## College of Education

### Mission Statement

The College of Education provides leadership through exemplary teaching, research and engagement while embracing collaboration, creativity, respect and diversity. The college's mission is to advance scientific discovery in both applied and scholarly learning; prepare students to become exceptional teachers and education professionals; and maximize educational outcomes through inspired teaching, research and public service.

To further its mission, the College of Education creates knowledge through innovative inquiry and superior scholarship; delivers a contemporary and innovative professional curriculum; empowers faculty, staff and students to effect professional, social and technological change in a global, multi-cultural and diverse society; engages in cross-disciplinary collaboration to seek solutions to critical educational challenges both locally and globally; informs educational programs and policy; and attracts and retains talented and diverse faculty, staff and students.

### Organization and Purpose

The College of Education consists of the Department of Curriculum and Instruction and the Department of Educational Studies.

The Department of Curriculum and Instruction offers undergraduate instruction in elementary education and social studies education as well as courses in teaching methods for all programs leading to initial teacher licensure offered at Purdue. At the graduate level, the department offers degree programs in curriculum studies, education for work and community, educational technology, literacy and language education, mathematics education, science education and social studies education. At the graduate degree level, the department prepares master teachers, curriculum specialists, teacher educators, educational researchers, instructional designers, educational technology specialists and university faculty members.

The Department of Educational Studies offers undergraduate-level and graduate-level instruction in counseling and development, cultural foundations, educational leadership, educational psychology, gifted education, measurement and research methods and special education. At the graduate degree level, the department prepares educational researchers; educational policy analysts; school principals and superintendents; counseling psychologists; teacher educators; and specialists in gifted education, measurement and the social and philosophical foundations of education. There is a counseling psychology doctoral program accredited by the American Psychological Association.

## Overview

### Welcome to the Department of Curriculum & Instruction (C&I)

We offer high quality learning programs to prepare education professionals for positions in schools, higher education, and the workplace. Undergraduates in C&I may enroll in programs leading to teacher licensure in elementary education or social studies education. In addition, C&I offers courses in teaching methods for all programs leading to initial teacher licensure at Purdue. At the graduate level, students may pursue advanced degrees in education disciplines including curriculum studies, education for work and community, educational technology, literacy and language education, mathematics education, science education, and social studies education.

Our faculty conducts research that links theory to practice leading to new discoveries in many aspects of the teaching and learning process across a wide variety of educational contexts. C&I serves the needs of society through engagement with our local, state, national, and international communities. We value collaboration, community, diversity, global perspectives, inquiry, and reflection, and we aspire to provide educational leadership in an increasingly diverse, interconnected, and technology-rich world.

Sincerely,  
Janet M. Alsup  
Head of the Department of Curriculum & Instruction

## Mission Statement

We aspire to collaborate on issues associated with the teaching and learning process by linking theory and practice in a wide variety of educational contexts. We value community, collaboration, diversity, inquiry, and reflection.

We fulfill our mission by:

- Preparing education professionals for school, community, business, and government
- Providing educational experiences, built upon a common core of research and foundational knowledge, through innovative, coherent programs that include: diverse and field-based experiences, the infusion of technology, the integration of content and pedagogy, and ongoing assessment
- Fostering university-wide collaboration
- Reflecting diverse and international perspectives
- Engaging in teaching, inquiry, scholarship, service, and outreach activities

About the Program

Elementary Education reflects what is known about the best, evidence-based practices in teacher education and is aligned with state and national standards for elementary school teacher preparation. The program prepares professionals who embody the vision of education for a sustainable, socially-just world. Through professional courses and seminars that are paired with community experiences and extensive experiences in partner schools, the program prepares teachers who (a) are "inspired to care about our physical and social worlds and have the knowledge and skills [and dispositions] to enact that caring" (UNESCO, 2005), (b) revitalize classrooms and communities by providing equitable, socially just opportunities for learning and flourishing, (c) address racism at systemic and individual levels and recognize the impact of racism on learning and opportunities, and (d) promote interdependence between people, communities, and the natural world by what and how they teach (content and pedagogical practice).

The Elementary Education program prepares professionals who are attentive to the needs of diverse students and supports specialization in one or more learner pathways (i.e., students who are learning English as a new language, students with gifts and talents, students with special needs). The Elementary Education plan of study outlines the required courses to complete the degree for licensure.

This program meets state and national licensure standards and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the State of Indiana, State Board of Education. Admission to and successful completion of the Teacher Education Program (TEP) are required.

For more information about the degree program, visit the COE Office of Advising and Recruiting. For teacher licensure information, visit the Office of Teacher Education and Licensure.

## World Language Courses

World Language proficiency requirements vary by program. The following list is inclusive of all world languages PWL offers for credit; for acceptable languages and proficiency levels, see your advisor. (ASL-American Sign Language; ARAB-Arabic; CHNS-Chinese; FR-French; GER-German; GREK-Greek(Ancient); HEBR-Hebrew(Biblical); HEBR-Hebrew(Modern); ITAL-Italian; JPNS-Japanese; KOR-Korean; LATN-Latin; PTGS=Portuguese; RUSS-Russian; SPAN-Spanish)

## Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

## Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

Consultation with an advisor may result in an altered plan customized for an individual student.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

## English Education, BA

### About the Program

English Education (EGED) is a comprehensive teacher preparation program aligned with state and national standards to prepare individuals to teach English language arts at the secondary (grades 5-12) level.

Faculty have designed the program to prepare graduates who are able to develop critically literate participants in a diverse and democratic society. To achieve this goal, EGED conjoins best practices in teacher education with essential content knowledge in English language arts.

Students complete extensive coursework in literature, writing, and language-similar to that of non-teaching English majors but broader in scope. Professional education courses are taken throughout the program, including five content-specific methods courses (i.e., *how to teach* various aspects of English). Field experiences in local secondary schools are built in each semester of the program, culminating in a full semester of student teaching.

This program meets state and national licensure standards and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the State of Indiana, State Board of Education. Admission to and successful completion of the Teacher Education Program (TEP) are required.

Please visit English for more information.

The Civics Literacy Proficiency activities are designed to develop civic knowledge of Purdue students in an effort to graduate a more informed citizenry. For more information visit the Civics Literacy Proficiency website.

Students will complete the Proficiency by passing a test of civic knowledge, and completing one of three paths:

- Attending six approved civics-related events and completing an assessment for each; or
- Completing 12 podcasts created by the Purdue Center for C-SPAN Scholarship and Engagement that use C-SPAN material and completing an assessment for each; or
- Earning a passing grade for one of **these approved courses** (or transferring in approved AP or departmental credit in lieu of taking a course).

## Upper Level Requirement

- Resident study at Purdue University for at least two semesters and the enrollment in and completion of at least 32 semester hours of coursework required and approved for the completion of the degree. These courses are expected to be at least junior-level (30000+) courses.
- Students should be able to fulfill *most, if not all*, of these credits within their major requirements; there should be a clear pathway for students to complete any credits not completed within their major.

## Additional Information

- Indiana Licensure information - *Each student must meet all degree, program, and licensure requirements prior to being recommended for licensure.*

## **General Education: Curriculum and Instruction, BA (non-licensure)**

## About the Program

The curriculum and instruction major is for those interested in a career in the field of education but not necessarily classroom teaching. This major is non-teaching license program. It provides an educational leadership focus in an increasingly diverse, interconnected, and technology-rich world and values collaboration, community, diversity, global perspectives, inquiry, and reflection. Research on various aspects of educational practices is conducted and disseminated. A focus on theory-into-practice leads to new discoveries in the teaching and learning process across a wide variety of educational contexts. Sample signature areas of discovery include:

- Challenges of acquiring academic language for English language learners (ELLs).
- The Science Learning through Engineering Design (SLED) project.
- Study abroad and internationalization efforts by colleges and universities.
- Impact of technology on citizenship and citizenship education.
- Postsecondary learner's development of mathematics content knowledge.

The General Education: Curriculum & Instruction Plan of Study outlines the required courses to complete the degree. For more information about the degree program, visit the COE Office of Advising and Recruiting.

## **Social Studies Education, BA**

### **About the Program**

Social Studies Education (SSED) is a comprehensive teacher preparation program aligned with state and national standards to prepare individuals to teach a variety of social studies subjects at the secondary (grades 5-12) level.

Faculty have designed SSED to prepare graduates who are able to develop informed and active participants in a diverse and democratic society. To achieve this goal, SSED reflects both best practices in teacher education and an emphasis on essential content knowledge.

Students complete extensive coursework in three areas: Historical Perspectives, Economics, and Government/Citizenship, and introductory coursework in the remaining social studies content areas. Students may also choose to complete additional concentrations in Psychology and/or Sociology. Professional education courses are taken throughout the program with field experiences built in each semester of the program.

This program meets state and national licensure standards and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the State of Indiana, State Board of Education. Admission to and successful completion of the Teacher Education Program (TEP) are required.

The Social Studies Education Plan of Study outlines the required courses to complete the degree for licensure. For more information about the degree program, visit the COE Office of Advising and Recruiting. For teacher licensure information, visit the Office of Teacher Education and Licensure.

For pre-requisite information, click [here](#).

## World Language Courses

World Language proficiency requirements vary by program. The following list is inclusive of all world languages PWL offers for credit; for acceptable languages and proficiency levels, see your advisor. (ASL -American Sign Language; ARAB-Arabic; CHNS-Chinese; FR-French; GER-German; GREK-Greek(Ancient); HEBR-Hebrew(Biblical); HEBR-Hebrew(Modern); ITAL-Italian; JPNS-Japanese; KOR-Korean; LATN-Latin; PTGS=Portuguese; RUSS-Russian; SPAN-Spanish)

## Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

## Disclaimer

The student is ultimately responsible for knowing and completing all degree requirements.

Consultation with an advisor may result in an altered plan customized for an individual student.

The myPurduePlan powered by DegreeWorks is the knowledge source for specific requirements and completion.

## Minor

### Global Studies Minor

Learning doesn't have to take place in the classroom. The Global Studies minor within the College of Education focuses on education in an ever-changing globalized world. Combined with classes on multiculturalism in education and an emphasis on globalization, this minor shows employers that you have a global perspective and international experience, which can set you apart from other educators. Explore the world and develop a global world view.

### Requirements for the Minor (10-13 credits)

*Studying abroad (outside the United States) a minimum of two weeks is a requirement for the minor. These weeks do not need to be taken consecutively.*

#### A. Diversity, Equity, and Social Justice in Education (2-3 credits)

*Choose one.*

- EDCI 28500 - Multiculturalism And Education
- EDCI 58500 - Multicultural Education

## B. Multidisciplinary Course (3 credits)

*Choose one.*

- AGEC 25000 - Economic Geography Of World Food And Resources
- AGR 20100 - Communicating Across Culture
- ANTH 20500 - Human Cultural Diversity
- HIST 10500 - Survey Of Global History
- POL 23500 - International Relations Among Rich And Poor Nations
- **ADD EDCI 35002 (at 2nd REG step 3/23)**

**Credit Hours:** 3.00

## C. International/Globalization Emphasis (4-7 credits)

*Credit hours plus weeks abroad must equal 9.*

- 4 credit hours + 5 weeks abroad
- 5 credit hours + 4 weeks abroad
- 6 credit hours + 3 weeks abroad
- 7 credit hours + 2 weeks abroad

### 1. Study Abroad\* (2-5 Weeks)

*To meet the International/Globalization Emphasis, a student must study abroad (outside the United States) for a minimum of two weeks. The weeks abroad do not need to be taken consecutively.*

### 2. Additional Courses (4-7 credits)

- EDCI 37001 - Teaching And Learning English As A New Language
- EDCI 52600 - Language Study For Educators
- World Language course(s) - Credit Hours: 3.00 - 6.00
- International Focus course (pre-approval required, see below)\*\* - Credit Hours: 3.00
- Building on a global consciousness framework proposed by Mansilla and Gardner (2007), courses selected to meet this requirement should have an international focus that encourage a mindful way of being in the world and stimulate students to develop three dispositions: *global sensitivity* (awareness to connect local experiences to a global framework); *global understanding* (ability to think critically on global issues and provide sustainable solutions); and, *global self* (ability to perceive oneself as a global actor a world stage). Course syllabi should clearly indicate attention to these dispositions.

## D. Global Studies Seminar (1 credit)

*The Global Studies Seminar class is a Fall-only class offered on campus. This course **must be taken after the study abroad experience** for credit in the Global Studies Minor.*

- EDCI 45200 - Global Studies Seminar (*Fall Only*) or
- EDPS 45200 - Global Studies Seminar (*Fall Only*)

## Notes

- The Global Studies Minor is not a licensure program.
- \*Study Abroad is defined by any of a number of arrangements by which Purdue students complete part of their college program through educational activities outside the United States. Such activities include - but are not limited to - classroom study, research, intern or externships, and service learning.
- \*\*International Focus courses must receive pre-approval. Submit paperwork to College of Education Senior Advisor. This paperwork will be evaluated by the College of Education International Committee and the Associate Dean for Learning, Engagement, and Global Initiatives for a decision.

# Department of Educational Studies

## Overview

### Welcome to the Department of Educational Studies (EDST)

Cast against a vibrant history of innovation, research, teaching, and learning that continues to contribute to the enhancement of human potential in a wide variety of learning environments, our internationally recognized faculty offer world-class opportunities for study that emphasizes discovery of new knowledge. Amidst a collaborative, nurturing atmosphere in which professors know students by name, educational experiences are targeted at cutting-edge advances from the very people who have discovered them.

The EDST faculty is comprised of distinguished teachers and scholars who investigate, apply, practice, and disseminate information related to: the education of diverse learners; science, technology, engineering, and mathematics as well as the liberal arts; and effective instruction. In addition, EDST offers undergraduate majors that encourage students to work alongside faculty, who emphasize hands-on and exploratory experiences in Learning Sciences and Special Education.

Our graduates historically are successful in a diversity of positions in both the private and public sector. Depending on the program completed, graduates are employed as college and university faculty, researchers, consultants, educational research analysts, program evaluators, assessment specialists, clinicians, or therapists.

Whether you are a hard-working undergraduate, an ambitious graduate student, or a distinguished alumnus, we value your interest in EDST!

Warmly,  
Ala Samarapungavan  
Interim Department Head

## Mission Statement

The Department of Educational Studies (EDST) seeks to contribute to the discovery and development of human potential in diverse learning environments. This mission is accomplished through the discovery, application, and dissemination of new knowledge centered on three key themes: We aim to develop future generations of innovative,

engaged, and skilled education professionals through our high quality undergraduate and graduate programs. The department supports the mission of the College of Education and the goals and objectives of the college. We are committed to fostering a collaborative culture that values inquiry, diversity, and engagement among students, faculty, staff, and community as we move forward with our educational mission.

### General Education: Educational Studies, BA (non-licensure)

#### About the Program

The educational studies major is for those interested in a career in the field of education but not necessarily classroom teaching. This major is a non-teaching licensure program that provides a strong background in educational theory, practice and research. Research is conducted and disseminated on varied educational aspects of teaching, learning, and human development through discovery, teaching and engagement activities. Sample signature areas of discovery include:

- Using assistive technology to support school-based and community-based instruction for students with special needs.

- Developing effective instructional strategies in mathematics problem solving for students with learning disabilities.
- Developing identification tools and pedagogical models for underserved gifted and talented populations including students with diverse cultural backgrounds and children who live in poverty.
- Supporting motivation for and learning of science in young children including children from diverse cultural backgrounds and those living in poverty.
- Supporting students' psychological well-being (e.g., coping with death and dying, suicide prevention, multicultural issues, adult attachment).

The General Education: Educational Studies Plan of Study outlines the required courses to complete the degree. For more information about the degree program, visit the COE Office of Advising and Recruiting.

### Civics Literacy Proficiency Requirement

The Civics Literacy Proficiency activities are designed to develop civic knowledge of Purdue students in an effort to graduate a more informed citizenry. For more information visit the Civics Literacy Proficiency website.

Students will complete the Proficiency by passing a test of civic knowledge, and completing one of three paths:

- Attending six approved civics-related events and completing an assessment for each; or
- Completing 12 podcasts created by the Purdue Center for C-SPAN Scholarship and Engagement that use C-SPAN material and completing an assessment for each; or
- Earning a passing grade for one of **these approved courses** (or transferring in approved AP or departmental credit in lieu of taking a course).

## Upper Level Requirement

- Resident study at Purdue University for at least two semesters and the enrollment in and completion of at least 32 semester hours of coursework required and approved for the completion of the degree. These courses are expected to be at least junior-level (30000+) courses.
- Students should be able to fulfill *most, if not all*, of these credits within their major requirements; there should be a clear pathway for students to complete any credits not completed within their major.

## Additional Information

- *The General Education: Educational Studies major is not a licensure program.*

## Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should

know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

## Special Education/Elementary Education, BA

### About the Program

The Inclusion program unifies Elementary Education and Special Education teacher preparation to prepare future teachers to meet the unique needs of elementary students with and without disabilities. The Inclusion program focuses on the knowledge, disposition, and skills necessary to effectively serve students with various educational needs in kindergarten through 6<sup>th</sup> grade. This undergraduate program underscores critical thinking and data-driven decision making. The program is grounded in evidence-based practices that emphasizes (a) deep knowledge in all content areas (b) fostering the application of content knowledge to the classroom, (c) differentiating instruction to meet the needs of all students, and (d) understanding the contextual aspects of teaching (e.g., the organizational and policy context).

The program links courses with field experiences in partner school settings. Students are given opportunities to practice specialized skills to meet the individual needs of elementary students with and without disabilities in the classroom; develop Individualized Education Programs (IEPs); engage in data-driven decision making; and develop instructional, material and environmental modifications to support access to general education curricula. The inclusion program leverages and extends competencies of elementary teachers to build effective instruction and support for all learners.

An Inclusion major graduate is qualified to teach children in general education grades kindergarten through 6 (K-6) as well as special education for students with support needs ranging from mild to intense. Graduates are prepared to support all learners across a continuum of placements and to collaborate with a variety of professionals to meet the needs of students. The Inclusion Plan of Study outlines the required courses to complete the degree for licensure.

This program meets state and national licensure standards and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the State of Indiana, State Board of Education. Admission to and successful completion of the Teacher Education Program (TEP) are required.

For more information about the degree program, visit the COE Office of Advising and Recruiting. For teacher licensure information, visit the Office of Teacher Education and Licensure.

### Civics Literacy Proficiency Requirement

The Civics Literacy Proficiency activities are designed to develop civic knowledge of Purdue students in an effort to graduate a more informed citizenry. For more information visit the [Civics Literacy Proficiency website](#).

Students will complete the Proficiency by passing a test of civic knowledge, and completing one of three paths:

- Attending six approved civics-related events and completing an assessment for each; or
- Completing 12 podcasts created by the Purdue Center for C-SPAN Scholarship and Engagement that use C-SPAN material and completing an assessment for each; or
- Earning a passing grade for one of **these approved courses** (or transferring in approved AP or departmental credit in lieu of taking a course).

### Upper Level Requirement

- Resident study at Purdue University for at least two semesters and the enrollment in and completion of at least 32 semester hours of coursework required and approved for the completion of the degree. These courses are expected to be at least junior-level (30000+) courses.
- Students should be able to fulfill *most, if not all*, of these credits within their major requirements; there should be a clear pathway for students to complete any credits not completed within their major.

## **Special Education: Mild & Intense Intervention 5-12, BA**

### About the Program

Special Education meets the unique needs of individuals with disabilities by preparing professionals with the knowledge, disposition, and skills necessary to effectively serve individuals with diverse needs. The undergraduate program is grounded in evidence-based practices that emphasizes (a) creating connections between subject matter knowledge and teaching, (b) valuing the diverse characteristics of students and the ability to address the needs of all students, and (c) understanding the contextual aspects of teaching (e.g., the organizational and policy context).

The program links courses with field experiences in partner school and non-school settings. Particular attention is given to specialized skills to meet the individual needs of students with disabilities - serving students in various school and community settings; developing Individualized Education Programs (IEPs); engaging in data-driven decision making; and developing instructional, material and environmental modifications. All of these competencies are beyond the knowledge required for general educators.

A Special Education 5-12 graduate is qualified to teach children with or at risk for disability who require mild to intense supports from grade 5 through grade 12 levels, 5-12. Graduates are prepared to support students across a continuum of placements and to collaborate with a variety of professionals to meet the needs of students. The Special Education 5-12 Plan of Study outlines the required courses to complete the degree for licensure. ## Critical Course

The ♦ course is considered critical.

In alignment with the Degree Map Guidance for Indiana's Public Colleges and Universities, published by the Commission for Higher Education (pursuant to HEA 1348-2013), a Critical Course is identified as "one that a student must be able to pass to persist and succeed in a particular major. Students who want to be nurses, for example, should know that they are expected to be proficient in courses like biology in order to be successful. These would be identified by the institutions for each degree program".

## Special Education: Mild & Intense Intervention K-6, BA

### About the Program

Special Education meets the unique needs of individuals with disabilities by preparing professionals with the knowledge, disposition, and skills necessary to effectively serve individuals with diverse needs. The undergraduate program is grounded in evidence-based practices that emphasizes (a) creating connections between subject matter knowledge and teaching, (b) valuing the diverse characteristics of students and the ability to address the needs of all students, and (c) understanding the contextual aspects of teaching (e.g., the organizational and policy context).

The program links courses with field experiences in partner school and non-school settings. Particular attention is given to specialized skills to meet the individual needs of students with disabilities - serving students in various school and community settings; developing Individualized Education Programs (IEPs); engaging in data-driven decision making; and developing instructional, material and environmental modifications. All of these competencies are beyond the knowledge required for general educators.

A Special Education K-6 graduate is qualified to teach children with or at risk for disability who require mild to intense supports from kindergarten through grade 6 (K-6). Graduates are prepared to support students across a continuum of placements and to collaborate with a variety of professionals to meet the needs of students. The Special Education K-6 Plan of Study outlines the required courses to complete the degree for licensure. This program meets state and national licensure standards and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the State of Indiana, State Board of Education. Admission to and successful completion of the Teacher Education Program (TEP) are required.

For more information about the degree program, visit the COE Office of Advising and Recruiting. For teacher licensure information, visit the Office of Teacher Education and Licensure.

### Civics Literacy Proficiency Requirement

The Civics Literacy Proficiency activities are designed to develop civic knowledge of Purdue students in an effort to graduate a more informed citizenry. For more information visit the [Civics Literacy Proficiency website](#).

Students will complete the Proficiency by passing a test of civic knowledge, and completing one of three paths:

- Attending six approved civics-related events and completing an assessment for each; or
- Completing 12 podcasts created by the Purdue Center for C-SPAN Scholarship and Engagement that use C-SPAN material and completing an assessment for each; or
- Earning a passing grade for one of **these approved courses** (or transferring in approved AP or departmental credit in lieu of taking a course).

### Upper Level Requirement

- Resident study at Purdue University for at least two semesters and the enrollment in and completion of at least 32 semester hours of coursework required and approved for the completion of the degree. These courses are expected to be at least junior-level (30000+) courses.
- Students should be able to fulfill *most, if not all*, of these credits within their major requirements; there should be a clear pathway for students to complete any credits not completed within their major.
