance into the landscape architecture professional program.

- HORT 20100 - Plant Propagation
- HORT 30100 - Plant Physiology
- HORT 40300 - Tropical Horticulture
- HORT 50600 - Commercial Grape And Wine Production
- HORT 51300 - Nutrition Of Horticulture Crops
- HORT 54100 - Postharvest Technology Of Fruits And Vegetables

Animal Science Selective (3 Credits)

- ANSC 23000 - Physiology Of Domestic Animals
- ANSC 24500 - Applied Animal Management
- ANSC 35100 - Meat Science
- ANSC 39300 - Animal Industry Travel Course
- ANSC 49500 - Special Topics In Animal Sciences - Romania Study Abroad

Business Management Selective (3 Credits)

- AGEC 31000 - Farm Organization
- AGEC 31100 - Accounting For Farm Business Planning
- AGEC 32100 - Principles Of Commodity Marketing
- AGEC 32700 - Principles Of Food And Agribusiness Marketing
- AGEC 33000 - Management Methods For Agricultural Business
- AGEC 33100 - Principles Of Selling In Agricultural Business
- AGEC 41100 - Farm Management
- AGEC 43000 - Agricultural And Food Business Strategy
- MGMT 20000 - Introductory Accounting
- MGMT 20010 - Business Accounting
Ecology/Environment Selective (6 Credits)

- AGRY 33500 - Weather And Climate
- AGRY 33700 - Environmental Hydrology
- AGRY 33800 - Environmental Hydrology Laboratory
- BTNY 30200 - Plant Ecology
- EAPS 32000 - Physics Of Climate
- ENTM 31100 - Insect Ecology
- FNR 21000 - Natural Resource Information Management
- FNR 37500 - Human Dimensions of Natural Resource Management
- FNR 54300 - Conservation Biology I
- POL 22300 - Introduction To Environmental Policy

Food Science Selective (3 Credits)

- FS 16100 - Science Of Food
- FS 24500 - Food Packaging
- FS 34000 - Introduction To Food Law And Regulations
- FS 34100 - Food Processing I
- FS 34200 - Food Processing I Laboratory
- FS 36100 - Food Plant Sanitation
- FS 36200 - Food Microbiology
- FS 36300 - Food Microbiology Laboratory
- HORT 54100 - Postharvest Technology Of Fruits And Vegetables
- NUTR 31500 - Fundamentals Of Nutrition

Pest Management Selective (6 Credits)

- BTNY 30100 - Introductory Plant Pathology
- BTNY 30400 - Introductory Weed Science
- BTNY 51700 - Diseases Of Agronomic Crops
- BTNY 53500 - Plant Disease Management

Physiology or Production Selective (3-4 Credits)

- ANSC 23000 - Physiology Of Domestic Animals
- HORT 30100 - Plant Physiology
- HORT 31800 - Field Production Of Horticultural Crops
- HORT 31900 - Controlled Environment Production Of Horticultural Crops

Soil Science Selective (3 Credits)

- AGRY 34900 - Soil Ecology
- AGRY 36500 - Soil Fertility
- AGRY 45000 - Soil Conservation and Water Management
- AGRY 56500 - Soils And Landscapes
- AGRY 58000 - Soil Microbiology
System Modules Selectives (6 Credits)

- SFS 31100 - Aquaponics
- SFS 31200 - Urban Agriculture
- SFS 31300 - Farm To Fork
- SFS 31400 - Comparative Livestock Production Systems
- SFS 31500 - Principles Of Permaculture
- SFS 31600 - Decisions Through Systems Analysis

Economics Selective (3 Credits)

- AGEC 20400 - Introduction To Resource Economics And Environmental Policy
- AGEC 21700 - Economics
- ECON 21000 - Principles Of Economics
- ECON 25100 - Microeconomics
- ECON 25200 - Macroeconomics
